12. *Describe the hour time burden and the hour cost burden on the respondent needed to complete this collection?*

DS anticipates approximately 90 respondents per year. Time to collect the required support documents should take on average one hour. Therefore, the total hour burden is estimated to be 90 hours.

Based on a review of the BLS wage estimates, the estimated average hourly wage for the Protective Service Occupation is \$27.74. The weighted hourly wage (\$27.74 X 1.4) is \$38.84. The weighted wage multiplied by the time (1

hour) is \$38.84. That figure, multiplied by the number of annual respondents (90), gives a monetized time burden of \$3495.60.

*13. Describe the monetary burden to respondents (out of pocket costs) needed to complete this collection.*

The only cost to respondents is the \$18 fee required for the FBI name check. This will only be required for those applicants who are not employed by the Department at the time they submit the application. Therefore, the total cost burden will be  $90 \times \$18 = \$1,620$ .
