

Sample Progress Reporting Tool for Individual Assignment

The information collected in this form will be used for internal purposes to compare actual sample sizes to the target sample sizes on which power randomized controlled trials (RCTs) were designed, assess the likelihood that the final follow-up periods might exceed the thresholds for overall or differential attrition, and inform the Prevention Evidence Review.

This form is for INDIVIDUAL ASSIGNMENT. To complete this form, enter the information in the yellow cells. Instructions on what to enter, click on a yellow cell and instructions will populate based on the information you enter in the yellow cells. (Note: This form is completed separately for each treatment/control pairing.) For additional information, contact PREPLES@abtglobal.com.

A note on follow-up periods:
The PREIS Notice of Funding Opportunity defines short-term follow-up as 6 months or less and long-term follow-up as 9 months or more post intervention. If you have one of these timeframes, please work with your LES liaison to select the appropriate follow-up period for your evaluation to include in this tool.

Box 1

Sample enrollment and data collection through this date:	7/10/2024
--	-----------

Box 2

# Youth enrolled in study to date	n = 999
-----------------------------------	---------

Box 3a

# Assigned to treatment	n = 500
-------------------------	---------

Box 4a

# Completed baseline survey	n = 455
-----------------------------	---------

Box 5a

# For whom short-term follow up has closed	n = 420
# Completed short-term follow up survey	n = 380
Retention rate (automatically calculated)	% = 90.5

Box 6a

# For whom long-term follow up has closed	
---	--

n =	335
# Completed long-term follow up survey	
n =	301
Retention rate (automatically calculated)	
% =	89.9

Progress Towards Goal - Box 7

Target # youth from evaluation plan	n =	1100
# Youth enrolled in study to date (from above)	n =	999
# Needed to recruit (automatically calculated)	n =	101

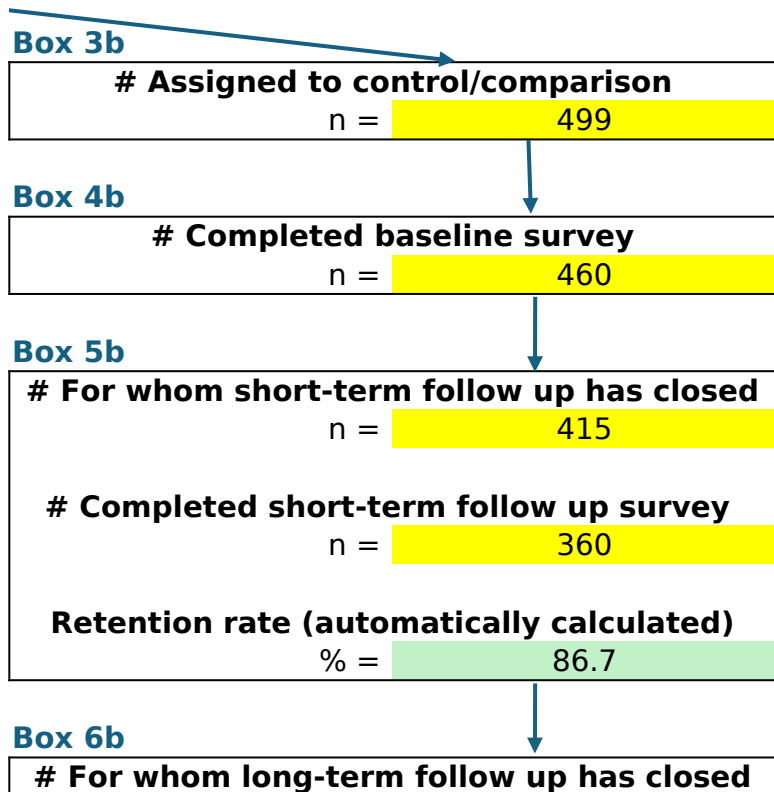

The purpose of this information collection is to help PREIS grantees track participant enrollment retention. Public reporting burden for this collection of information is estimated to average .25 hour per respondent, including the time for reviewing instructions, gathering, and maintaining the data needed to review the collection of information. This is a voluntary collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information subject to the requirements of the Paperwork Reduction Act of 1995, unless it displays a currently valid OMB control number. The OMB control number for this collection of information is 0531-0001 and the expiration date is 9/30/2025. If you have any comments on this collection of information, please contact Selma Caal (Selma.Caal@acf.hhs.gov).
