

# Instrument 1. Toolkit Feedback and Reflection (TFAR) Questionnaire

## Introduction

This questionnaire is part of a project funded by the Administration for Children and Families at the U.S. Department of Health and Human Services (HHS). The goal of this project is to improve the experience of families served by multiple benefit programs through coordination across programs/agencies. To support your [agency's/jurisdiction's] coordination goals, we are developing and piloting a Toolkit of materials to support your agency in coordinating programs and services. This interview is not part of any HHS monitoring or auditing activities. All individual responses will be kept private and will be used for project purposes only. They will be reviewed by pilot leadership to inform our approach to providing coaching and technical assistance and by the project team members supporting the development of the Toolkit as part of the project. This feedback will not be shared with your coaches directly.

It will take approximately 15 minutes to respond to this questionnaire; this includes the time it will take to read instructions, gather resources, and search existing data sources, as needed. We will ask you to complete this questionnaire up to twice per month during the pilot period.

Your participation completion of this questionnaire is extremely valuable and will help the project team understand how best support your organization throughout the pilot and to improve the Toolkit based on your team's efforts to advance coordination efforts to improve the experiences of families. Your participation in this questionnaire is voluntary. Please feel free to skip any questions or stop the questionnaire at any time. You can skip the question by scrolling past it without selecting an answer. You can submit your questionnaire early by using the next arrow to skip sections.

We will incorporate findings from this study into public documents, based on information collected through this questionnaire and other data collection activities. In these documents, we may identify your program as a contributor to the study, but we will not include the names of individual respondents in any reporting. Personally identifiable information will not be used to retrieve questionnaire data and will not be disclosed publicly.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number and expiration date for this collection are OMB #: 0970-0531, Exp: 9/30/2025.

Do you consent to completing the questionnaire?

- Yes [questionnaire begins]

- No [questionnaire ends]
