# Getting Started

## AMIS Allocation Profile

The CDFI Fund’s Awards Management Information System (AMIS) is an enterprise-wide business system, built on a commercial off-the-shelf product called Salesforce that has been customized to meet the CDFI Fund’s specific needs. AMIS will support all CDFI Fund programs through each phase of the programs’ life cycle.

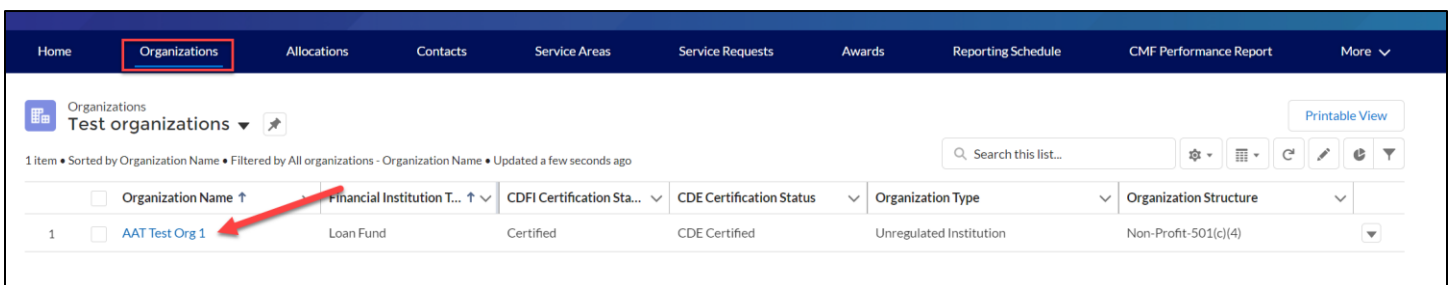

The AMIS Portal is available for users to register Organizations and users, update Organization profiles, submit CDE certification applications, and initiate service requests, such as General Inquiries (e.g., program questions, IT issues) and Change Requests (e.g., Material Events, amendments).

Please begin by reading the [AMIS Quick Start Guide](#), which provides guidance for first-time users on how to log in, set your password, verify your profile, and begin using AMIS. For additional information, please see the [Getting Started – Navigating AMIS training manual](#) and the [AMIS FAQs](#).

For AMIS IT support, please submit a service request. From the AMIS Service Request tab, select the “Create New Service Request” button. Select “Continue” to accept the default record type of “General Inquiry”. Ensure that “NMTC-AMIS technical problem” is selected for the Type drop-down field. Alternatively, the Allocatee may send an email to [AMIS@cdfi.treas.gov](mailto:AMIS@cdfi.treas.gov). Please type, “NMTC: ILR Assistance Needed” in the subject line of the email. A technical support staff person will generally reply within 24 hours on weekdays. Allocatees may also phone the CDFI Fund IT Help Desk at (202) 653-0422. If a technical support staff person is unavailable to immediately assist, please leave a message and a staff person will return the call within 36 hours on weekdays.

**The accuracy of this information is critical for completing the ILR. If any inaccuracies exist, please LOG OFF AMIS immediately and remedy the errors before continuing.**

To begin your Institution Level Report (ILR), log into the CDFI Fund’s Awards Management Information System (AMIS) and click on the Organizations tab. Select the Organization Name for which you are creating an ILR.

## AMIS Troubleshooting

### **AMIS Troubleshooting – “My information displayed is not correct, how can I fix it?”**

#### Adding QEIs:

If a QEI that the Allocatee or Sub-Allocatee issued prior to the reporting period end date is not listed under the corresponding Allocation, add the additional QEIs in AMIS.

#### Correcting Award Control Number:

If any errors exist in the Award Control Number(s) or QEI information listed, contact the CDFI Fund at [ccme@cdfi.treas.gov](mailto:ccme@cdfi.treas.gov). Please reference the Allocation/QEI Tracking Instructions Manual for details on requesting changes to finalized QEIs from the CDFI Fund.

#### Correcting Organization Profile data in AMIS:

Click Service Requests

Choose Create New Service Request

Select “NMTC Program” under Program

Fill out required information and click Submit

## Completing Tables

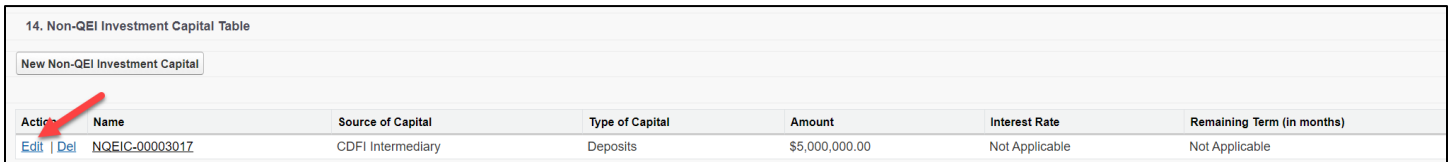

Tables are used for questions where the number of responses may differ for each Organization. For example, in the Non-QEI Investment Capital Table, a user creates and completes one row for each type of non-QEI investment that is applicable to that user's Organization. General table functionality is described here.

**Add Row:** Click the corresponding "New" button to add a new row to a Table. When adding a new row for a table, the system will ask if you want to save the ILR before creating a new row. You must click "OK" to continue. For each row, AMIS will provide fields and picklists to complete each table. For each table, after completing the data for the specific row, click the "Save" button to add the new responses to the table OR click the "Back" button to cancel the entered responses.

**Note:** Upon clicking "OK" to proceed, the ILR will save all the information you have input so far. If the ILR is unable to save due to a data error, you will receive an error message on the changes you must make in order to save.

**Modify Row:** Click the "Edit" link in the action column beside the row that needs to be modified on the table. Note that only one row can be edited at a time. After clicking "Edit", enter any changes and click the "Save" button to update the table with the new responses OR click the "Back" button to leave the data unmodified.

The screenshot shows the table interface with a table containing one row of data. A red arrow points to the 'Edit' link in the 'Action' column.

<a href="#">Edit</a>   <a href="#">Del</a>	NQEIC-00003017	CDFI Intermediary	Deposits	\$5,000,000.00	Not Applicable	Not Applicable

**Delete Row(s):** Select the row(s) to be deleted by clicking the “Del” link in the left action column of the table. Upon clicking the "Del" link, a pop-up notification will appear to confirm the delete action from the table.

- **Exclude** professional services conducted outside of the office by third parties such as accounting, bookkeeping, and legal counsel.

One FTE is a 35-hour or more work-week. In calculating the number of FTEs, part-time employees should be combined.

Example (1): Two part-time employees that each work 17.5 hours per week should be combined to count as one FTE. (17.5 hours X 2 = 35 hours)

Example (2): If a full-time loan officer spends 28 hours per week on lending activities and 7 hours per week providing training, this person would count as .80 (=28/35 or 80%) FTEs Dedicated to Lending/Investing activities and .20 (=7/35 or 20%) FTEs Dedicated to Development Services.

**Review the FTE numbers for accuracy.** The CDFI Fund will determine the Organization's Total Employee FTEs by subtracting the Consultant/Contractor (Q.12) FTEs from Total FTEs (Q.11).

## Section II. Financial Position

For venture capital funds, all financial questions pertain to the investing entity(ies), not the managing entity, unless otherwise noted.

Please note – The QEI Distribution questions/fields have been moved to the TLR Loan section, located in TLR Notes, and on the Disbursement Report on the QEI object itself. Please complete the TLR and QEI information prior to completing the ILR.

### A. Lending/Investing Pool

#### 13. QEI Investment Capital Table

- The QEI Investment Capital Table will display a summary of QEIs and RQIs reported in the TLR Loans by the Allocatee and/or Sub-Allocatee(s) for the reporting period. The table will auto-populate with Loan Source and Disbursements data for active transactions that occurred during the reporting period.

#### 14. Non-QEI Investment Capital Table

- Use the Non-QEI Investment Capital Table to identify the sources of funds, if any, which make up the Allocatee and/or Sub-Allocatee(s) Non-QEI lending/investing pool that was intended to supplement NMTC-funded projects during the reporting period. Include both idle capital available to loan or invest as well as deployed capital.
- Include only capital that is reflected on the Organization’s Balance Sheet.
- For venture capital funds, record all paid-in capital. Committed capital will be reported separately in Q.16.

Please note, “Non-QEI” does not include NMTC’s “Leverage Model” investments and debt.

**Completing the Table:** Use the “New Non-QEI Investment Capital” button to add one row in the Table for each distinct capital source with the same interest rate and term. AMIS will calculate the weighted average interest rate and remaining term and display it in Q.15 Investment Capital Summary Table.

Organizations with multiple sources of non-QEI loan/investment capital: If your Organization has three or more investments from a single Source of Capital and Type of Capital, you may calculate the weighted average interest rate and weighted average remaining term for these investments and enter them in a single row.

#### Notes for Completing the Table:

- Net Assets (Type of Capital): All, or a portion, of an Organization’s Net Assets is usually used for Investment Capital. Typically, this includes all Permanently Restricted Net Assets, and may include all, or a portion, of Unrestricted Net Assets. If the Organization’s Financial Statements include a line item

for “Net Assets Restricted for Lending/Investing,” include a row for Net Assets in the Investment Capital Table.

- **Internal Funds (Source of Capital):** Use “Internal Funds” as the Source of Capital for for-profit and credit union retained earnings. For non-profits, use “Internal Funds” as the Source of Capital for net assets derived from earned income and any net assets whose source cannot be identified. The Type of Capital for all “Internal Funds” is “Net Assets - Other OR Retained Earnings.”

Example: Two years ago, the Organization received a \$100,000 grant from the ABC Foundation. If the Organization did not track the grant separately, and therefore cannot distinguish its balance from other net assets, then it should be categorized as "Net Assets - Other OR Retained Earnings." If the Organization did track the grant separately and knows the balance, then it should be categorized as "Net Assets - Grants."

- **Debt - EQ2 (Type of Capital):** If debt is not identified as an Equity Equivalent Investment (EQ2) in the Organization’s Financial Statements, it is most likely not an EQ2 and should be categorized in CIIS as Debt - Other. An EQ2 must be a loan to a CDFI that meets the following characteristics:
  - At the end of the initial term, the loan must have a definite rolling maturity date that is automatically extended on an annual basis if the CDFI borrower continues to be financially sound and carry out a community development mission.
  - Periodic payments of interest and/principal may only be made from the CDFI borrower’s available cash flow after satisfying all other obligations.
  - Failure to pay principal or interest (except at maturity) will not automatically result in a default of the loan agreement.
  - The loan must be subordinated to all other debt except for the equity-equivalent like loans.
