It also helps the public understand BLM information collection requirements and ensure requested data are provided in the desired format.

The BLM is especially interested in public comment addressing the following:

- (1) whether collection of information is necessary for the proper performance of the functions of the agency, including if the information will have practical utility;
- (2) determination of the accuracy of the BLM's estimate of the burden for collection of information, including validity of methodology and assumptions used;
- (3) methods to enhance the quality, utility, and clarity of information to be collected; and
- (4) how the agency can minimize the burden of information collection on those who respond, including use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology.

Comments submitted in response to this notice are a matter of public record. The BLM will include or summarize each comment in its request to OMB to approve this ICR.
