

requirements allow better-informed conservation and management decisions on the use of living marine resources and marine habitat in federally managed fisheries. Obtaining these data improves the ability of NOAA Fisheries and the Regional Fishery Management Councils (Councils) to monitor, explain and predict changes in the economic performance and impacts of federally managed commercial fisheries. Measures of economic performance include costs, earnings, and profitability (net revenue); productivity and economic efficiency; capacity; economic stability; the level and distribution of net economic benefits to society; and market power. The economic impacts include sector, community or region-specific, and national employment, sales, value-added, and income impacts. Economic data are required to support more than a cursory effort to comply with or support the following laws, E.O.s, and NOAA strategies and policies:

1. Magnuson-Stevens Fishery Conservation and Management Act (MSA)
2. Marine Mammal Protection Act (MMPA)
3. Endangered Species Act (ESA)
4. National Environmental Policy Act (NEPA)
5. Regulatory Flexibility Act (RFA)
6. E.O. 12866 (Regulatory Planning and Review)
7. The NOAA Fisheries Guidelines for Economic Reviews of Regulatory Actions
8. NOAA FY22–26 Strategic Plan, Building a Climate Ready Nation
9. The NOAA Fisheries Strategic Plan 2022–2025 (Strategic Plan)
10. The NOAA Fisheries Ecosystem-Based Fishery Management (EBFM) Road Map
11. The NOAA Fisheries National Bycatch Reduction Strategy
12. NOAA's Catch Share Policy

Data collections will focus each year on a different set of the 16 commercial fisheries or groups of fisheries. This cycle of data collection will facilitate economic data being available and updated for all those commercial fisheries.

There will be an effort to coordinate the data collections in order to reduce the additional burden for those who participate in multiple fisheries. To further reduce the burden, the requested information for a specific fishery will be limited to that which is not available from other sources. Participation in these data collections will be voluntary.

II. Method of Collection

The information will be collected by mail, internet, phone, and in-person interviews. In general, respondents will receive a mailed copy of the survey instrument in advance of a phone or in-person interview. Where feasible, survey respondents will have the option to respond to an on-line survey. If phone and in-person interviews are not feasible or not desired by the potential respondents, the information will be collected by mail or internet.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; U.S. Caribbean Commercial Fishermen Census

The Department of Commerce will submit the following information collection request to the Office of

Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on August 9th, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: U.S. Caribbean Commercial Fishermen Census.

OMB Control Number: 0648-0716.

Form Number(s): [None].

Type of Request: Regular submission [extension of a current information collection].

Number of Respondents: 1,500.

Average Hours per Response: 45 minutes to complete the Fisher Census Survey Form.

Total Annual Burden Hours: 1,125 hours.

Needs and Uses: This is a request for renewal of an approved information collection. The National Marine Fisheries Service (NMFS) proposes to conduct a census of small-scale fishers operating in the United States (U.S.) Caribbean. This data collection applies Puerto Rico and the U.S. Virgin Islands. The proposed socio-economic study will collect information on demographics, capital investment in fishing gear, equipment and vessels, fishing and marketing practices, economic performance, crew dynamics, and miscellaneous attitudinal questions. The data gathered will be used for the development of amendments to fishery management plans, which require descriptions of the human and economic environment and socio-economic analyses of regulatory proposals. The information collected will also be used to strengthen fishery management decision-making and satisfy various legal mandates under the Magnuson-Stevens Fishery Conservation and Management Act (U.S.C. 1801 *et seq.*; MSA), Executive Order 12866, Regulatory Flexibility Act, Endangered Species Act (ESA), and National Environmental Policy Act (NEPA), and other pertinent statutes.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

Respondent's Obligation: Voluntary.

Legal Authority: NEPA and MSA.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648-0716.
