Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be made available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652-0069; Military Severely Injured Joint Support Operations Center (MSIJSOC) and Travel Protocol Office (TPO) Programs. TSA established the MSIJSOC and the TPO programs to support and facilitate the movement of wounded warriors, severely injured military personnel, veterans, and other travelers requiring an escort through the airport security screening process. The MSIJSOC and TPO programs are available at commercial airports within the continental United States and its territories.

The MSIJSOC program works with passengers who are wounded warriors, severely injured military members, and veterans. Once flight arrangements are made with the airlines, the traveler, his or her family, or other representative may contact the TSA Cares Hotline no later than 72 hours prior to their scheduled flight time with the details of the itinerary. TSA collects the traveler's name, travel itinerary (flight departure and arrival information), and a point-of-contact's mobile phone number. Once TSA collects this information, TSA Cares contacts MSIJSOC, where the staff vets the request via the appropriate Wounded Warrior Care Coordinator to verify the eligibility for an escort of a wounded warrior, severely injured military member, or veteran. After verifying eligibility, the MSIJSOC contacts the respective TSA official at the appropriate airport for action.

Additionally, the TPO program facilitates the movement of foreign dignitaries, accredited Ambassadors to the United States, and others who may require an escort through the airport security screening process. These travelers may contact the TPO office by submitting a request for travel support via telephone. Travelers and their points-of-contact should submit their travel support requests no later than 72 hours prior to the respective scheduled flight to allow TSA to make timely notification regarding the travel. TSA collects the traveler's name, travel itinerary (flight departure and arrival information), and a point-of-contact's mobile phone number.

The estimated annual burden for this collection is 444.7 hours. The estimated number of annual respondents is 5,336, with each response taking approximately 0.08333 hours ($444.7 = 5,336 \times 0.08333$).

Dated: September 19, 2024.

TSA Paperwork Reduction Act Officer, Information Technology.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <http://www.reginfo.gov> upon its submission to OMB. Therefore,

in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652-0005; Security Programs for Foreign Air Carriers, 49 CFR part 1546. TSA uses the information collected to determine compliance with 49 CFR part 1546 and to ensure passenger safety by monitoring foreign air carrier security procedures. Foreign air carriers must carry out security measures to provide for the safety and security of persons, property, and cargo transported on aircraft provided by the foreign air carrier against acts of criminal violence and air piracy, and the introduction of unauthorized explosives, incendiaries, or other destructive devices, items, or substances aboard an aircraft. The information TSA collects includes identifying information on foreign air carriers' flight crews, passengers, and cargo. Specifically, TSA requires foreign air carriers to electronically submit the following information: (1) a master crew list of all flight and cabin crew members flying to and from the United States; (2) the flight crew list on a flight-by-flight basis; (3) passenger identifying information on a flight-by-flight basis; and (4) cargo shipment information. This information collection is mandatory for foreign air carriers and must be submitted before entry into the United States.

Additionally, foreign air carriers must maintain these records, as well as training records for crew members and individuals performing security-related functions and other records of compliance associated with the security programs, and make them available to TSA for inspection upon request. TSA will continue to collect information described above to determine foreign air carrier compliance with requirements of 49 CFR part 1546. TSA estimates that there will be approximately 180

respondents to the information collection, with an annual burden estimate of 241,485 hours.
