

## **C-1 Clinician Survey Invitation Email**

Form Approve  
OMB No: xxxx-xxxx  
Exp. Date: xx-xx-xxxx

Dear <Insert Name here>,

We hope this email finds you well. We received your contact information from a clinician database and would like to invite you to participate in an important study to evaluate the effects of your health system's implementation of policies and guidelines regarding acute, subacute and chronic pain management and opioid prescribing.

In 2022, the Centers for Disease Control and Prevention, known as the CDC, released the *Clinical Practice Guideline for Prescribing Opioids for Pain*, which provided up to date evidence regarding pain management approaches and emphasizes the need for clinicians to be focused on patient-centered care, shared decision making between patients and clinicians, equitable care for those in pain, and flexibility for clinicians in patient care.

This 10-minute survey aims to better understand the adoption, implementation, and outcomes of the 2022 Centers for Disease Control and Prevention (CDC) Clinical Practice Guideline on evidence-based care for pain management. General Dynamics Information Technology (GDIT) and Abt Global are conducting this research study to better understand how the Guideline was implemented. This study is funded by CDC.

Your participation in the study is voluntary. Your responses will be kept private. You may refuse to answer any of the questions and can discontinue your participation at any time.

Your participation in this study is highly valued. You would be compensated with a \$25 virtual gift card for your participation.

If you are interested in completing the 10-minute survey, please use this unique link for the survey. Please complete the survey by [Insert date].

<Survey Link>

If you have questions about the study, please contact [Insert name and contact information of survey lead]. Thank you in advance for your consideration.

Sincerely,

[Insert Abt staff name, Project Title, Abt Global]

Public Reporting burden of this collection of information is estimated at 5 minutes, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NW, MS D-74, Atlanta, GA 30333; Attn: PRA (xxxx-xxxx).
