Title 50 —Wildlife and Fisheries

Chapter III —International Fishing and Related Activities

Part 300 - International Fisheries Regulations

Authority: 16 U.S.C. 951 et seq., 16 U.S.C. 1801 et seq., 16 U.S.C. 5501 et seq., 16 U.S.C. 2431 et seq., 31 U.S.C. 9701 et seq. **Source:** 61 FR 35550, July 5, 1996, unless otherwise noted.

Subpart N Identification and Certification of Nations

- § 300.200 Purpose and scope.
- § 300.201 Definitions.
- § 300.202 Identification and certification of nations engaged in illegal, unreported, or unregulated fishing activities.
- § 300.203 Identification and certification of nations engaged in bycatch of protected living marine resources.
- § 300.204 Identification and certification of nations whose vessels are engaged in shark catch.
- § 300.205 Effect of certification.
- § 300.206 Denial of port privileges and import restrictions on fish or fish products.
- § 300.207 Alternative procedures for nations identified as having vessels engaged in IUU fishing activities that are not certified in this subpart.
- § 300.208 Alternative procedures for nations identified as having vessels engaged in bycatch of PLMRs that are not certified in this subpart.
- § 300.209 Alternative procedures for nations identified as having vessels engaged in shark catch that are not certified in this subpart.

Editorial Note: Nomenclature changes to part 300 appear at 64 FR 44431, Aug. 16, 1999, and at 76 FR 59305, Sept. 26, 2011.

Subpart N—Identification and Certification of Nations

Authority: 16 U.S.C. 1826d et seq.

Source: 76 FR 2024, Jan. 12, 2011, unless otherwise noted.

§ 300.200 Purpose and scope.

The purpose of this subpart is to implement the requirements in the High Seas Driftnet Fishing Moratorium Protection Act ("Moratorium Protection Act") to identify and certify nations whose vessels engaged in illegal, unreported, or unregulated fishing; whose fishing activities result in bycatch of protected living marine resources; or whose vessels engaged in fishing activities or practices on the high seas that target or incidentally catch sharks where the nation has not adopted a regulatory program for the conservation of sharks, comparable in effectiveness to that of the United States, taking into account different conditions. This language applies to vessels entitled to fly

the flag of the nation in question. Where the Secretary of Commerce determines that an identified nation has not taken the necessary actions to warrant receipt of a positive certification, the Secretary of Commerce may recommend to the President that the United States prohibit the importation of certain fish and fish products from the identified nation or other measures. The Secretary of Commerce will recommend to the President appropriate measures, including trade restrictive measures, to be taken against identified nations that have not received a positive certification, to address the fishing activities or practices for which such nations were identified in the biennial report. The Secretary of Commerce will make such a recommendation on a case-by-case basis in accordance with international obligations, including the World Trade Organization (WTO) Agreement. The Moratorium Protection Act also authorizes cooperation and assistance to nations to take action to combat illegal, unreported, or unregulated fishing, reduce bycatch of protected living marine resources, and achieve shark conservation.

[78 FR 3342, Jan. 16, 2013]

§ 300.201 Definitions.

For the purposes of the Moratorium Protection Act:

Bycatch means: the incidental or discarded catch of protected living marine resources or entanglement of such resources with fishing gear.

Fishing vessel means: any vessel, boat, ship, or other craft which is used for, equipped to be used for, or of a type which is normally used for—

- (1) Fishing; or
- (2) Any activity relating to fishing, including, but not limited to, preparation, supply, storage, refrigeration, transportation, or processing, bunkering or purchasing catch, or aiding or assisting one or more vessels at sea in the performance of such activity.

Illegal, unreported, or unregulated (IUU) fishing means:

- (1) In the case of parties to an international fishery management agreement to which the United States is a party, fishing activities that violate conservation and management measures required under an international fishery management agreement to which the United States is a party, including but not limited to catch limits or quotas, capacity restrictions, bycatch reduction requirements, shark conservation measures, and data reporting;
- (2) In the case of non-parties to an international fishery management agreement to which the United States is a party, fishing activities that would undermine the conservation of the resources managed under that agreement;
- (3) Overfishing of fish stocks shared by the United States, for which there are no applicable international conservation or management measures, or in areas with no applicable international fishery management organization or agreement, that has adverse impacts on such stocks; or,
- (4) Fishing activity that has a significant adverse impact on seamounts, hydrothermal vents, cold water corals and other vulnerable marine ecosystems located beyond any national jurisdiction, for which there are no applicable conservation or management measures or in areas with no applicable international fishery management organization or agreement.
- (5) Fishing activities by foreign flagged vessels in U.S. waters without authorization of the United States.

- *International agreement* means: an agreement between two or more States, agencies of two or more States, or intergovernmental organizations which is legally binding and governed by international law.
- International fishery management agreement means: any bilateral or multilateral treaty, convention, or agreement for the conservation and management of fish.
- International fishery management organization means: an international organization established by any bilateral or multilateral treaty, convention, or agreement for the conservation and management of fish.
- Protected living marine resources (PLMRs) means: non-target fish, sea turtles, or marine mammals that are protected under United States law or international agreement, including the Marine Mammal Protection Act, the Endangered Species Act, the Shark Finning Prohibition Act, and the Convention on International Trade in Endangered Species of Wild Flora and Fauna; but they do not include species, except sharks, that are managed under the Magnuson-Stevens Fishery Conservation and Management Act, the Atlantic Tunas Convention Act, or by any international fishery management agreement.

[76 FR 2024, Jan. 12, 2011, as amended at 78 FR 3342, Jan. 16, 2013]

§ 300.202 Identification and certification of nations engaged in illegal, unreported, or unregulated fishing activities.

- (a) Procedures to identify nations whose fishing vessels are engaged in IUU fishing
 - (1) NMFS will identify and list, in a biennial report to Congress, nations whose fishing vessels are engaged, or have been engaged at any point during the preceding two years, in IUU fishing.
 - (2) When determining whether to identify a nation as having fishing vessels engaged in IUU fishing, NMFS will take into account all relevant matters, including but not limited to the history, nature, circumstances, extent, duration, and gravity of the IUU fishing activity in question, and any measures that the nation has implemented to address the IUU fishing activity. NMFS will also take into account whether an international fishery management organization exists with a mandate to regulate the fishery in which the IUU activity in question takes place. If such an organization exists, NMFS will consider whether the relevant international fishery management organization has adopted measures that are effective at addressing the IUU fishing activity in question and, if the nation whose fishing vessels are engaged, or have been engaged, in IUU fishing is a party to, or maintains cooperating status with, the organization. NMFS will also take into account any actions taken or on-going proceedings by the United States and/or flag State to address the IUU fishing activity of concern as well as the effectiveness of such actions.
- (b) Notification of nations identified as having fishing vessels engaged in IUU fishing. Upon identifying a nation whose vessels have been engaged in IUU fishing activities in the biennial report to Congress, the Secretary of Commerce will notify the President of such identification. Within 60 days after submission of the biennial report to Congress, the Secretary of Commerce, acting through or in consultation with the Secretary of State, will:
 - (1) Notify nations that have been identified in the biennial report as having fishing vessels that are currently engaged, or were engaged at any point during the preceding two calendar years, in IUU fishing activities;
 - (2) Notify identified nations of the requirements under the Moratorium Protection Act and this subpart; and

- (3) Notify any relevant international fishery management organization of actions taken by the United States to identify nations whose fishing vessels are engaged in IUU fishing and initiate consultations with such nations.
- (c) Consultation with nations identified as having fishing vessels engaged in IUU fishing. Within 60 days after submission of the biennial report to Congress, the Secretary of Commerce, acting through or in cooperation with the Secretary of State, will initiate consultations with nations that have been identified in the biennial report for the purpose of encouraging such nations to take appropriate corrective action with respect to the IUU fishing activities described in the biennial report.
- (d) Procedures to certify nations identified as having fishing vessels engaged in IUU fishing. Each nation that is identified as having fishing vessels engaged in IUU fishing shall receive either a positive or a negative certification from the Secretary of Commerce, and this certification will be published in the biennial report to Congress. A positive certification indicates that a nation has taken appropriate corrective action to address the IUU fishing activity described in the biennial report. A negative certification indicates that a nation has not taken appropriate corrective action.
 - (1) The Secretary of Commerce shall issue a positive certification to an identified nation upon making a determination that such nation has taken appropriate corrective action to address the activities for which such nation has been identified in the biennial report to Congress. When making such determination, the Secretary shall take into account the following:
 - (i) Whether the government of the nation identified pursuant to paragraph (a) of this section has provided evidence documenting that it has taken corrective action to address the IUU fishing activity described in the biennial report;
 - (ii) Whether the relevant international fishery management organization has adopted and, if applicable, the identified member nation has implemented and is enforcing, measures to effectively address the IUU fishing activity of the identified nation's fishing vessels described in the biennial report;
 - (iii) Whether the United States has taken enforcement action to effectively address the IUU fishing activity of the identified nation described in the biennial report; and
 - (iv) Whether the identified nation has cooperated in any action taken by the United States to address the IUU fishing activity described in the biennial report.
 - (2) Prior to a formal certification determination, nations will be provided with preliminary certification determinations and an opportunity to support and/or refute the preliminary determinations and communicate any corrective actions taken to address the activities for which such nations were identified. The Secretary of Commerce shall consider any information received during the course of these consultations when making the subsequent certification determinations.

[76 FR 2024, Jan. 12, 2011, as amended at 78 FR 3343, Jan. 16, 2013]

§ 300.203 Identification and certification of nations engaged in bycatch of protected living marine resources.

(1) NMFS will identify and list, in the biennial report to Congress nations—

- (i) whose fishing vessels are engaged, or have been engaged during the preceding calendar year prior to publication of the biennial report to Congress, in fishing activities or practices either in waters beyond any national jurisdiction that result in bycatch of a PLMR, or in waters beyond the U.S. EEZ that result in bycatch of a PLMR that is shared by the United States;
- (ii) if the nation is a party to or maintains cooperating status with the relevant international organization with jurisdiction over the conservation and protection of the relevant PLMRs, or a relevant international or regional fishery organization, and the organization has not adopted measures to effectively end or reduce bycatch of such species; and
- (iii) the nation has not implemented measures designed to end or reduce such bycatch that are comparable in effectiveness to U.S. regulatory requirements, taking into account different conditions that could bear on the feasibility and efficacy of comparable measures.
- (2) When determining whether to identify nations as having fishing vessels engaged in PLMR bycatch, NMFS will take into account all relevant matters including, but not limited to, the history, nature, circumstances, extent, duration, and gravity of the bycatch activity in question.
- (3) NMFS will also examine whether the nation has implemented measures designed to end or reduce such bycatch that are comparable in effectiveness to U.S. regulatory requirements. In considering whether a nation has implemented measures that are comparable in effectiveness to those of the United States, NMFS will evaluate if different conditions exist that could bear on the feasibility and efficiency of such measures to end or reduce bycatch of the pertinent PLMRs.
 - (b) Notification of nations identified as having fishing vessels engaged in PLMR bycatch. Upon identifying a nation whose vessels have been engaged in bycatch of PLMRs in the biennial report to Congress, the Secretary of Commerce will notify the President of such identification. Within 60 days after submission of the biennial report to Congress, the Secretary of Commerce, acting through or in consultation with the Secretary of State, will notify identified nations about the requirements under the Moratorium Protection Act and this subpart.
 - (c) Consultations and negotiations. Upon submission of the biennial report to Congress, the Secretary of Commerce, acting through or in consultation with the Secretary of State, will:
 - (1) Initiate consultations within 60 days after submission of the biennial report to Congress with the governments of identified nations for the purposes of encouraging adoption of a regulatory program for protected living marine resources that is comparable in effectiveness to that of the United States, taking into account different conditions, and establishment of a management plan that assists in the collection of species-specific data;
 - (2) Seek to enter into bilateral and multilateral treaties with such nations to protect the PLMRs from bycatch activities described in the biennial report; and
 - (3) Seek agreements through the appropriate international organizations calling for international restrictions on the fishing activities or practices described in the biennial report that result in bycatch of PLMRs and, as necessary, request the Secretary of State to initiate the amendment of any existing international treaty to which the United States is a party for the protection and conservation of the PLMRs in question to make such agreements consistent with this subpart.

- (d) *International cooperation and assistance*. To the greatest extent possible, consistent with existing authority and the availability of funds, the Secretary shall:
 - (1) Provide appropriate assistance to nations identified by the Secretary under paragraph (a) of this section and international organizations of which those nations are members to assist those nations in qualifying for a positive certification under paragraph(e) of this section;
 - (2) Undertake, where appropriate, cooperative research activities on species assessments and improved bycatch mitigation techniques, with those nations or organizations;
 - (3) Encourage and facilitate the transfer of appropriate technology to those nations or organizations to assist those nations in qualifying for positive certification under paragraph (e) of this section; and
 - (4) Provide assistance to those nations or organizations in designing and implementing appropriate fish harvesting plans.
- (e) Procedures to certify nations identified as having fishing vessels engaged in PLMR bycatch.
 - (1) Each nation that is identified as having fishing vessels engaged in PLMR bycatch shall receive either a positive or a negative certification from the Secretary of Commerce, and this certification will be published in the biennial report to Congress. The Secretary of Commerce shall issue a positive certification to an identified nation upon making a determination that:
 - (i) Such nation has provided evidence documenting its adoption of a regulatory program to end or reduce bycatch of such PLMRs that is comparable in effectiveness to regulatory measures required under U.S. law to address bycatch in the relevant fisheries, taking into account different conditions that could bear on the feasibility and efficacy of these measures, and which, in the case of an identified nation with fishing vessels engaged in pelagic longline fishing, includes the mandatory use of circle hooks, careful handling and release equipment, training and observer programs; and
 - (ii) Such nation has established a management plan that will assist in the collection of speciesspecific data on PLMR bycatch to support international stock assessments and conservation efforts for PLMRs.
 - (2) Nations will be notified prior to a formal certification determination and will be provided with an opportunity to support and/or refute preliminary certification determinations, and communicate any corrective actions taken to address the activities for which such nations were identified. The Secretary of Commerce shall consider any information received during the course of these consultations when making the subsequent certification determinations.

[76 FR 2024, Jan. 12, 2011, as amended at 78 FR 3343, Jan. 16, 2013]

§ 300.204 Identification and certification of nations whose vessels are engaged in shark catch.

- (a) Procedures to identify nations if fishing vessels of that nation are engaged in fishing activities or practices in waters beyond any national jurisdiction that target or incidentally catch sharks during the preceding calendar year.
 - (1) NMFS will identify and list in the biennial report to Congress nations—

- (i) Whose fishing vessels are engaged, or have been engaged during the calendar year prior to publication of the biennial report to Congress, in fishing activities or practices in waters beyond any national jurisdiction that target or incidentally catch sharks; and
- (ii) Where that nation has not adopted a regulatory program to provide for the conservation of sharks, including measures to prohibit removal of any of the fins of a shark (including the tail) and discard the carcass of the shark at sea, that is comparable in effectiveness to that of the United States, taking into account different conditions, including conditions that could bear on the feasibility and effectiveness of measures.
- (2) When determining whether to identify nations for these activities, NMFS will take into account all relevant matters including, but not limited to, the history, nature, circumstances, duration, and gravity of the fishing activity of concern.
- (b) Notification of nations identified as having fishing vessels engaged in fishing activities or practices that target or incidentally catch sharks. Upon identifying in the biennial report to Congress a nation whose vessels engaged in fishing activities or practices in waters beyond any national jurisdiction that target or incidentally catch sharks, the Secretary of Commerce will notify the President of such identification. Within 60 days after submission of the biennial report to Congress, the Secretary of Commerce, acting through or in consultation with the Secretary of State, will notify identified nations about the requirements under the Moratorium Protection Act and this subpart N.
- (c) Consultations and negotiations. Upon submission of the biennial report to Congress, the Secretary of Commerce, acting through or in consultation with the Secretary of State, will:
 - (1) Initiate consultations within 60 days after submission of the biennial report to Congress with the governments of identified nations for the purposes of encouraging adoption of a regulatory program for the conservation of sharks that is comparable in effectiveness to that of the United States, taking into account different conditions, and establishment of a management plan that assists in the collection of species-specific data;
 - (2) Seek to enter into bilateral and multilateral treaties or other arrangements with such nations to protect sharks; and
 - (3) Seek agreements through the appropriate international organizations calling for international restrictions on the fishing activities or practices described in the biennial report and, as necessary, request the Secretary of State to initiate the amendment of any existing international treaty to which the United States is a party for the conservation of sharks to make such agreements consistent with this subpart.
- (d) *International Cooperation and Assistance*. To the greatest extent possible, consistent with existing authority and the availability of funds, the Secretary shall:
 - (1) Provide appropriate assistance to nations identified by the Secretary under paragraph (a) of this section and international organizations of which those nations are members to assist those nations in qualifying for a positive certification under paragraph (e) of this section;
 - (2) Undertake, where appropriate, cooperative research activities on species assessments and harvesting techniques aimed at mitigating or eliminating the non-target catch of sharks, with those nations or organizations;
 - (3) Encourage and facilitate the transfer of appropriate technology to those nations or organizations to assist those nations in qualifying for positive certification under paragraph (e) of this section; and

- (4) Provide assistance to those nations or organizations in designing, implementing, and enforcing appropriate fish harvesting plans for the conservation and sustainable management of sharks.
- (e) Procedures to certify nations identified as having fishing vessels engaged in fishing activities or practices that target or incidentally catch sharks. Each nation that is identified as having fishing vessels engaged in fishing activities or practices in waters beyond any national jurisdiction that target or incidentally catch sharks and has not adopted a regulatory program for the conservation of sharks, including measures to prohibit removal of any of the fins of a shark (including the tail) and discard the carcass of the shark at sea, that is comparable to that of the United States, taking into account different conditions, shall receive either a positive or a negative certification from the Secretary of Commerce. This certification will be published in the biennial report to Congress. The Secretary of Commerce shall issue a positive certification to an identified nation upon making a determination that:
 - (1) Such nation has provided evidence documenting its adoption of a regulatory program for the conservation of sharks that is comparable in effectiveness to regulatory measures required under U.S. law in the relevant fisheries, taking into account different conditions, including conditions that could bear on the feasibility and effectiveness of measures; and such nation has established a management plan that will assist in the collection of species-specific data on sharks to support international stock assessments and conservation efforts for sharks.
 - (2) Prior to a formal certification determination, nations will be provided with preliminary certification determinations, and an opportunity to support and/or refute the preliminary determinations, and communicate actions taken to adopt a regulatory program that is comparable in effectiveness to that of the United States, taking into account different conditions. The Secretary of Commerce shall consider any relevant information received during consultations when making its formal certification determination.

[78 FR 3343, Jan. 16, 2013]

§ 300.205 Effect of certification.

- (a) If a nation identified under § 300.202(a), § 300.203(a), or § 300.204(a) does not receive a positive certification under this subpart (i.e., the nation receives a negative certification or no certification is made), the Secretary of Treasury shall, in accordance with recognized principles of international law:
 - (1) Withhold or revoke the clearance required by section 91 of the appendix to Title 46 for the fishing vessels of such nation; and
 - (2) Deny entry to the fishing vessels of such nation to any place in the United States and to the navigable waters of the United States.
- (b) Upon notification and any recommendations by the Secretary of Commerce to the President that an identified nation has failed to receive a positive certification, the President is authorized to direct the Secretary of the Treasury to prohibit the importation of certain fish and fish products from such nation (see § 300.206).
- (c) Any action recommended under paragraph (b) of this section shall be consistent with international obligations, including the WTO Agreement.
- (d) If certain fish and fish products are prohibited from entering the United States, within six months after the imposition of the prohibition, the Secretary of Commerce shall determine whether the prohibition is insufficient to cause that nation to effectively address the IUU fishing, bycatch, or shark catch described in

the biennial report, or that nation has retaliated against the United States as a result of that prohibition. The Secretary of Commerce shall certify to the President each affirmative determination that an import prohibition is insufficient to cause a nation to effectively address such IUU fishing activity, bycatch, or shark catch or that a nation has taken retaliatory action against the United States. This certification is deemed to be a certification under section 1978(a) of Title 22, which provides that the President may direct the Secretary of the Treasury to prohibit the bringing or the importation into the United States of any products from the offending country for any duration as the President determines appropriate and to the extent that such prohibition is sanctioned by the World Trade Organization.

- (e) Duration of certification. Any nation identified in the biennial report to Congress for having vessels engaged in IUU fishing that is negatively certified will remain negatively certified until the Secretary of Commerce determines that the nation has taken appropriate corrective action to address the IUU fishing activities for which it was identified in the biennial report. Any nation identified in the biennial report to Congress for having vessels engaged in PLMR bycatch or catch of sharks that is negatively certified will remain negatively certified until the Secretary of Commerce determines that the nation has taken the necessary actions pursuant to the Moratorium Protection Act to receive a positive certification.
- (f) Consultations. NMFS will, working through or in consultation with the Department of State, continue consultations with nations that do not receive a positive certification with respect to the fishing activities described in the biennial report to Congress. The Secretary of Commerce shall take the results of such consultations into consideration when making a subsequent certification determination for each such nation.

[78 FR 3344, Jan. 16, 2013]

§ 300.206 Denial of port privileges and import restrictions on fish or fish products.

- (a) Scope of applicability.
 - (1) Vessels from a nation identified in the biennial report under § 300.202(a), § 300.203(a), or § 300.204(a) and not positively certified by the Secretary of Commerce that enter any place in the United States or the navigable waters of the United States remain subject to inspection and may be prohibited from landing, processing, or transshipping fish and fish products, under applicable law. Services, including the refueling and re-supplying of such fishing vessels, may be prohibited, with the exception of services essential to the safety, health, and welfare of the crew. Fishing vessels will not be denied port access or services in cases of force majeure or distress.
 - (2) For nations identified in the previous biennial report under § 300.202(a) that are not positively certified in the current biennial report, the Secretary of Commerce shall so notify and make recommendations to the President, who is authorized to direct the Secretary of Treasury to impose import prohibitions with respect to fish and fish products from those nations. Such a recommendation would address the relevant fishing activities or practices for which such nations were identified in the biennial report. Such import prohibitions, if implemented, would apply to fish and fish products managed under an applicable international fishery agreement. If there is no applicable international fishery agreement, such prohibitions, if implemented, would only apply to fish and fish products caught by vessels engaged in illegal, unreported, or unregulated fishing. For nations identified under § 300.203(a) or § 300.204(a) that are not positively certified, the Secretary of Commerce shall so notify and make recommendations to the President, who is authorized to

- direct the Secretary of Treasury to impose import prohibitions with respect to fish and fish products from those nations; such prohibitions would only apply to fish and fish products caught by the vessels engaged in the relevant activity for which the nation was identified.
- (3) Any action recommended under paragraph (a)(2) shall be consistent with international obligations, including the WTO Agreement.

(b) Imposition of import restrictions —

- (1) Notification. Where the Secretary of Commerce cannot make positive certifications for identified nations, and the President determines that certain fish and fish products from such nations are ineligible for entry into the United States and U.S. territories, the Secretary of Commerce, in cooperation with the Secretaries of Treasury, Homeland Security, and State, will file a notice with the Office of the Federal Register.
- (2) Certification of admissibility. If certain fish or fish products are subject to import prohibitions, NMFS may publish in the FEDERAL REGISTER the requirement that, in addition to any other import documentation requirements that otherwise apply, other fish or fish products from the relevant nation, that are not subject to the prohibitions, offered for entry under this section must be accompanied by certification of admissibility, for which a form is available from NMFS. The certification of admissibility must be properly completed and signed by a duly authorized official of the identified nation and validated by a responsible official(s) designated by NMFS. The certification must be signed by the importer of record and submitted to NMFS in a format (electronic facsimile (fax), the Internet, etc.) specified by NMFS.
- (3) Effective date of import restrictions. Effective upon the date of publication of such finding, shipments of fish or fish products found to be ineligible will be denied entry to the United States. Entry will not be denied for any such shipment that, on the date of publication, was in transit to the United States.
- (4) Removal of negative certifications and import restrictions. Upon a determination by the Secretary of Commerce that an identified nation that was not certified positively has satisfactorily met the conditions in this subpart and that nation has been positively certified, the provisions of § 300.206 shall no longer apply. The Secretary of Commerce, in cooperation with the Secretaries of Treasury, Homeland Security, and State, will notify such nations and will file with the Office of the Federal Register for publication notification of the removal of the import restrictions effective on the date of publication.

[76 FR 2024, Jan. 12, 2011. Redesignated and amended at 78 FR 3343, 3345, Jan. 16, 2013]

§ 300.207 Alternative procedures for nations identified as having vessels engaged in IUU fishing activities that are not certified in this subpart.

- (a) These certification procedures may be applied to fish or fish products from a vessel of a harvesting nation that has been identified under § 300.202 in the event that the Secretary cannot reach a certification determination for that nation by the time of the next biennial report. These procedures shall not apply to fish or fish products from identified nations that have received either a negative or a positive certification under this subpart.
- (b) Consistent with paragraph (a) of this section, the Secretary of Commerce may allow entry of fish or fish products on a shipment-by-shipment, shipper-by-shipper, or other basis if the Secretary determines that:

- (1) The vessel has not engaged in IUU fishing under an international fishery management agreement to which the U.S. is a party; or
- (2) The vessel is not identified by an international fishery management organization as participating in IUU fishing activities.
- (c) In addition to any other import documentation requirements that otherwise apply, fish and fish products offered for entry under this section must be accompanied by certification of admissibility, for which a form is available from NMFS. The certification of admissibility must be properly completed and signed by a duly authorized official of the identified nation and must be validated by a responsible official(s) designated by NMFS. The certification must also be signed by the importer of record and submitted to NMFS in a format (electronic facsimile (fax), the Internet, etc.) specified by NMFS.
- (d) Any action recommended under this section shall be consistent with international obligations, including the WTO Agreement.

[76 FR 2024, Jan. 12, 2011. Redesignated and amended at 78 FR 3343, 3345, Jan. 16, 2013]

§ 300.208 Alternative procedures for nations identified as having vessels engaged in bycatch of PLMRs that are not certified in this subpart.

- (a) These certification procedures may be applied to fish or fish products from a vessel of a harvesting nation that has been identified under § 300.203 in the event that the Secretary cannot reach a certification determination for that nation by the time of the next biennial report. These procedures shall not apply to fish or fish products from identified nations that have received either a negative or a positive certification under this subpart.
- (b) Consistent with <u>paragraph (a)</u> of this section, the Secretary of Commerce may allow entry of fish or fish products on a shipment-by-shipment, shipper-by-shipper, or other basis if the Secretary determines that imports were harvested by practices that do not result in bycatch of a protected marine species, or were harvested by practices that—
 - (1) Are comparable to those of the United States, taking into account different conditions, and which, in the case of pelagic longline fisheries, the regulatory program of an identified nation includes mandatory use of circle hooks, careful handling and release equipment, and training and observer programs; and
 - (2) Include the gathering of species specific data that can be used to support international and regional assessments and conservation efforts for protected living marine resources.
- (c) In addition to any other import documentation requirements that otherwise apply, fish and fish products offered for entry under this section must be accompanied by certification of admissibility, for which a form is available from NMFS. The certification of admissibility must be properly completed and signed by a duly authorized official of the identified nation and must be validated by a responsible official(s) designated by NMFS. The certification must also be signed by the importer of record and submitted to NMFS in a format (electronic facsimile (fax), the Internet, etc.) specified by NMFS.
- (d) Any action recommended under this section shall be consistent with international obligations, including the WTO Agreement.

[76 FR 2024, Jan. 12, 2011. Redesignated and amended at 78 FR 3343, 3345, Jan. 16, 2013]

§ 300.209 Alternative procedures for nations identified as having vessels engaged in shark catch that are not certified in this subpart.

- (a) These certification procedures may be applied to fish and fish products from a vessel of a harvesting nation that has been identified under § 300.204 in the event that the Secretary cannot reach a certification determination for that nation by the time of the next biennial report. These procedures shall not apply to fish and fish products from identified nations that have received either a negative or a positive certification under this subpart.
- (b) Consistent with paragraph (a) of this section, the Secretary of Commerce may allow entry of fish and fish products on a shipment-by-shipment, shipper-by-shipper, or other basis if the Secretary determines that imports were harvested by fishing activities or practices that do not target or incidentally catch sharks, or were harvested by practices that—
 - (1) Are comparable to those of the United States, taking into account different conditions; and
 - (2) Include the gathering of species specific shark data that can be used to support international and regional assessments and conservation efforts for sharks.
- (c) In addition to any other import documentation requirements that otherwise apply, fish and fish products offered for entry under this section must be accompanied by certification of admissibility, for which a form is available from NMFS. The certification of admissibility must be properly completed and signed by a duly authorized official of the identified nation and validated by a responsible official(s) designated by NMFS. The certification must also be signed by the importer of record and submitted to NMFS in a format (electronic facsimile (fax), the Internet, etc.) specified by NMFS.
- (d) Any action recommended under this section shall be consistent with international obligations, including the WTO Agreement.

[78 FR 3346, Jan. 16, 2013]
