**OMB Control No. 0648-0823**

The National Oceanic and Atmospheric Administration (NOAA) is submitting this non-substantive change request in order to correct an administrative error that occurred during the creation of this new generic collection into ROCIS.

At the time this new generic collection was entered into ROCIS, NOAA inadvertently uploaded the proposed question bank and its associated burden as an Information Collection (IC), effectively drawing down the entire burden for the Control Number. NOAA seeks to correct this computer entry error by uploading the question bank as a Supplementary Document, not as a separate IC.

There have been no collections of information conducted under this OMB Control Number at this time, so the full burden should be available for use. NOAA is not making any changes to this collection; rather we are simply correcting a computer entry error.
