Topic 2: Prior Approval

Change Date: May 13, 2024

- This section is new and replaces the stacking order previously published in Chapter 5 Topic 3.
- VA Form 26-1802a, *HUD/VA Addendum to the URLA*, and VA Form 26-0286, *VA Loan Summary Sheet*, have been removed from the stacking order.
- The stacking orders for requesting prior approval have been updated to include disclosures and evidence of satisfaction of an NTB and seasoning where applicable, and to clarify VA's expectations related to the execution of the URLA.

a. Background

Lenders without authority to close loans on an automatic basis¹ (commonly referred to as automatic authority) must submit all proposed purchase and cash-out refinance loans to VA for prior approval.

All lenders, regardless of their authority to make VA loans, must also submit certain types of loans to VA for prior approval².

As described in Chapter 5, before submitting a loan to VA for prior approval: the Notice of Value (NOV) must be issued, the loan must be completely underwritten, and active-duty Service members must have received counseling using VA Form 26-0592. The stacking order for requesting prior approval is provided in section b for purchase and cash-out refinance loans and section c for IRRRLs.

The stacking order for reporting a closed prior approval loan is provided in section d.

The files should be uploaded as a single-file PDF into VA's electronic loan system (WebLGY or subsequent system) to the correspondence section of the loan record as a 'Prior Approval Loan Package'. If the file size exceeds VA's limit, it is permissible to split the file, but it should still follow the stacking order.

Additional information on prior approval loans is available in Chapter 5.

b. Prior Approval Request Stacking Order – Pre-close – Purchase/Cash-Out Refinance

This stacking order is used to request prior approval for a purchase or cash-out refinance.

Note that to complete the prior approval request, the lender must also complete the Loan Analysis in WebLGY. Instructions on how to complete the loan analysis are available here:
