GUIDE TO BEAR REPORTING

The National Park Service (NPS) requires the completion of NPS Form 10-406, "Glacier Bay Bear Information Management Report" to provide additional information if a bear enters camp, approaches you, damages gear, obtains food, and/or acts in an aggressive or threatening manner. Refer to the back of this page for help in filling out the form. ***Please mark the location of any bear sightings made by your group with an "X" and also mark the locations of your campsites with a "C" on the attached maps. GPS locations are especially helpful, please be sure to record the datum in which the points were collected***

If you encounter dirty campsites left by previous users or observe unsafe or inappropriate behavior by other groups please report this information as well. ***If you have a serious conflict with a bear such as a bear causing injury to a person, obtaining food, or causing major property damage, call the appropriate phone number listed below on a satellite phone if possible or immediately after returning.*** The continued safety of future visitors and bears is the responsibility of all users.

Your cooperation in reporting bear observations and interactions on the river will enhance the safety of future visitors, as well as protection of bears. Bear sighting data helps us determine bear movements, habitat use, and species distribution, as well as gain valuable insight on population dynamics. First-hand accounts of how bears respond to people are important in understanding and detecting changes in bear behavior and identifying potential problem areas. We value any comments and insights you may have based on your experience in Glacier Bay National Park and Preserve. Thank you for your participation!!!

If you would like this bear report mailed to you after the data is copied, please provide a return address here
