Background

Community Development Financial Institutions Equitable Recovery Program (CDFI ERP) Award Recipients will be required to collect and report demographic data for all Financial Products and Grants funded with a CDFI ERP Award. Additionally, to the extent CDFI ERP Award Recipients make Financial Products and Grants funded with other available sources on their balance sheet to meet their CDFI ERP Performance Goals under their CDFI ERP Assistance Agreement, Recipients will be required to collect and report demographic data on those borrowers, investees, and grantees as well. Recipients will be required to collect and report data on all Financial Products and/or Grants supported by a Loan Loss Reserve or Capital Reserve funded with a CDFI ERP Award, including for all recipients of loans, investments, and grants supported by these reserves. Demographic reporting is not required for Development Services or Financial Services; however, the CDFI Fund encourages Recipients to track this data for themselves, if feasible.

CDFI ERP Grant Level Report (GLR)

CDFI ERP Recipients are not required to complete the GLR unless they fund grants directly with CDFI ERP Funds or use grant activity to meet their CDFI ERP Performance Goals under the CDFI ERP Assistance Agreement. If CDFI ERP Recipients complete the GLR, they do not need to report on all grants issued. They only need to report on those grants funded directly with CDFI ERP Funds and/or used to meet CDFI ERP PG&Ms.

Below are the data points and descriptions included in the CDFI ERP Grant Level Report (GLR):

CDFI ERP Consumer Loans/Investments Report (ERP CLR)

Regulated entities (banks, credit unions, cooperativas, and depository institution holding companies) with CDFI ERP transactions will complete the CDFI ERP CLR in addition to the regular CLR. The regular CLR will contain data on total consumer lending for these entities. The CDFI ERP CLR will contain data on the subset of consumer loan transactions funded directly with the CDFI ERP Award, used to meet CDFI ERP PG&Ms, as well as any consumer loans that are used to meet the Recipient’s CDFI ERP Policy Priority Performance Goal. Similar to the regular CLR, transactions in CDFI ERP CLR will be reported in aggregate at the census tract level.

Below are the data points and their associated guidance for the ERP CLR Object in AMIS:

<h3><i>Fiscal Year</i></h3> <p>CDFI’s reporting period fiscal year is the timeframe during which loans/investments were originated. This is not the same as “TLR Submission Year” on the TLR. For example, if your organization’s Fiscal Year ends on 12/31, then the reporting entity should select “Fiscal Year=2023” for loans originated between 1/1/2023 and 12/31/2023 and “Fiscal Year=2024” for loans originated between 1/1/2024 and 12/31/2024.</p>
