OMB Control No. 2528-XXXX, expiration date XX/XX/2024. This form is designed to provide HUD with information about how effective its Older Adults Home Modification Grant Program is. Your participation in the Evaluation as a grantee is mandatory as a condition of the grant. The Public reporting burden for your collection of information is estimated to be 4 hours per response. HUD may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

Thank you for your work to-date supporting older adults in your community through HUD's Older Adults Home Modification (OAHM) Program. To capture the lessons you have learned, HUD has contracted with Healthy Housing Solutions to ask you and the other grantees to share information about the status of your OAHM Program and what has helped or impeded your progress. Your insights will provide help HUD make the program more efficient and effective. At the midpoint and end of the Evaluation, we will provide HUD with a summary of all grantees' process evaluation feedback, but will not identify any grantee organization or staff person by name. HUD staff will not have access to your survey responses.

We estimate this online survey may take up to one hour for you to complete. You may need additional time if you review these questions in advance to coordinate with staff members and gather materials you need to respond to the survey. Although not required, it will also help us greatly if you provide any additional information or supporting materials (such as field guides, program histories). You may upload them directly to REDCap or email them as an attachment to *[insert SC name]* at *[insert SC email address]*.

Please contact *[insert SC name]* or any of the team listed below if you have any questions. Thank you in advance for your time.
