

Transportation Systems Sector. Within the Intermodal Security Training Exercise Program, EXIS® is an interactive resource for the Transportation Systems Sector.

TSA is revising the information collection to reduce the data collected during user registration and will no longer collect Supervisor or other Sponsor's Name, Employment Verification Contact Name and Verification Contact Information. TSA determined the information was unnecessary because TSA is implementing new capabilities in EXIS® to verify an individual's identity more securely before granting access.

Estimated Annual Number of Respondents: 18,553.²

Estimated Annual Burden Hours: 11,422.4.

Dated: December 2, 2024.

Christina A. Walsh,

TSA Paperwork Reduction Act Officer, Office of Information Technology.

DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Intent To Request Extension From OMB of One Current Public Collection of Information: TSA End of Course Level 1 Evaluation—Instructor-Led Classroom Training

AGENCY: Transportation Security Administration, DHS.

ACTION: 60-Day notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR), Office of Management and Budget (OMB) control number 1652–0041, that we will submit to OMB for an extension in compliance with the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. The collection involves the submission of ratings and written comments about the quality of training instruction from students who successfully complete TSA instructor-led classroom training.

DATES: Send your comments by February 3, 2025.

ADDRESSES: Comments may be emailed to TSAPRA@dhs.gov or delivered to the

TSA PRA Officer, Information Technology, TSA–11, Transportation Security Administration, 6595 Springfield Center Drive, Springfield, VA 20598–6011.

FOR FURTHER INFORMATION CONTACT:

Christina A. Walsh at the above address, or by telephone (571) 227–2062.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652–0041; TSA End of Course Level 1 Evaluation—Instructor-Led Classroom Training. TSA's Canine Training Center (CTC) delivers instructor-led classroom training, including the Explosives Detection Canine Handler Course, Passenger Screening Canine Handler Course, Bridge Course, Canine Technical Operations Course, and the Office of Security Operations Canine Management Course to TSA, and state and local civilian personnel. State and local civilian personnel (primarily law enforcement agencies that are responsible for the security at domestic airports) participate in this classroom training under agency-specific cooperative agreements with TSA's National Explosives Detection Canine Team Program. This information collection captures ratings and written comments from students about the quality of the training. The CTC collects the evaluation data to determine

students' satisfaction with their learning experience and provides it to representatives at both TSA headquarters and at CTC (*e.g.*, to the Branch Manager, Deputy Branch Manager, and CTC instructional staff and supervisors) to improve the course curriculum and course of instruction.

TSA estimates an average of 156 students will complete the evaluations annually. The estimated burden is approximately 30 minutes (0.5 hours) per participant, or total of 78 hours per calendar year to read, answer, and submit the evaluation questions.

Dated: December 2, 2024.

Christina A. Walsh,

TSA Paperwork Reduction Act Officer, Information Technology.

Agency Information Collection Activities; Submission to the Office of Management and Budget; Federal Migratory Bird Hunting and Conservation Stamp (Duck Stamp) and Junior Duck Stamp Contests

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), we, the U.S. Fish and Wildlife Service (Service), are proposing to renew an information collection without change.

DATES: Interested persons are invited to submit comments on or before January 6, 2025.

ADDRESSES: Written comments and recommendations for the proposed information collection should be submitted within 30 days of publication of this notice at <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function. Please provide a copy of your comments to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS: PRB (JAO/3W), 5275 Leesburg Pike, Falls Church, VA 22041–3803 (mail); or by email to Info_Coll@fws.gov. Please reference “1018–

² Since the publication of the 60-day notice, TSA has updated the number of respondents from 16,713 to 18,553 and the burden hours from 10,299 to 11,422.4.

0172” in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Madonna L. Baucum, Service Information Collection Clearance Officer, by email at InfoColl@fws.gov, or by telephone at (703) 358–2503. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

On March 18, 2024, we published in the **Federal Register** (89 FR 19335) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on May 17, 2024. In an effort to increase public awareness of, and participation in, our public commenting processes associated with information collection requests, the Service also published the **Federal Register** notice on [Regulations.gov](https://www.regulations.gov) (Docket No. FWS–HQ–MB–2024–0042). We received two comments in response to that notice; however, neither comment addressed the information collection requirements. No response to those comments is required.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract

History of the Federal Duck Stamp Program

On March 16, 1934, Congress passed, and President Franklin D. Roosevelt signed, the Migratory Bird Hunting and Conservation Stamp Act (16 U.S.C. 718–718k). Popularly known as the Duck Stamp Act, it required all waterfowl hunters 16 years or older to buy a stamp annually. The revenue generated was originally earmarked for the Department of Agriculture; however, 5 years later the Federal Duck Stamp Program was transferred to the Department of the Interior and the Service.

In the years since its enactment, the Federal Duck Stamp Program has become one of the most popular and successful conservation programs ever initiated. Today, some 1.5 million stamps are sold each year, and as of 2023, Federal Duck Stamps had generated more than \$1.2 billion for the preservation of more than 6 million acres of waterfowl habitat in the United States. Numerous other birds, mammals, fish, reptiles, and amphibians have similarly prospered because of habitat protection made possible by the program. An estimated one-third of the Nation’s endangered and threatened species find food or shelter in refuges preserved by Duck Stamp funds. Moreover, the protected wetlands help dissipate storms, purify water supplies, store flood water, and nourish fish hatchlings important for sport and commercial fishermen.

History of the Duck Stamp Contest

Jay N. “Ding” Darling, a nationally known political cartoonist for the Des Moines Register and a noted hunter and wildlife conservationist, designed the first Federal Duck Stamp at President Roosevelt’s request. In subsequent years, noted wildlife artists submitted designs. The first Federal Duck Stamp Contest was opened in 1949 to any U.S. artist who wished to enter, and 65 artists submitted a total of 88 design entries. Since then, the contest has been known as the Federal Migratory Bird Hunting and Conservation Stamp Art (Duck Stamp) Contest and has attracted large numbers of entrants.

The Duck Stamp Contest (50 CFR part 91) remains the only art competition of its kind regulated by the U.S. Government. The Secretary of the Interior appoints a panel of noted art, waterfowl, and philatelic authorities to select each year’s winning design. Winners receive no compensation for the work, except for a signed pane of their stamps; however, winners retain the copyright to their artwork and may sell the original and prints of their designs, which are sought by hunters, conservationists, and art collectors.

For the Duck Stamp Contest, the Service selects five or fewer species of waterfowl each year; each entry must employ one of the Service-designated species as the dominant feature (defined as being in the foreground and clearly the focus of attention). Designs may also include national wildlife refuges as the background of habitat scenes, noneligible species, or other scenes that depict uses of the stamp for waterfowl hunting, conservation, and collecting purposes. Entries may be in any media, except for photography or computer-generated art. Designs must be the contestants’ original hand-drawn creation and may not be copied or duplicated from previously published art, including photographs, or from images in any format published on the internet.

History of the Junior Duck Stamp Contest

The Federal Junior Duck Stamp Conservation and Design Program (Junior Duck Stamp Program) began in 1989 as an extension of the Migratory Bird Conservation and Hunting Stamp. The national Junior Duck Stamp art contest started in 1993, and the first stamp design was selected from entries from eight participating States. The program was recognized by Congress with the 1994 enactment of the Junior Duck Stamp Conservation and Design Program Act (16 U.S.C. 719). Currently

participating in the annual contest are all 50 States; Washington, DC; and 2 of the U.S. Territories.

The Junior Duck Stamp Program introduces wetland and waterfowl conservation to students in kindergarten through high school. It crosses cultural, ethnic, social, and geographic boundaries to teach greater awareness and guide students in exploring our nation's natural resources. It is the Service's premier conservation education initiative.

The Junior Duck Stamp Program includes a dynamic art-and-science-based curriculum. This nontraditional pairing of subjects brings new interest to both the sciences and the arts. The program teaches students across the nation conservation through the arts, using scientific and wildlife observation principles to encourage visual communication about what they learn. Four curriculum guides, with activities and resources, were developed for use as a year-round study plan to assist students in exploring science in real-life situations.

Modeled after the Federal Duck Stamp Contest, the annual Junior Duck Stamp Art and Conservation Message Contest (Junior Duck Stamp Contest) was developed as a visual assessment of a student's learning and progression. The Junior Duck Stamp Contest encourages partnerships among Federal and State government agencies, nongovernmental organizations, businesses, and volunteers to help recognize and honor thousands of teachers and students throughout the United States for their participation in conservation-related activities. Since 2000, the contest has received more than 570,000 entries.

The winning artwork from the national art contest serves as the design for the Junior Duck Stamp, which the Service produces annually. This \$5 stamp has become a much sought after collector's item. One hundred percent of the revenue from the sale of Junior Duck stamps goes to support recognition and environmental education activities for students who participate in the program. More than \$1.25 million in Junior Duck Stamp proceeds have been used to provide recognition, incentives, and scholarships to participating students, teachers, and schools. The Program continues to educate youth about land stewardship and the importance of connecting to the natural world. Several students who have participated in the Junior Duck Stamp Program have gone on to become full-time wildlife artists and conservation

professionals; many attribute their interest and success to their early exposure to the Junior Duck Stamp Program.

Who Can Enter the Federal Duck Stamp and Junior Duck Stamp Contests

The Duck Stamp Contest is open to all U.S. citizens, nationals, and resident aliens who are at least 18 years of age by June 1. Individuals enrolled in kindergarten through grade 12 may participate in the Junior Duck Stamp Contest. All eligible students are encouraged to participate in the Junior Duck Stamp Conservation and Design Program annual art and conservation message contest as part of the program curriculum through public, private, and homeschools, as well as through nonformal educational experiences such as those found in scouting, art studios, and nature centers.

Entry Requirements

Each entry in the Duck Stamp Contest requires a completed entry form and an entry fee. Information required on the entry form includes:

- "Display, Participation & Reproduction Rights Agreement" certification form;
- Basic contact information (name, address, phone numbers, and email address);
- Date of birth (to verify eligibility);
- Species portrayed and medium used; and
- Name of hometown newspaper (for press coverage).

Each entry in the Junior Duck Stamp Contest requires a completed entry form that requests:

- Basic contact information (name, address, phone numbers, and email address);
- Age/grade (to verify eligibility and so they may be judged with their peers);
- Parent's name and contact information (email address and phone numbers);
- Whether the student has a Social Security or VISA immigration number or is a foreign exchange student (to verify eligibility to receive prizes);
- Title, species, medium/style used, and conservation message associated with the drawing;
- Basic contact information for their teacher and school (name, address, phone numbers, school/studio/organization/troop name, and email address); and
- Certification of authenticity.

Students in grades 7 through 12 and all national level students are also required to include citations for any

resources they used to develop their designs. We use this information to verify that the student has not plagiarized or copied someone else's work. The Service also translates entry forms into other appropriate languages to increase the understanding of the rules and what the parents and students are signing.

Title of Collection: Federal Migratory Bird Hunting and Conservation Stamp (Duck Stamp) and Junior Duck Stamp Contests.

OMB Control Number: 1018-0172.

Form Number: None.

Type of Review: Extension of a currently approved information collection.

Respondents/Affected Public: Individuals.

Total Estimated Number of Annual Respondents: 20,200.

Total Estimated Number of Annual Responses: 20,200.

Estimated Completion Time per Response: Varies from 7-20 minutes, depending on activity.

Total Estimated Number of Annual Burden Hours: 6,690.

Respondent's Obligation: Voluntary.

Frequency of Collection: Annually.

Total Estimated Annual Nonhour Burden Cost: \$39,000. We estimate \$28,000 in annual entry fees of \$125 plus an average of \$15 for mailing costs for each of the estimated 200 annual submissions to the Federal Duck Stamp Contest. There are no fees associated with the Junior Duck Stamp Contest submissions. We estimate the mailing costs associated with entering submissions to the Junior Duck Stamp contest to be approximately \$11,000 annually. Most of the student entries are mailed directly by schools, who utilize the bulk mail option, thereby reducing the amount of postage and packages received.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Madonna Baucum,

Information Collection Clearance Officer, U.S. Fish and Wildlife Service.
