**SUPPLEMENTARY INFORMATION:** The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* School Pulse Panel 2025-26 and 2026-27 (SPP 2025-26, SPP 2026-27) Preliminary Field Activities.

*OMB Control Number:* 1850-0975.

*Type of Review:* A revision of a currently approved ICR.

*Respondents/Affected Public:* State, Local, and Tribal Governments.

*Total Estimated Number of Annual Responses:* 6,339.

*Total Estimated Number of Annual Burden Hours:* 2,503.

*Abstract:* The School Pulse Panel (SPP) is a data collection that was originally designed to collect voluntary responses from a nationally representative sample of public schools to better understand how schools, students, and educators were responding to the ongoing stressors of

the coronavirus pandemic. The School Pulse Panel is conducted by the National Center for Education Statistics (NCES), part of the Institute of Education Sciences (IES), within the United States Department of Education. Initially, the purpose of the study was to collect extensive data on issues brought to light by the COVID-19 pandemic, as well as other important education-related issues that could inform data-driven policy decisions, in U.S. public schools. Due to the immediate need to collect pandemic-era information from schools as described in Executive Order 14000, an emergency clearance was issued to develop and field the first several monthly collections of the SPP in 2021 and a full review of the SPP data collection was performed in 2022 (OMB# 1850-0969). SPPs innovative design and timely dissemination of findings have been used and cited frequently among Department of Education senior leadership, the White House Domestic Policy Council, the USAs Food and Nutrition Service, the Centers for Disease Control and Prevention, Congressional deliberations, and the media. The growing interest from stakeholders resulted in a request for funding to create an established NCES quick-turnaround data collection vehicle to become a mainstay for NCES. Funding for a mainstay collection was approved in late 2022, and NCES conducted a new collection during the 2023-24 school year (OMB# 1850-0975).

The School Pulse Panel study is one of the few reliable, nationally representative, quick-turnaround studies that produces data on U.S. public schools. The sample design for the 2025-26 collection will roughly be the same as the 2024-25 collection with 4,000 public schools randomly selected to an initial sample and 4,000 in a reserve sample. It is expected these schools will come from roughly 3,000 districts. The goal is national representation from about 1,200 responding schools each month in order to report out national estimates. School staff will be asked to provide requested data monthly during the 2025-26 school year. This approach provides the ability to collect detailed information on various topics while also assessing changes over time for items that are repeated from year to year. Given the demand for data collection, the content of the survey is expected to change monthly. For the 2025-26 school year, the survey may ask school staff about a wide range of topics, including but not limited to staffing; learning recovery;

absenteeism; usage of federal funds; and overall principal experiences.

This package includes preliminary activities, including contacting and obtaining research approvals from public school districts with an established research approval process (special contact districts) where applicable; notifying sampled schools and districts of their selection for the survey; and inviting them to complete a short Screener Survey to establish points of contact. In spring of 2025, a clearance for main study data collection activities that will include instruments for the first quarter of collections will be submitted for 60-day and 30-day public comment. Subsequent quarterly content submissions will be submitted for 30-day public comment.

This request is to conduct the SPP 2025-26 preliminary activities. Substantial edits and additional materials may be added to this package after the 60-day public comment period is complete, in time for the subsequent 30-day public comment period that will begin Fall 2024. Materials for SPP are cleared under two OMB Number sequences. Materials for SPP 2022 and SPP 2024-25 were cleared under OMB# 1850-0969, while SPP 2023-24 and now SPP 2025-26 are cleared under OMB# 1850-0975.

### Proposed Agency Information Collection: Supplemental Labor Management Office (SLMO) Driver Attestation

**AGENCY:** U.S. Department of Energy.

**ACTION:** Notice of request for comments.

**SUMMARY:** The Department of Energy (DOE) invites public comment on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. The information collection requests a three-year approval of its collection, titled BPA Supplemental Labor Management Office (SLMO) Driver Authorization, OMB Control Number 1910-NEW. The proposed collection will ask contract personnel to certify they have

completed the requirements to drive a government vehicle on behalf of BPA and presented credentials to their contract company that they are licensed for the type of license their role requires.

**DATES:** Comments regarding this collection must be received on or before December 27, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period allowed by this notice, please advise the OMB Desk Officer of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202–881–8585.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). ### Federal Energy Regulatory Commission

[Docket No. CP21–465–004]

#### Driftwood Pipeline, LLC; Notice of Request for Extension of Time

Take notice that on November 13, 2024, Driftwood Pipeline, LLC (Driftwood Pipeline) requested that the Commission grant an extension of time, until October 21, 2027, to construct and place into service its Line 200 and Line 300 Project (Project), located in Beauregard and Calcasieu Parishes, Louisiana, as authorized in the April 21, 2023 Order Issuing Certificate (Order).<sup>1</sup> The Order required Driftwood Pipeline to complete construction of the Project and make it available for service within two years of the date of the Order, or by April 21, 2025.

Driftwood Pipeline states that it has experienced delays resulting from unforeseen circumstances, including litigation delays from an appeal of the Certificate Order in the United States Court of Appeals for the District of Columbia Circuit and uncertainty associated with impending changes in company leadership and other personnel related to a change in ownership of Driftwood Pipeline’s parent company. Driftwood Pipeline states that these issues further complicated efforts to reach a final investment decision, and thus additional time is required for completing construction of the Project and placing it into service.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Driftwood Pipeline’s request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).
