

The e-GGRT system shows the paperwork reduction act information on the footer to every screen.

The screenshot displays the e-GGRT system interface for Subpart G: Ammonia Manufacturing (2024). The page includes a navigation menu at the top with options like HOME, FACILITY REGISTRATION, FACILITY MANAGEMENT, DATA REPORTING, EPA REPORTS, and HELP DESK. The main content area is titled "Test Facility 87" and "Subpart G: Ammonia Manufacturing (2024)". It features an overview section with reporting requirements, a summary table for Subpart G information, and unit summary tables. The footer contains a link to the "Paperwork Reduction Act Burden Statement", which is circled in red. Other footer links include "Accessibility" and "Contact Us".

e-GGRT 24.5-4c9f198d | SPG-OVERVIEW-1

This links the page where we have the ICR statements listed for the information collected in the e-GGRT system:

<https://ccdsupport.com/confluence/display/help/Paperwork+Reduction+Act+Burden+Statements>

Reporters that elect to prepare their annual reports in XML instead of using the e-GGRT webforms, need to submit their XML files through the e-GGRT system. So these XML reporters would log into the e-GGRT system, upload their XML files, and proceed through the submission screens, all of which would include the link to the Paperwork Reduction Act Statement on every page.
