

# Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 0935-0179)

**TITLE OF INFORMATION COLLECTION:** Readiness for Change Assessment

**PURPOSE:** From a general practice perspective, we seek to understand at baseline, the various factors which may impact implementation and use of the app and PRO data at an organizational level. Organizational readiness for change in healthcare settings is a key factor in successful implementation of new policies, programs, and practice. To provide an overall indication of the likelihood of success as well as context for evaluation findings, all participating sites will complete a paper-based *baseline organizational readiness for change assessment*.

**DESCRIPTION OF RESPONDENTS:** Prior to implementation and testing, we will identify a primary practice champion within each pilot clinic. The practice champion will serve as our primary liaison who will work closely with the site coordinators from our core team, to ensure a fully tailored clinic-specific testing plan following our pre-implementation assessment. The site champion will be completing the readiness for change assessment.
