

Having a Baby Guide

Label and Assumptions

Instructions to Plans and Issuers: Do not modify this table. The numbers shown here come from the Scenario table.

Table 1. Having a Baby Sample Care Costs

Having a Baby	Sample Care Costs
Inpatient Hospital Care (Facility)	\$7,061
Professional Services: Inpatient	\$1,399
Professional Services: Obstetric Care (Bundled)	\$2,610
Diagnostic Services: Radiology	\$343
Diagnostic Services: Laboratory	\$1,153
Prescription Drugs: Generic	\$11
Over-the-counter Drugs	\$61
Preventive Services & Vaccines	\$49
Total	\$12,687

Assumptions

The following are assumptions that all group health plans and insurance issuers must use for this scenario. These assumptions are standard across all scenarios.

- Costs do not include premiums.
- Condition was not excluded as a pre-existing condition.
- There are no other medical expenses for any member covered under the plan or policy.
- All care is in-network and considered first tier (or the tier associated with the lowest level of cost sharing), for those products that incorporate tiered provider networks.
- No out-of-network charges or any other variation in sample care costs.
- All services occur in same policy period.
- All prior authorizations were obtained.
- All services were deemed medically necessary.
- All costs (allowed amount, sample care costs, member costs) greater than \$100 are rounded to the nearest hundred.
- All costs (allowed amount, sample care costs, member costs) less than \$100 are rounded to the nearest ten.
- If applying the rounding rules causes the cost sharing amount displayed to exceed the actual out-of-pocket limit (for self-only coverage), then the cost sharing amount must be capped and the amount of the actual out-of-pocket limit must be used. For example, if the out-of-pocket limit is \$5,000 but applying the rounding rules makes the sum of the deductible, copayment and coinsurance equal to \$5,100, the plan or issuer must use the out-of-pocket limit of "\$5,000" and not "\$5,100." This amount (the \$5,000 out-of-pocket limit) must then be added to the monetary amount in the exclusions and limits to determine the total *Patient pays* amount.
- All medications are covered as generic equivalents if available.

- If the plan has a wellness program that varies the deductibles, copayments, coinsurance, or coverage for any of the services listed in a treatment scenario, the plan or issuer must complete the calculations for that treatment scenario assuming that the patient is NOT participating in the wellness program.

OMB Control Numbers 1545-0047, 1210-0147, and 0938-1146

Scenario

Medical Condition: Having a Baby

Note: Services are listed individually for classification and pricing purposes to facilitate the population of the "Sample care costs" section. HHS specifies the Category in order to roll up costs into that category in the "Sample care costs" section so that those costs are uniform across all group health plans and health insurance issuers. However, some plans or issuers may classify an item or service under another category. The plan or issuer should apply its cost sharing and benefit features for each plan or policy in order to complete the "You pay" section, but must leave as is the "Sample care costs" section. Examples of cost sharing and benefit features include, but are not limited to:

- Payment of services based on the location such as inpatient, outpatient, or office; and
- Payment of items as prescription drugs vs. medical equipment.

Explanation of Scenario

- Total – the sum of allowed amounts for the listed items and services, which is cross-referenced in the "Label and Assumptions" tab, where it is rounded.
- Date of Service – includes the day and month of service so plans and issuers understand the order in which items or services are rendered.
- ICD-10 Diagnosis Code – includes the ICD-10 code for each item or service.
- CPT, HCPCS or Other Billing Code – includes medical codes for each item or service. Over-the-counter medications are listed as OTC.
- Provider Type – includes one of the types listed on the "Provider Types" tab to classify each item or service by provider.
- Category – includes one of the categories listed on the "Categories" tab to classify each item or service so it rolls up into the same category in the "Label and Assumptions" tab.
- Description – includes the short form descriptor for a CPT code, or an appropriate descriptor for a non-CPT billing code.
- Allowed Amount – includes an estimated national average allowed amount for each item or service, which plans or issuers must use to calculate cost sharing.

23-Dec	Z392	59400	OBGYN	Professional Services: Obstetric Care (Bundled)	Office/Outpatient Visit Est	-

** Inpatient costs were calculated based on national averages using the indicated DRG codes. Additional variances may occur based on how health plan hospital contracts are structured (e.g., case rate, per diems, percentage of billed charges, etc.)

Provider Types

The following are the provider types to use in the "Scenario" table ~ "Provider Type" column to classify each service by provider type. This aids group health plans and health insurance issuers in applying benefits to each item and service.

Table 3. Having a Baby Provider Types

Provider Type	What providers are covered under this Provider Type and other notes:
Pharmacy Retail	
OBGYN	
Radiology	
Inpatient Facility	
Anesthesiology	

OMB Control Numbers 1545-0047, 1210-0147, and 0938-1146

Categories

The following are the categories to use in the "Scenario" table ~ "Category" column to classify each item and service so it rolls up to the same category in the Coverage Example label in the "Label and Assumptions" table. This facilitates consistency between the "Scenario" table and Coverage Example label.

Table 4. Having a Baby Categories

Category	What services are covered under this Category and other notes:
Over-the-counter Drugs	
Diagnostic Services: Laboratory	
Professional Services: Obstetric Care (Bundled)	
Preventive Services & Vaccines	
Professional Services: Inpatient	
Prescription Drugs: Generic	

OMB Control Numbers 1545-0047, 1210-0147, and 0938-1146
