HUD 52698a Instructions

Discussion

The HUD 52698 data that grantees and subrecipients collect for the Eviction Protection Grant Program (EPGP) must be reported in a standardized manner. Grantees and subrecipients must report HUD 52698 data on the HUD 52698a for submission to HUD. HUD develops a submission report that is substantially similar to HUD 52698a that is approved by your Government Technical Representative. If you are using your own case management system (CMS) to develop your HUD 52698a report, use this workbook as a guide in the field names and reporting codes in order to standardize reporting across all service providers.

The HUD 52698a includes a sample tabulation of tenant data contained in the HUD 52698 and drop-downs for entering actual HUD 52698 data during the quarter. The Data Dictionary is a guide to the field names and response options in the HUD 52698a derived from HUD 52698.

In the event of any inconsistency between the HUD 52698a, inclusive of these instructions and the Data Dictionary, and the HUD 52698 shall take precedence.

Add rows to HUD 52698a as needed. To add rows, right click the final row of the table and select "Insert Rows."

If you are using your own CMS to develop your HUD 52698a report, field names and response names may be changed to match your own system. You must preserve the meanings defined in the Data Dictionary and HUD 52698. Gender Identity, Race and/or Ethnicity, Eviction Protection Grant Program, Alternative Dispute Resolution Service, and Outcomes allow multiple selections. There are alternative methods of reporting for Grouping Multiple-Select Items instruction below.

Note: Internal consistency over time is of absolute importance. Following development of a system that meets the requirements, you may make changes without notifying your GTR.

If you are using your own CMS to develop your HUD 52698a report, multiple-select items may be provided across independent columns or grouped into a single column with a "," or ";" delimiter. For example, a tenant indicating they are White and Black may be represented in a single "Race" column as "White; Black or African American." When using the multiple-column method, it is the name in place of the attestation (e.g. "White" instead of "Yes" in the "R_White" column).

Note: Address elements from HUD 52698 item 5a may be grouped with other address elements if delimited by ";". See HUD 52698a items 23-28.

Please ensure the final report submitted to HUD does not include any formulas. If any formulas are used in its creation, save the entire report onto a new sheet and use the "Paste Values" option.

Save the file for submission to HUD in the following format: 52698a-[GRANTEE]-Q[NUMBER]-MM-DD-YY, where [GRANTEE] is the name of the grantee, [NUMBER] is the sequential quarter of performance, and MM-DD-YY is the end date of the quarter. If a subrecipient's HUD 52698a report is required, save the subrecipient's file for submission to HUD in the following format: 52698a-[SUBRECIPIENT]-Q[NUMBER]-MM-DD-YY, where [SUBRECIPIENT] is the subrecipient name, Q[NUMBER] is the sequential quarter of performance, and MM-DD-YY is the end date of the quarter.

The *presenting tenant* is the person seeking legal assistance. For HUD 52698 item 1a, the service provider named in HUD 52698 item 6 must assign a unique alphanumeric identifier no longer than 16 characters to the presenting tenant, unless the unique identifier was previously assigned by a known grantee, subrecipient, or contractor providing Eviction Protection Grant Program (EPGP) services to the presenting tenant. The presenting tenant unique identifier must be consistently used to report all EPGP matters closed so that non-contemporaneous EPGP matters closed with the same presenting tenant are measurable over the grant period of performance. Service providers may generate unique identifiers for the purposes of HUD 52698 reporting in a manner that protects client confidentiality.
