I. INTRODUCTION

A. PURPOSE

The Department of the Treasury, with the assistance of the Board of Governors of the Federal Reserve System and the Federal Reserve Bank of New York (FRBNY), is conducting a mandatory annual survey of the ownership of foreign securities, including selected money market instruments, by U.S. residents as of December 31, 2024. The data will be collected by the FRBNY, acting as fiscal agent for the Department of the Treasury. The data collected will be used by the U.S. Government in the computation of the U.S. balance of payments accounts, the U.S. international investment position, and in the formulation of international economic and financial policies. This report also is part of the Coordinated Portfolio Investment Survey (CPIS), an internationally coordinated effort under the auspices of the IMF, to improve the statistics on the holdings of foreign securities by major investing countries.

In order to reduce reporting burden and costs to the government, there will be a substantial reduction in the number of reporters in four out of every five years. A benchmark survey Report of U.S. Ownership of Foreign Securities, Including Selected Money Market Instruments (Form SHC) of all significant U.S.-resident custodians and end-investors will continue to be held approximately every five years. In non-benchmark years, the Annual Report of U.S. Ownership of Foreign Securities, Including Selected Money Market Instruments (Form SHCA) will require reports from only the very largest U.S.-resident custodians and end-investors. The data reported under the annual survey (Form SHCA) will be used in conjunction with the results of the previous benchmark survey to compute economy-wide estimates for the non-benchmark years. The next full Benchmark survey will be as of December 31, 2026.

The determination of who must report on the annual reports (Form SHCA) will be based upon the data submitted during the previous Benchmark survey and Aggregate Holdings of Long-Term Securities by U.S. and Foreign Residents (TIC SLT) report as of December of the preceding year. Designated U.S.-resident custodians and end-investors (including fund managers) will be required to file detailed foreign security data on Schedule 2 and data on foreign securities entrusted to U.S.-resident custodians on Schedule 3, i.e., they will be required to file in the same manner as they did on the previous Benchmark survey.

B. AUTHORITY

This mandatory survey is conducted under the authority of the International Investment and Trade in Services Survey Act (22 USC 3101 et seq., [the Act]) and Executive Order 11961 of January 19, 1977. The Act specifies that the President has the authority to conduct a regular data collection program, including such studies and reports as may be necessary and feasible, to secure current information on international investment, including (but not limited to) such information as may be necessary for computing and analyzing the balance of payments and the international investment position of the United States (22 USC 3103). In Executive Order 11961 §2, the President designated the Secretary of the Treasury to be responsible for collecting data on portfolio investment required by the Act.

C. CONFIDENTIALITY OF DATA REPORTED

The information collected by this survey may be used only for analytical and statistical purposes and to enforce the Act. Access to the information is available only to officials and employees (including consultants and contractors and their employees) designated to perform functions under the Act. Persons having access to individual company information submitted pursuant to the Act are subject to penalties for unauthorized disclosure (22 USC §3104 and 18 USC §1905). The results of this survey will be made available to the general public at an aggregated level so that neither the U.S. persons or organizations providing information, nor individual or organizational ownership of foreign securities can be identified.

D. PENALTIES FOR FAILURE TO REPORT

Reporting as directed in this package is mandatory for any U.S. Person, including any organization (as defined in 22 U.S.C. 3102) subject to the reporting requirements set forth in the report instructions. Failure by a person to provide timely and accurate data can result in a civil penalty of not less than \$2,500 and not more than \$25,000, or injunctive relief ordering such person to comply, or both (22 USC §3105(a) and (b)).

Willfully failing to submit any required information under the Act can result in a fine of not more than \$10,000; and, if an individual, may result in imprisonment for not more than a year, or both. Any officer, director, employee, or agent who knowingly participates in such violation, upon conviction, may be punished by a like fine, imprisonment, or both (22 USC §3105(c)).

E. PAPERWORK REDUCTION ACT NOTICE

This report has been reviewed and approved by the Office of Management and Budget in accordance with the Paperwork Reduction Act of 1995 and assigned OMB Control Number 1505-0146. The purpose is to collect accurate and complete data that will enable the Treasury Department to fulfill its responsibility under the Act. The estimated annual average preparation time per respondent (over five years) is about 174 hours, but this will vary widely from respondent to respondent. (a) In the year of a benchmark survey (using Form SHC), it is estimated that exempt SHC reporters will require an average of 17 hours; custodians of securities providing security-by-security information will require an average of 361 hours, but this figure will vary widely for individual custodians; end- investors providing security-by-security information will require an average of 121 hours; and end- investors and custodians employing U.S. custodians will require an average of 41 hours. (b) In a non- benchmark year (using Form SHCA), custodians of securities providing security-by-security information will require an average of 546 hours (because only the largest U.S.-resident custodians will report), end-investors providing security-by-security information will require an average of 146 hours; and SHCA reporters entrusting their foreign securities to U.S. custodians will require an average of 49 hours. Comments concerning the accuracy of this burden estimate and suggestions for reducing the burden should be directed to:

No person is required to respond to any U.S. Government collection of information unless it displays a currently valid OMB control number.

II. GENERAL INSTRUCTIONS

A. WHO MUST REPORT

All U.S.-resident custodians and end-investors that are notified by the Federal Reserve Bank of New York that they are required to report must file the SHCA report. (See Section II.C, Exemptions.) All other entities are exempt from reporting.

1) **Custodians** are all organizations that hold securities in safekeeping for other organizations. Most U.S.-resident custodians also invest in foreign securities for their own account, i.e., are also U.S.-resident end-investors for purposes of this report. U.S.-resident custodians should report both the foreign portfolio securities held in safekeeping for other U.S. residents and their own foreign portfolio securities.

2) **End-Investors** are U.S.-resident organizations that invest in foreign securities for their own portfolios or invest on behalf of others, such as investment managers, fund sponsors, fund managers, and fund administrators. This includes securities that are held-for-trading, available-for-sale, or held-to-maturity. Collectively, such investors are referred to as “end-investors” throughout these instructions. U.S.-resident end-investors include, but are not limited to:

- Financial and non-financial organizations (includes bank holding companies (BHC), financial holdings companies (FHC), and Intermediate Holding Companies (IHC))
- Managers of private and public pension funds
- Managers/sponsors/administrators of funds (including money market mutual funds), country funds, unit- investment funds, exchange-traded funds, collective-investment trusts, hedge funds, limited partnerships, trusts, certain private funds or any other similarly pooled, commingled funds. Also managers/sponsors/administrators of private equity companies, venture capital companies, hedge funds, certain private funds and other private investment vehicles
- Insurance companies
- Foundations
- Institutions of higher learning (e.g., university endowments)
- Trusts and estates
- Funds and similar entities that own shares or units of, or other portfolio equity interests in, a foreign related or non-related entity.

Reporting (as end-investor) is the responsibility of the manager of a fund, partnership, trust, etc., if they have discretion over investments of the fund/partnership/trust/etc. In that case the actual end-investor(s) should not report so that there is no double counting in the overall TIC data system.

In general, it is important that every reportable cross-border ownership of long-term securities be reported by one and only one entity. For example, in cases where each individual end investor does not meet the reporting thresholds but the manager who manages them all meets the threshold in the aggregate, then the manager has the responsibility to report. If a situation is unclear, please contact the Federal Reserve Bank of New York.

Reports should include all reportable securities held or managed by all U.S.-resident parts of the organization, including all U.S.-resident branches, offices, and subsidiaries. U.S. residents include organizations organized under the laws of the Commonwealth of Puerto Rico or of U.S. territories and possessions. Please see Appendix H – Glossary for the complete definition of United States. It is the responsibility of the top U.S.-resident parent entity in each organization to ensure that its report covers all applicable entities within the organization.

If any of the following conditions apply, please contact the FRBNY staff:

- Your organization is not the top U.S.-resident parent entity in your organization and has been notified of its obligation to report by the Federal Reserve Bank of New York.
- Your organization cannot submit a single report for the entire organization.

Additional copies of the reporting forms and instructions may be printed from the Internet at:

B. WHICH SCHEDULES TO REPORT

- **Schedule 1:**

Schedule 1 must be filed by all entities that 1) receive a copy of the SHCA forms and instructions from the Federal Reserve Bank of New York, or 2) are notified by the Federal Reserve Bank of New York that they are required to file the SHCA report. Schedule 1 requests information that identifies the reporter. It also provides contact information, indicates the reporting status, and summarizes the data, if any, reported on Schedule 2 and/or Schedule 3.

- **Schedule 2:**

Schedule 2 is used to report detailed information on foreign securities owned by U.S.-resident investors that: (1) the reporter safe-keeps for itself or for its U.S.-resident clients; or, (2) for which the reporter directly employs foreign-resident sub-custodians or U.S.-resident or foreign-resident central securities depositories (CSDs) to manage the safekeeping of those securities; or, (3) that are instruments of the type that there is no U.S. custodian to manage the safekeeping of those securities. Foreign securities in safekeeping with U.S.-resident CSDs are reportable on Schedule 2 (See Section III.H.). If a U.S. resident transferred a foreign security under a repurchase or securities lending arrangement, the U.S. resident (or their U.S.-resident custodian) transferring the security should include this information in its Schedules 2 or 3 records (See Section III.D.).

- **Schedule 3:**

Schedule 3 is used to report summary amounts for all foreign securities entrusted to the safekeeping of a U.S.-resident custodian, excluding those entrusted to a U.S. - resident CSD. (See Section III.H.).

C. EXEMPTIONS

- **Schedule 1**

If you have been notified of a reporting responsibility by the Federal Reserve Bank of New York, there is NO exemption level for Schedule 1. You must complete the reporter identification, the contact and certifying information parts of Schedule 1. However, items requesting aggregate data on foreign securities on Schedule 1 should be left blank if you are not required to report data on Schedule 2 or Schedule 3.

- **Schedule 2**

SHCA reporters are exempt from reporting on Schedule 2 if the total fair value of foreign securities whose safekeeping they manage for themselves and for other U.S. residents or whose safekeeping the reporter has entrusted directly to foreign-resident custodians or U.S or foreign-resident central securities depositories **is less than US\$ 200 million** (aggregated over all accounts) as of December 31.

- **Schedule 3**

SHCA reporters are exempt from reporting on a Schedule 3 holdings that are entrusted to an unaffiliated U.S.-resident custodian that is not a U.S.-resident CSD, if the total fair value of the foreign securities entrusted to that U.S.-resident custodian by the U.S. parts of the reporter's organization and its U.S.-resident clients whom the reporter represents as end- investor – aggregated over all accounts - **is less than US\$ 200 million** as of December 31.

D. REPORTING DATES

Report data as of the last business day of December. Data should be submitted to the Federal Reserve Bank of New York no later than the first Friday of March.

III. WHAT SECURITIES MUST BE REPORTED

This report collects information on U.S. resident holdings of foreign **portfolio** securities, including foreign equities, short-term debt securities (including selected money market instruments), and long-term debt securities. Asset-backed securities are to be reported separately from other debt securities. Foreign securities are all securities issued by entities that are established under the laws of a foreign country (i.e., any entity that is legally incorporated, otherwise legally organized or licensed (such as branches), in a foreign country) and all securities issued by international or regional organizations, such as the International Bank for Reconstruction and Development (IBRD or World Bank), and the Inter-American Development Bank (IADB), even if these organizations are physically located in the United States.

Reportable securities may be traded or issued in the United States and in foreign countries and may be denominated in any currency. Neither the country in which the securities are traded or issued, nor the currency in which the securities are denominated, is relevant in determining whether the securities are reportable. Securities sold under repurchase agreements or lent under securities lending arrangements, or collateral provided, should be reported by the original owner of the securities (or their U.S.-resident custodian) as if the securities were continuously held; that is, as if the repurchase or security lending agreement did not exist (See Section III.D.).

As an exception, foreign securities held by a U.S. depository to back depository receipts/shares should not be reported. Instead, the U.S.-resident holders of the depository receipts/shares should report the receipts/shares. This exception is necessary to identify the portion of depository receipts/shares actually held by U.S. residents, because many depository receipts/shares are held by foreign residents. Securities held as part of a direct investment relationship should not be reported. (See Section III.I.)

A. REPORTABLE FOREIGN SECURITIES

Reportable securities include:

- Securities issued by international and regional organizations, such as the International Bank for Reconstruction and Development (IBRD or World Bank) or the Inter-American Development Bank (IDB) whether physically located in the United States or abroad.
- Securities issued in the United States by foreign-resident organizations (e.g., Canadian or Mexican firms), even if they are denominated in U.S. dollars and trade on U.S. securities exchanges.
- Securities issued by foreign-resident subsidiaries of U.S.-resident organizations (e.g., GMAC Canada) and foreign-resident offices of U.S. banks or U.S. broker/dealers, even if they are guaranteed by the U.S. parent company or issued in the United States.

- Depository receipts/shares, including American Depositary Receipts (ADRs), American Depositary Shares (ADS), Global Depositary Receipts (GDRs), and International Depositary Receipts (IDRs), if the underlying securities are issued by foreign residents - (See Section III.E.).
- Securities issued by foreign-resident entities under Section 144A of the SEC Act.
- Money market instruments, including negotiable certificates of deposit (CDs) issued by foreign-resident entities.

Equity Securities:

- Common stock (ordinary shares);
- Preferred stock (participating and nonparticipating preference shares);
- Restricted stock;
- Depository receipts/shares (e.g., ADRs, ADSs, GDRs, IDRs) **provided** the underlying securities used to collateralize the receipts/shares are foreign securities (See Section III.E.);
- Shares/units/other equity interests in foreign-resident funds (including mutual funds and money market funds), index-linked funds, exchange-traded funds, private equity companies, venture capital companies, investment trusts, common trust funds, commingled investment accounts, hedge funds, certain private funds and other investment vehicles – (See Section III.C.);
- U.S.-resident limited partner interests in foreign-resident limited partnerships and equity interests in other companies that do not issue shares (General partner ownership interests are excluded.) (See Section III. J.); and
- Other equity securities, including privately placed equity interests.

Short-Term Debt Securities include bills, commercial paper, and other money market instruments specified below with an **original maturity of one year or less** that give the holder the unconditional right to financial assets (Please refer to the TIC Glossary for the definition of short-term). Asset-backed short-term debt securities should be reported as asset-backed securities.

Long-Term Debt Securities (excluding asset-backed securities) include bonds and notes, with an **original maturity of over one year**, that usually give the holder the unconditional right to financial assets. (Please refer to the TIC Glossary for the definition of long-term.)

Debt Securities

- Bonds such as foreign treasury, zero coupon, stripped, deep-discounted, currency-linked (e.g., dual-currency), floating rate, equity-related (e.g., convertible bonds) bonds and Eurobonds;

- Index-linked debt securities (e.g., property index certificates);
- Commercial and financial paper, including asset-backed commercial paper;
- Bankers' acceptances and trade acceptances;
- Negotiable certificates of deposit, bank notes, and deposit notes;
- Notes, including those issued under note issuance facilities and revolving underwriting facilities medium-term notes, promissory notes, deep-discounted, currency-linked (e.g., dual-currency), floating rate notes (FRN), such as perpetual notes (PRN), variable rate notes (VRN), structured FRN, reverse FRN, collared FRN, step up recovery FR (SURF), and range/corridor/accrual notes;
- Bearer depositary receipts denoting ownership of debt securities issued by nonresidents;
- Brady bonds;
- Covered bonds (e.g., Pfandbriefe);
- Securities backed by a sinking fund;
- Asset-backed securities (See below); and
- All other short-term and long-term debt securities.

Asset-Backed Securities (ABS) are securitized interests in a pool of assets, which give the purchaser a claim against the cash flows generated by the underlying assets. In many cases, the security's outstanding principal is reduced over time as principal repayments are received and passed on to the holders of the security. Securities backed by revolving credits, such as pools of credit card receivables, do not meet this criterion, but are still classified as ABS if the return to the holder is based upon these credits (i.e., the credits do not merely serve as collateral). The ABS is reported if the **issuer securitizing the assets** is a foreign resident. The underlying asset should not be used to determine if the securities are reportable. **Asset-backed commercial paper should be reported as commercial paper.**

Include as asset-backed securities all collateralized mortgage obligations (CMOs), collateralized bond obligations (CBOs), collateralized loan obligations (CLOs), collateralized debt obligations (CDOs), and other securities which give the purchaser a claim against the cash flows generated by pools of:

- Mortgages;
- Credit card receivables;
- Automobile loans;
- Consumer and personal loans;
- Commercial and industrial loans and other whole loans; and
- Other assets.

B. DO NOT REPORT

Do not report any:

- Derivative contracts (including futures, forwards, swaps, options, and warrants) meeting the definition of a derivative under ACS 815 (formerly FAS 133). If the embedded derivative has not been bifurcated from the host contract under FAS 133, then the security should be reported without separating the embedded derivative from the host contract. However, if the embedded derivative is bifurcated from the host contract, then the derivative should be excluded from the report and the host security should be included on the report.
- Securities which have been temporarily received as collateral. (i.e. for loans or under resale agreements or similar financing agreements (see Section III.D)).
- Loans and loan participation certificates;
- Letters of credit;
- Non-negotiable certificates of deposit ;
- Bank deposits, including time deposits (except for negotiable CDs) and demand deposits;
- Annuities, including variable rate annuities;
- Foreign securities temporarily acquired under reverse repurchase, borrowing, or lending arrangements (See Section III.D.);
- The underlying security of a depositary receipt, even if a foreign security (See Section III.E.);
- Direct investments, including investments in real estate and general partner ownership interests (However, limited partner ownership interests and certain private fund interests are reportable investments.). Please review the complete definition of Direct Investment in the TIC glossary (see Appendix G) and the list of excluded investments in these instructions to determine which investments are direct investments reportable to the Bureau of Economic Analysis of the Department of Commerce, and not reportable on the TIC SHC/SHCA and the TIC SLT reports.; and
- All U.S. securities, including:
 1. Securities issued by U.S.-resident organizations, even if they are denominated in foreign currencies or traded on foreign securities exchanges;
 2. Securities issued by U.S.-resident subsidiaries of foreign-resident organizations and U.S.-resident offices of foreign banks or foreign broker/dealers, even if they are guaranteed by the foreign parent company, or issued outside of the United States;
 3. Securities issued by U.S.-resident entities under Section 144A of the SEC Act;
 4. Ownership of shares of U.S.-resident funds, even if the fund invests in foreign securities (See Section III.C.); and
 5. Stripped securities issued by a U.S.-resident financial institution, even if the underlying security is a foreign security (See Section III.F.).

C. FUNDS AND RELATED EQUITY HOLDINGS

Equity interests in limited partners (“LPs”) and other companies that do not meet the definition of funds and do not issue shares/stock (*i.e.*, limited liability partnerships (“LLPs”), limited liability companies (“LLCs”), and master LPs (“MLPs”)) should be reported as security type 4 (All Other Equity). Since LP interests do not usually have voting rights, these equity interests do not meet the definition of direct investment and are reportable even when representing 10% or more of the total equity interests. This is an exception to direct investment definition (See TIC Glossary for more details).

1. Equity interests in any entity that serves as an investment vehicle and meets the definition of funds should be reported as security type 3 (Fund Shares). [In the Form SLT, these are included in the “Of Which by Type of Security: Fund Shares” row (8401-8).] Report U.S. residents’ ownership of shares/units of, or other equity interests in, funds legally established outside of the United States (foreign-resident funds) as equity securities. All U.S. residents’ holdings of foreign-resident funds should be assigned security type 3 (fund shares), and not categorized as a debt security, regardless of the types of securities held by the fund.

For purposes of this report, funds include all investment vehicles that pool the money of one or more investors and that invest the pooled money in one or more of a variety of assets. Funds include, but are not limited to:

- Mutual funds (including both closed-end and open-end mutual funds);
- Money market funds;
- Investment trusts;
- Index-linked funds;
- Exchange traded funds (ETFs);
- Investment vehicles that use the money of a single investor to buy securities that the investment vehicle owns (single investor funds);
- Commingled accounts;
- Real Estate Investment trusts;
- Common trust funds;
- Hedge funds;
- Private equity funds.
- Certain Private Funds

The determination of whether ownership interests in a fund are foreign securities is based on the country in which the fund is legally established, not on the type of securities the fund purchases. For example, an interest in a fund organized in Bermuda that purchases U.S. Treasury securities is a reportable foreign

equity security. Likewise, an interest in a fund established in the United States is a U.S. security and should be excluded from the report, even if the U.S.-resident fund invests in foreign securities.

Many funds established outside the United States have names that are similar to U.S.-resident fund names. This often occurs when the fund is managed by a group that manages many U.S.-resident funds and therefore may be thought of as managing only U.S.-resident funds. If there is doubt as to whether the investment should be classified as a fund or whether a fund is U.S. or foreign, please contact FRBNY report staff at (212) 720-6300 or (646) 720-6300.

2. Report U.S.-resident funds' ownership of foreign securities.

Although ownership of equity interests in U.S.-resident funds is excluded from this report, the foreign securities owned by U.S.-resident funds are reportable. These are distinct holdings and, therefore, are not duplicate reporting. Foreign securities owned by U.S.-resident funds should be classified as equity, debt, or asset-backed securities, as indicated in Section III. A.

3. How to report hedge funds and other alternative investment vehicles

- a) Investment advisors, managers, administrators or similar types of legal entities and fund sponsors that create/manage/administer master-feeder fund structures both outside and inside the U.S. should report any portfolio investments between the U.S. and foreign- resident affiliate funds that the investment manager sets up.

Example 1

A **U.S.-resident** investment manager/fund sponsor (IM/FS) creates a Cayman master fund, a Cayman feeder fund and a U.S. feeder fund. The investments by the U.S. IM/FS in the Cayman funds are direct investments since the IM/FS controls the affiliated firms and should be reported to the Department of Commerce, Bureau of Economic Analysis as direct investments (except for certain funds meeting the criteria described in section III.C.3.(c) below). However, the investment that the U.S. feeder fund has in the Cayman Master Fund is portfolio investment and should be reported on the SHC/SHCA by the IM/FS as the representative of the U.S. feeder fund as the owner (end-investor). However, if a U.S. custodian holds the equity interests of the U.S feeder fund in the foreign master fund, then the U.S. custodian would have the responsibility of reporting those interests on the SHC/SHCA.

Example 2

A **foreign-resident** IM/FS sets up a Cayman master fund, a Cayman feeder fund, and a

U.S. feeder fund. The investments between the foreign IM/FS and the U.S. feeder fund are direct investment since the foreign IM/FS controls the feeder fund (except for certain funds meeting the criteria described in section III.C.3.(c) below). However, the equity investment that the U.S. feeder fund has in the foreign master fund is portfolio investment and should be reported by the U.S. feeder fund as ownership of foreign equity on the SHC/SHCA. If a U.S. custodian holds the equity interest of the U.S. feeder in the foreign master fund, then the U.S. custodian would have the responsibility of reporting on the SHC/SHCA.

- b) Exclude any investment between the investment manager, administrator or other entity that formed the funds (as a general partner) and all the entities it creates. These are direct investments and should be reported to the Bureau of Economic Analysis, except as noted in section III.C.3.(c) immediately below.
- c) Direct investment exception for certain private funds (see Direct Investment in Appendix G, Glossary)

There is an exception to the rule that investments in foreign entities of 10 percent or more of their voting interest by a U.S. entity are excluded from TIC reports - investments in certain private funds, or between the entities of a certain private fund, are included in TIC surveys regardless of ownership share if they meet BOTH of the following criteria:

- The foreign private fund entity does not own, directly or indirectly through another business enterprise, an “operating company” – i.e., a business enterprise that is not a private fund or a holding company - in which the U.S. parent owns at least 10 percent of the voting interest,

AND

- If the U.S. entity owns the foreign private fund entity indirectly (through one or more other business enterprises), there are no “operating companies” between the U.S. parent and the indirectly-owned foreign private fund entity.

Guidance on the decision to report investments in certain private funds or between entities of certain private funds in the TIC system or in BEA surveys can be found at:

<https://www.bea.gov/privatefunds>. Use the tool labeled “U.S. Investments in Foreign Private Funds.”

Note on this section 3: The descriptions of the various examples are based on common master/feeder fund structures. It is possible for there to be different types of structures when creating these funds and they may be called different names by some entities. Ultimately, if the U.S. entity 1) has less than 10% voting interest in the foreign entity, 2) non-voting interest in the foreign private fund, or 3) meets the criteria above regarding “operating companies,” it is

not treated as a direct investment and will fall into the category of portfolio investment and must be reported as part of the TIC system. All U.S. entities that do not meet requirements 1), 2), or 3) must be reported as part of the BEA's direct investment surveys.

4. Fund ownership by Pension and Retirement Plans (including those of State and Local governments, including municipalities).

As mentioned in section II.A.2 above, reporting is the responsibility of the manager of a fund, partnership, trust, etc, if they have discretion over investments of the fund/partnership/trust/etc. In that case the actual end-investor(s) should not report so that there is no double counting in the overall TIC data system.

A pension plan holds foreign investments through (a) onshore funds (including funds of hedge funds) and (b) offshore funds (including funds of hedge funds). For the purposes of TIC, the requirement to report is based on the country in which the fund is legally established.

(a) The investments in onshore U.S funds (including funds of hedge funds) are investments in U.S.-resident entities and are therefore not reportable on the SHC/SHCA.

(b) The investments in offshore funds (including funds of hedge funds) are investments in foreign-resident entities, and are therefore reportable on the SHC/SHCA. Only the shares of the funds themselves are reportable (not their underlying investments), and only if the pension investments are portfolio investment. Please review the definition of Direct Investment in the TIC glossary (see Appendix G) and the list of excluded investments in these instructions to determine which investments are direct investments reportable to the Bureau of Economic Analysis of the Department of Commerce, and not reportable on the TIC SHC/SHCA and the TIC SLT reports. If a U.S. custodian holds the foreign portfolio interests in the offshore funds on behalf of the pension plans, the U.S. custodian would have the reporting responsibility to report on the TIC SHC/SHCA and the TIC Form SLT.

A foreign-resident pension fund is a legal entity established outside the United States to provide retirement benefits exclusively for foreign residents and is not required to file TIC reports. Investments by foreign-resident pension funds in U.S. securities are reportable by U.S.-resident custodians and fund managers as described elsewhere in the instructions for the TIC SLT and SHL/SHLA.

D. SECURITIES INVOLVED IN REPURCHASE AND SECURITIES LENDING ARRANGEMENTS

A repurchase agreement (repo) is an arrangement involving the sale of securities at a specified price for cash with a commitment to repurchase the same or similar securities at a specified price on a future date. A reverse repo is an agreement whereby a security is purchased at a specified price with a commitment to resell the same or similar securities at a specified price on a specified future date. Securities lending/borrowing arrangements are agreements whereby the ownership of a security is transferred in return for collateral, usually another security or cash, under condition that the security or similar security will revert to its original owner at a future date. All of these arrangements, as well as buy/sell agreements, should be treated as follows:

- Securities sold under repurchase agreements or lent under securities lending arrangements, or collateral provided, should be reported by the original owner of the securities (or their U.S.-resident custodian) as if the securities were continuously held; that is, as if the repurchase or security lending agreement did not exist. Thus, if a U.S. resident transferred a foreign security under a repurchase or securities lending arrangement, the U.S. resident (or their U.S.-resident custodian) transferring the security should include it in its Schedule 2 or Schedule 3 records. The country reported should be the country of the issuer of the security and not the country of the counterparty to the repo or other agreement.
- Securities, including collateral, temporarily acquired by U.S. residents under reverse repurchase or borrowing or lending arrangements should not be reported.
- However, if cash was temporarily received as collateral and was used to purchase securities, those securities should be reported.

E. DEPOSITARY RECEIPTS/SHARES

Depository receipts/shares, including American depository receipts (ADRs) or bearer depository receipts should be attributed to the country of residence of the issuer of the security underlying the depository receipt/share. Issuers of depository receipts/shares should **not** report their holdings of the actual foreign securities. Only U.S. residents' holdings of depository receipts/shares should be reported.

In addition, the security type reported should be determined based on the security underlying the depository receipt/share. For example, if the underlying security is foreign common stock then the security type reported in Item 7 of the Schedule 2 should be 1 (common stock).

F. STRIPPED SECURITIES

Separate Trading of Registered Interest and Principal Securities (STRIPS) and other similar instruments are securities that have been transformed from a principal amount with periodic interest coupons into a series of zero-coupon securities, with the range of maturities matching the coupon payment dates and the redemption date of the principal amount.

The country of residence of a stripped security is the country of residence of the entity that issued the stripped security, not the country of residence of the entity that issued the underlying security. Stripped securities issued by foreign residents, (the interest-only (IO) component, the principal-only (PO) component and tranches of stripped asset-backed securities) and held by U.S. residents are reportable. If a U.S.-resident financial institution issued the stripped securities, the issuer of the stripped securities should report its ownership of the underlying foreign securities. Exclude U.S. residents' holdings of stripped securities issued by a U.S.-resident financial institution.

G. DIRECT INVESTMENT. Please see Appendix G

Please review the definition of Direct Investment in the TIC glossary and the list of excluded investments in these instructions (see sections III.B (direct investment exception), III.C, and III.J (Limited Partnerships)) to determine which investments are direct investments reportable to the Bureau of Economic Analysis of the Department of Commerce, and not reportable on the TIC SHC(A) and the TIC SLT reports. All holdings known to be direct investment should be excluded from TIC reports.

H. SECURITIES HELD BY CENTRAL SECURITIES DEPOSITORIES

Foreign securities entrusted to U.S.-resident custodians that are in turn held at a U.S.-resident central securities depository (such as the Depository Trust Company or the Federal Reserve Bank of New York), or a foreign-resident central securities depository (such as Euroclear or Clearstream), must be reported by the U.S.-resident custodian, not by the U.S. or foreign-resident central securities depository. Likewise, foreign securities held by a U.S.-resident end-investor directly with a U.S.-resident or foreign-resident central securities depository must be reported by the U.S.-resident end-investor, not by the central securities depository.

Foreign securities provided to the Federal Reserve Bank of New York (FRBNY) for discount window loan collateral must be reported by the "lender" of the securities, not by the FRBNY.

I. COUNTRY ATTRIBUTION

Except for securities issued by international and regional organizations and depositary receipts, securities should be reported based upon the country of residence of the issuer of the securities. The country of residence of any entity is where it is legally incorporated or otherwise legally organized, with the exception of bank branches, whose country of residence is the country where they are licensed. In cases where a foreign subsidiary of a U.S.-resident organization issues a reportable security, report these securities in the country where the foreign subsidiary is resident if the security is the direct legal obligation of the foreign subsidiary.

Depositary receipts should be attributed to the country of residence of the issuer of the security underlying the depositary receipt.

Securities issued by international and regional organizations are not allocated to the country in which the international or regional organization is located. The country attribution for most international and regional organizations are regional group codes: 72907, 73903, 74918, 74942, 75906, 76902, and 77909. Refer to Appendix D for a list of international and regional organizations.

A few international and regional organizations have their own geographic classification (country) codes in the Appendix and those codes should be used in reporting on the SHC/SHCA.

Attribution of country of residence of the issuer should not be affected by the currency of issue or by the country of a guarantor.

J. LIMITED PARTNERSHIPS

U.S.- resident limited partner interests in foreign-resident limited partnerships should be reported as Other Equity (Schedule 2, Item 12 = 4). Limited partners' ownership does not carry voting rights; therefore, such ownership, even if greater than 10%, is reportable. The Number of Shares Held field on the Schedule 2 (Item 19) should be defaulted to the value reported in the US\$ Fair Value field (Item 17) because limited partnerships do not issue shares.

U.S.-resident general partner interests in foreign-resident limited partnerships may be considered to be direct investment and are excluded from this report. However, see the direct investment exception for certain private funds in section III.C.3.(c) (see also Direct Investment in the TIC Glossary).

K. ACCOUNTING RULES, VALUATION OF SECURITIES, AND CALCULATION OF U.S. DOLLAR VALUES

Accounting Rules

All securities should be reported using settlement date accounting. Gross long positions should be reported. Do not net any short positions from long positions. Do not enter decimals or negative values in any cells.

Valuation of Securities

Report the fair value of securities as of close of business on the last business day of December. The fair value follows the definition of ASC 820 (formerly FAS 157). Fair value is the amount at which an asset could be bought or sold in a current transaction between willing parties, other than in a forced or liquidation sale. If a quoted market price is available for an instrument, the fair value is the product of the number of trading units times that market price. For coupon bonds, valuations should be based on “clean” prices, that is, excluding accrued interest. For securities that do not regularly trade, the estimate of fair value should be based on the best information available in the circumstances. The estimate of fair value should consider prices for similar assets and the results of valuation techniques to the extent available in the circumstances. Examples of valuation techniques include discounted cash flow, matrix pricing, option-adjusted spread models, and fundamental analysis.

For asset-backed securities (ABS), the fair value of the unpaid principal amount outstanding at close of business on the last business day of December should be reported; if principal has been repaid, this fair value will **not** be the same as the original face value revalued at end-period market prices.

U.S.-resident custodians should, at a minimum, report the fair value to the extent that it is available as part of their normal services provided to customers, even if the price available is prior to the last business day of December. If there is doubt as to whether to report the available fair value or to report a fair value of zero, please contact FRBNY report staff at (212) 720-6300 or (646) 720-6300.

Foreign Currency Denominated Securities – Calculation of U.S. Dollar Values

If the security is not denominated in U.S. dollars (US\$) and a US\$ fair value is not available in your system, convert the foreign currency denominated fair value into US\$ using the spot exchange rate as of the close of business on the last business day of December. If you need assistance locating an exchange rate, please contact FRBNY staff at (212) 720-6300 or (646) 720-6300.

If the exchange rate is normally quoted in units of foreign currency per US\$, such as ¥105.75/US\$, divide foreign currency values by the foreign exchange rate to obtain the US\$ values. For example, if the value of a security issued in Japan is ¥ 200,000, divide ¥ 200,000 by 105.75 to obtain US\$ 1,891.

If the exchange rate is normally quoted in US\$ per units of the foreign currency, such as US\$1.75/UK£, then multiply foreign currency values by the US\$ exchange rate value of the foreign currency to obtain US\$ values. For example, if the value of a security issued in the United Kingdom is UK £1,000, multiply UK £1,000 by 1.75 to obtain US\$ 1,750.

L. DATA RETENTION PERIOD

The reporter must retain all data used to create this report for a period of 36 months from the date of the report's submission.

unstripped asset-backed securities, should be reported as type 12. Debt which is collateralized by assets (real or financial), but only give the investor a claim against the underlying interest if the issuer defaults, should be reported as types 5-11, as appropriate.
