[Docket ID Number DOT-OST-2014-0031]

**Agency Information Collection:
Activity Under OMB Review: Report of
Financial and Operating Statistics for
Large Certificated Air Carriers**

AGENCY: Office of the Assistant Secretary for Research and Technology (OST-R), Bureau of Transportation Statistics (BTS), Department of Transportation.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, this notice announces that the Information Collection Request (ICR) abstracted below is being forwarded to the Office of Management and Budget (OMB) for an extension of a currently approved

collection. The ICR describes the nature of the information collection and its expected burden.

DATES: Written comments should be submitted by December 16, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Lei Tang, Office of Airline Information, RTS-42, Room E34-413, OST-R, BTS, 1200 New Jersey Avenue SE., Washington, DC 20590-0001, telephone number (202) 941-6652, or email lei.tang@dot.gov.

SUPPLEMENTARY INFORMATION: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information

was published on July 10, 2024 (89 FR 56808). No comments were received.

OMB Approval No. 2138-0013.

Title: Report of Financial and Operating Statistics for Large Certificated Air Carriers.

Form No.: BTS Form 41.

Type of Review: Extension of a currently approved collection.

Respondents: Large certificated air carriers.

Number of Respondents: 56.

Estimated Time per Response: 4 hours per schedule, an average carrier may submit 90 schedules in one year.

Total Annual Burden: 15,034 hours.

Needs and Uses: Program uses for Form 41 data are as follows:

Mail Rates

The Department of Transportation sets and updates mainline Alaska mail rates based on carrier aircraft operating expense, traffic and operational data. Form 41 cost data, especially fuel costs, terminal expenses, and line haul expenses are used in arriving at rate levels. DOT revises the established rates

based on the percentage of unit cost changes in the carriers' operations. These updating procedures have resulted in the carriers receiving rates of compensation that more closely parallel their costs of providing mail service and contribute to the carriers' ability to continue providing service.

Submission of U.S. Carrier Data to ICAO

As a party to the Convention on International Civil Aviation, the United States is obligated to provide the International Civil Aviation Organization with financial and statistical data on operations of U.S. air carriers. Over 99 percent of the data filed with ICAO is extracted from the carriers' Form 41 reports.

Carrier Fitness

Fitness determinations are made for both new entrants and established U.S. carriers proposing a substantial change in operations. A portion of these applications consists of an operating plan for the first year (14 CFR part 204) and an associated projection of revenues and expenses. The carrier's operating costs, included in these projections, are compared against the cost data in Form 41 for a carrier or carriers with the same aircraft type and similar operating characteristics. Such a review validates the reasonableness of the carrier's operating plan.

Form 41 reports, particularly balance sheet reports and cash flow statements, play a major role in the identification of vulnerable carriers. Data comparisons are made between current and past periods in order to assess the current financial position of the carrier. Financial trend lines are extended into the future to analyze the continued viability of the carrier. DOT reviews three areas of a carrier's operation: (1) the qualifications of its management team, (2) its disposition to comply with laws and regulations, and (3) its financial posture. DOT must determine whether or not a carrier has sufficient financial resources to conduct its operations without imposing undue risk on the traveling public. Moreover, once a carrier is operating, DOT is required to monitor its continuing fitness.

Senior DOT officials must be kept fully informed as to all current and developing economic issues affecting the airline industry. In preparing financial conditions reports or status reports on a particular airline, financial and traffic data are analyzed. Briefing papers may use the same information.

Administrative Issues

The Confidential Information Protection and Statistical Efficiency Act of 2002 (44 U.S.C. 3501 note) requires a statistical agency to clearly identify information it collects for non-statistical purposes. BTS hereby notifies the respondents and the public that BTS uses the information it collects under this OMB approval for non-statistical purposes including, but not limited to, publication of both Respondent's identity and its data, submission of the information to agencies outside BTS for review, analysis and possible use in regulatory and other administrative matters.

Issued in Washington, DC on November 7, 2024.

Rolf Schmitt,

Deputy Director, Bureau of Transportation Statistics, for the Office of Airline Information.
