THE PAPERWORK REDUCTION ACT OF 1995 (Pub. L. 104-13)

Public reporting burden for this collection of information is estimated to average 0.25 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

License Definition: Licensing is a process administered by state and territory governments that sets a baseline of requirements below, which it is illegal for facilities to operate. States have regulations that facilities must comply with and policies to support the enforcement of those regulations. Some states may call their regulatory processes “certification” or “registration.”
