PIA SUMMARY

1

The following required questions with an asterisk (*) represent the information necessary to complete the PIA Summary for transmission to the Office of Management and Budget (OMB) and public posting in accordance with OMB Memorandum (M) 03-22.

Note: If a question or its response is not applicable, please answer "N/A" to that question where possible. If the system hosts a website, the Website Hosting Practices section is required to be completed regardless of the presence of personally identifiable information (PII). If no PII is contained in the system, please answer questions in the PIA Summary Tab and then promote the PIA to the Senior Official for Privacy who will authorize the PIA. If this system contains PII, all remaining questions on the PIA Form Tabs must be completed prior to signature and promotion.

Note: According to OMB 07-16M, All agencies MUST participate in government-wide effort to eliminate unnecessary use of and explore alternatives to agency use of Social Security Numbers as a personal identifier for both Federal employees and in Federal programs.

The Division of Global Migration and Quarantine (DGMQ) commissioned the development of a Quarantine Activity Reporting System (QARS) as a subset of the DGMQ Intranet project, as a way to boost internal communications within the division and enable the DGMQ to track the activities recorded in this application.

Currently, each of the eight quarantine stations produces a daily activity report (DAR) of the significant activities occurring at their stations. These reports are then sent to DQ Headquarters, where DGMQ personnel review and consolidate all reports into a Quarantine Activity Daily Report for distribution at the CDC center level and above.

The quarantine stations are involved on a daily basis in various activities, including responding to reports of ill passengers, inspecting imported shipments of nonhuman primates, and monitoring the arrival of immigrants and refugees. These activities are recorded and summarized individually at each quarantine station. Monthly, counts of activities are submitted by each station for a monthly activity report.

The QARS allows Quarantine Station personnel to enter their daily activities in an electronic standardized format, using controlled vocabulary. The QARS allows both Quarantine Station personnel and Headquarters personnel to enter follow-up reports to responses and investigations, as well as information gathered after the creation of the initial report. QARS will enable DGMQ personnel to generate the Quarantine Daily Activity Report in a timelier and uniform manner. The information collected on a daily basis will be collated and stored in a database that can be utilized to generate reports on a monthly, quarterly, and annual basis. The system will facilitate the provision of required data for the Office of Management and Budget. The QARS will allow for the assessment of the volume and type of activities that the quarantine stations perform in order to better allocate resources and personnel. The information gathered through the illness investigation reports will enable the quantification and analysis of the information acquired during illness responses and investigations.

*13. Indicate if the system is new or an existing one being modified:

Existing

*17. Does/Will the system collect, maintain (store), disseminate and/or pass through PII within any database(s), record(s), file(s) or website(s) hosted by this system?

TIP: If the answer to Question 17 is "No" (indicating the system does not contain PII), only the remaining PIA Summary tab questions need to be completed and submitted. If the system does contain PII, the full PIA must be completed and submitted. (Although note that "Employee systems," – i.e., systems that collect PII "permitting the physical or online contacting of a specific individual ... employed [by] the Federal Government – only need to complete the PIA Summary tab.)

Yes

17a. Is this a GSS PIA included for C&A purposes only, with no ownership of underlying application data? If the response to Q.17a is Yes, the response to Q.17 should be No and only the PIA Summary must be completed. **NOTE: TO BE DETERMINED AND COMPLETED BY OCISO ONLY!!!**

*19. Are records on the system retrieved by 1 or more PII data elements?

No

*21. Is the system subject to the Privacy Act? (If the response to Q.19 is Yes, the response to Q.21 must be Yes and a SORN number is required for Q.4)

*23. If the system shares or discloses PII, please specify with whom and for what purpose(s):

DGMQ quarantine station public health officers, medical officers, head quarter staff to perform duties as required by regulations.

*30. Please describe in detail: (1) The information the agency will collect, maintain, or disseminate (clearly state if the information contained in the system ONLY represents federal contact data); (2) Why and for what purpose the agency will use the information; (3) Explicitly indicate whether the information contains PII; and (4) Whether submission of personal information is voluntary or mandatory:

- 1) daily activity reports
- 2) Information is used to follow up with ill passengers, trace contacts or inform exposed persons of possible exposure.
- 3) Data includes PII.
- 4) Submission is mandatory.

*31. Please describe in detail any processes in place to: (1) Notify and obtain consent from the individuals whose PII is in the system when major changes occur to the system (e.g., disclosure and/or data uses have changed since the notice at the time of the original collection); (2) Notify and obtain consent from individuals regarding what PII is being collected from them; and (3) How the information will be used or shared. (Note: Please describe in what format individuals will be given notice of consent [e.g., written notice, electronic notice, etc.]):

DGMQ has a legal mandate to collect data and perform illness and death investigations and report on diseases that may be of public health interest. As part of the data collection, quarantine staff is required to collect personal identifying information.

- 1) After DGMQ collects PII information, it is entered into the QARS system. PII is stored only on ill travelers who are suspected of having a disease of public health interest.
- 2) For illnesses/deaths reported after travel is completed, case PII is obtained and provided to DGMQ by the reporting agency (i.e. state/local health department). If the illness is of public health interest, the PII is entered into QARS and used for confirming case travel details and locating potentially exposed contacts of the case, if needed. If an illness/death is reported during travel, quarantine station staff asks the individual to provide PII in order to conduct follow-up and rule out an illness/death of public health interest.
- 3) If the disease is of public health interest, DGMQ will provide PII to the appropriate health department of jurisdiction to allow them to conduct case follow-up and initiate a community-based investigation, if necessary. PII on potential contacts of the case is stored in QARS and sent to the health department with jurisdiction to conduct follow-up. DGMQ does not routinely use the PII to communicate with the case or contacts. DGMQ does not formally ask for consent but the individual can refuse to answer questions.

*32. Does the system host a website? (Note: If the system hosts a website, the Website Hosting Practices section is required to be completed regardless of the presence of PII)

Yes

*37. Does the website have any information or pages directed at children under the age of thirteen?

No

*50. Are there policies or guidelines in place with regard to the retention and destruction of PII? (Refer to the C&A package and/or the Records Retention and Destruction section in SORN)

Yes

*54. Briefly describe in detail how the PII will be secured on the system using administrative, technical, and physical controls:

QARS is managed by ITSO and inherits all the enterprise security controls of CDC. QARS uses the HHS ROB for all users.

If the response to Question 17 is **“NO”** and Question 32 is **“YES”**, you only need to complete the PIA Summary and Website Hosting section (Questions 32 – 40).

If the response to Question 17 is **“YES”**, please complete ALL remaining questions.

PIA REQUIRE INFORMATION

1 HHS Privacy Impact Assessment (PIA)

The PIA determines if Personally Identifiable Information (PII) is contained within a system, what kind of PII, what is done with that information, and how that information is protected. Systems with PII are subject to an extensive list of requirements based on privacy laws, regulations, and guidance. The HHS Privacy Act Officer may be contacted for issues related to Freedom of Information Act (FOIA) and the Privacy Act. Respective Operating Division (OPDIV) Privacy Contacts may be contacted for issues related to the Privacy Act. The Office of the Chief Information Officer (OCIO) can be used as a resource for questions related to the administrative, technical, and physical controls of the system. Please note that answers to questions with an asterisk (*) will be submitted to the Office of Management and Budget (OMB) and made publicly available in accordance with OMB Memorandum (M) 03-22.

Note: If a question or its response is not applicable, please answer "N/A" to that question where possible.
