A facility may request an exception, as specified by CMS, for the submission of quality reporting and value-based purchasing program data due to extraordinary circumstances beyond the facility's control. These circumstances may include (but are not limited to) natural disasters (such as a severe hurricane or flood), issues with CMS-designated information systems that directly affect the ability of the facility to submit data, or extreme circumstances that prevent facilities from electronic clinical quality measure (eCQM) or electronic health record (EHR)-based reporting. Please refer to the *Federal Register* and *Code of Federal Regulations* for program-specific rules on availability of this exception. To request an exception, please complete and submit this form.

For extraordinary circumstances affecting the submission of data, this form must be submitted within 90 calendar days of the extraordinary circumstance, except in cases related to the submission of eCQMs under the Hospital Inpatient Quality Reporting and Hospital Outpatient Quality Reporting Programs which have an ECE Request deadline of April 1 following the end of the reporting period. At the latest, you should submit your ECE form no later than 90 days from the submission deadline for the quarter requested.

An asterisk (*) indicates required fields. All sections must be complete and specific in order for the CMS to consider the request.
