

Application for, Reduction of Permanent Capital

Dividends Payable in Property Other Than Cash, or Capital Distribution

General Information and Instructions

Preparation and Use

This application is used to seek approval for a reduction of permanent capital under 12 CFR 5.46 (national banks) or a capital distribution under 12 CFR 5.55 (federal savings associations) (collectively, a bank or applicant). This application should also be used to seek approval for a dividend by a national bank payable in property other than cash under 12 CFR 5.66.

A national bank shall submit an application to the appropriate OCC licensing office and obtain prior approval for any reduction of permanent capital under 12 CFR 5.46 or transaction under 12 CFR 5.66.

A federal savings association must file an application with the appropriate OCC licensing office and obtain prior approval under 12 CFR 5.55 for a capital distribution; except that

a capital distribution involving solely a cash dividend from retained earnings, or involving a cash dividend from retained earnings that also results in a concurrent cash distribution from other capital accounts, must be submitted to the appropriate OCC supervisory office.

All questions must be answered with complete and accurate information that is subject to verification. If the answer is “none,” “not applicable,” or “unknown,” so state. Answers of “unknown” should be explained.

The questions in the application are not intended to limit the applicant’s presentation nor are the questions intended to duplicate information supplied on another form or in an exhibit. For such information, a cross-reference to the information is acceptable. Any cross-reference must be made to a specific citation or location in the documents, so the information can be found easily. Supporting information for all relevant factors, setting forth the basis for the applicant’s conclusions, should accompany the application. The regulatory agency may request additional information.

This application form collects information that the OCC will need to evaluate a reduction of permanent capital or dividend payable in property other than cash by a national bank or a capital distribution by a federal savings association. The OCC must consider the applicable statutory requirements set forth above, as well as applicable regulatory requirements, when acting on this application. For additional information regarding these statutory and regulatory requirements, as well as processing procedures and guidelines and any supplemental information that may be required, refer to the OCC’s procedural guidelines in the *Comptroller’s Licensing Manual*. The

applicant may contact the OCC directly for specific instruction or visit the OCC's Web site at www.OCC.gov.

Notice of Publication

Generally, public notice under 12 CFR 5.8 does not apply to a reduction of permanent capital, dividend payable in property other than cash by a national bank, or capital distribution, unless the OCC determines that the application presents a significant or novel policy, supervisory, or legal issue where a public notice is considered necessary. A public notice also may be required where this application is accompanied by a second application that requires a publication notice under 12 CFR 5.8. In this instance, a public notice describing the entire transaction may be necessary to ensure the public has a full understanding of the entire transaction.

If a notice is required, the applicant must publish notice of the proposed transaction in a newspaper of general circulation in the community or communities in which the applicant proposes to engage in business. The OCC will provide specific requirements for the notice of publication.

Submission

In addition to an original application and the appropriate number of signed copies, submit an electronic copy of the information in the application, especially of the business plan's financial projections, if applicable. For email submissions, contact the OCC for instructions and information about secure transmission of confidential material.

Confidentiality

Any applicant desiring confidential treatment of specific portions of the application must submit a request in writing with the application. The request must discuss the justification for the requested treatment. The applicant's reasons for requesting confidentiality should specifically demonstrate the harm (for example, loss of competitive position, invasion of privacy) that would result from public release of information (5 USC 552 or relevant state law). Information for which confidential treatment is requested should be (1) specifically identified in the public portion of the application (by reference to the confidential section); (2) separately bound; and (3) labeled "Confidential." The applicant should follow the same procedure when requesting confidential treatment for the subsequent filing of supplemental information to the application. Contact the OCC for any further questions regarding requests for confidential treatment.
