

Appendix A for NASA Special Events PRA (12.2024)

<https://my.nasa.gov/specialevents/s/>

Guests Select Available Events in Two Ways.

1. From the portal itself after registration through the Agency Front Door
2. After receiving a link via email with the event opportunity that directs them to the portal via the Agency Front Door

The Privacy Act Statement will be available via a footer link when guests are taking any actions related to NASA Special Events

Privacy Act Statement

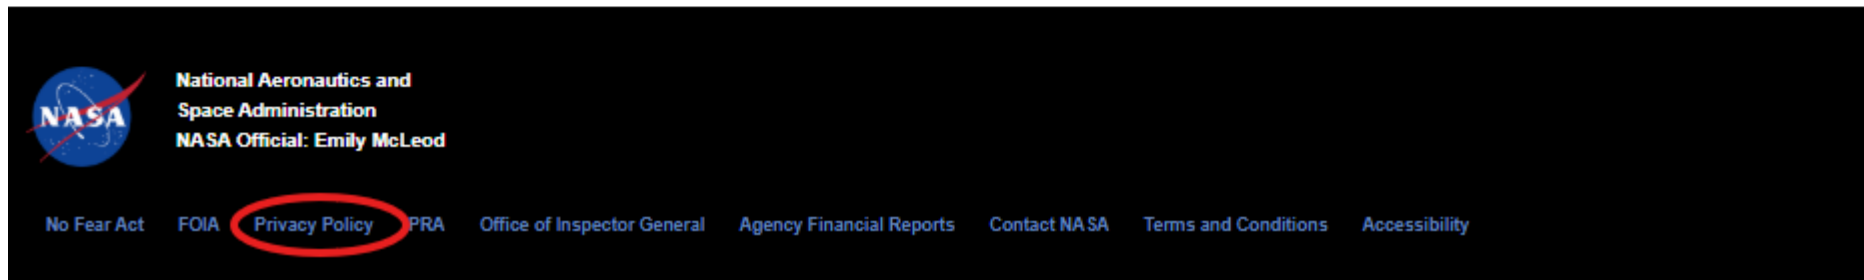

The information in this form will allow Agency staff members with Guest Operations responsibilities to appropriately plan for guest attendance, communicate needed information of guests, and to organize the clearance of guests at NASA facilities.

Authority: The collection is authorized by 42 U.S.C. 2451, et seq., the National Aeronautics and Space Act of 1958, as amended.

Purpose: This information is being collected and maintained for the purpose of organizing effective outreach events and registration opportunities for members of the public.

Routine uses: Use and disclosure of your records within and outside of NASA may occur in accordance with the NASA Security Records Systems (NASA 10SECR) system of records notice published at <https://www.federalregister.gov/documents/2023/08/08/2023-16900/privacy-act-of-1974-system-of-records> and as permitted by the Privacy Act of 1974, as amended (5 U.S.C. 552a(b)).

Impact of non-disclosure: Failing to provide the requested information may result in not being able to attend an event.

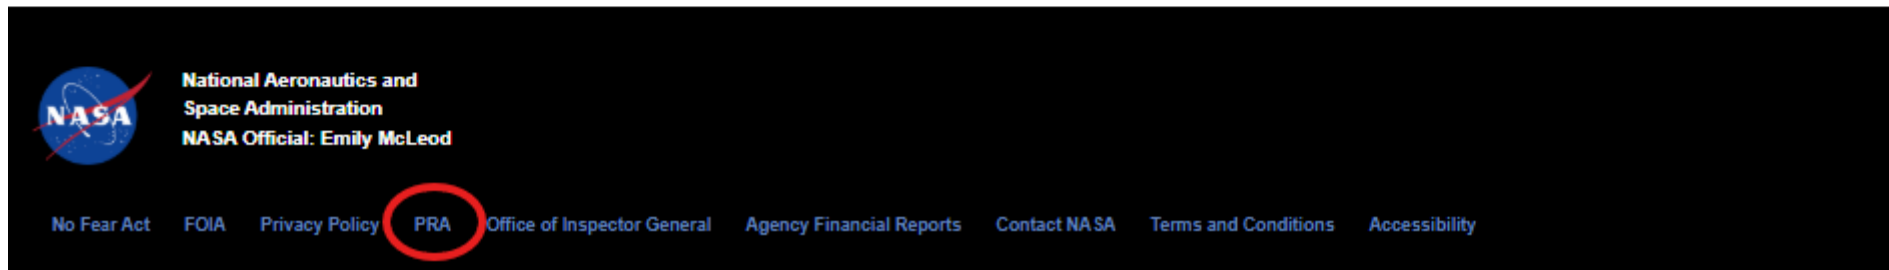

The PRA Statement will be available via a footer link when guests are taking any actions related to NASA Special Events

PRA Statement

Paperwork Reduction Act Statement - The OMB control number for this information collection is 2700-XXXX and it expires on XXXXX/2028. This information collection meets the requirements of 44 U.S.C § 3507, as amended by section 2 of the Paperwork Reduction Act of 1995, and is part of a Federal Government-wide effort to streamline the process for seeking feedback on service delivery. This data will only be used internally for service improvement and program management purposes. We estimate it will take about 7 minutes to read the instructions, gather the facts, and answer the questions. Responses to this collection are voluntary, and you should not respond to any agency's information collection unless such collection displays a valid Office of Management and Budget control number. You may send comments on our time estimate above to hq-events@mail.nasa.gov. Please send only comments relating to your time estimate to this address.

Other ways to get involved

We also invite you to find out all of the ways you can bring NASA into your life through participating in experiences, learning engagements, and activities that you can do on your own.

[Get Involved](#) →

Example email directing guest to the portal (@ RSVP Here)

You are cordially invited to attend the launch of GOES-U from Kennedy Space Center in Florida scheduled for no earlier than Tuesday, April 30, 2024. The two-hour launch window will open at 5:10 p.m. EDT.

GOES-U is the fourth and final satellite in the Geostationary Operational Environmental Satellites (GOES) – R Series, the Western Hemisphere’s most sophisticated weather-observing and environmental monitoring system. The GOES-R Series provides advanced imagery and atmospheric measurements, real-time mapping of lightning activity, and space weather observations.

The GOES-U mission is a collaborative effort between the National Oceanic and Atmospheric Administration (NOAA) and NASA. NASA manufactures and launches the GOES satellites for NOAA, which operates them and distributes their data to users worldwide.

Follow the RSVP link (below) to access the Launch Guest Website and login. After logging in, you will be able to verify your information, your party, and RSVP. If it’s your first-time accessing NASA’s Special Events Portal, you’ll be guided to create an account before responding to the invitation.

Please do not forward this message, as this information is specific to you and your guest(s). Your RSVP will ensure that you and your previously submitted guest(s) have an opportunity to view the GOES-U Launch. Please RSVP by Thursday, April 11, 2024 at 12:00 AM EDT.

Guests are responsible for providing their own travel accommodations and transportation to the check-in and/or bus boarding location. When making travel plans, keep in mind the tentative nature of launches. The launch date is subject to change due to various factors. Please check the [NASA Events Site](#) regularly for the latest launch information.

If you have any questions, please contact the guest operations team at hq-events@mail.nasa.gov.

We look forward to seeing you at launch!

Follow the link below to confirm your attendance.

Sincerely,

NOAA & NASA Guest Operations

[RSVP Here](#)

We only have three basic forms for collection in the system

- Nominator Form
- RSVP Form
- Nominee Form

Nominator forms are used by those given a role through the Agency processes to add potential guests to an event - to nominate them.

RSVP and Nominee forms are used by guests to share needed details about themselves or their parties depending on the approach to the event.

Different information may be needed to clear a guest for an event depending on their Citizenship status (U.S., Non-U.S. or LPR) and the specific facility logistics requirements. Screen shots here show the forms for each citizenship status and with/without logistics requirements. The minimum number of logistics requirements will be utilized per event.

Any information the guest has previously entered in the system for another event, or as part of registration will be prefilled for them.

As of March 2025, site registration will be handled through NASA's Agency Front Door Project. Richard Gilmore and Meghan LaCroix from NASA are working the Agency Front Door submission. Though the account creation and registration will be covered by the Agency Front Door PRA Submission, we are describing it here for context.

Fields collected through that process will include the following. This collected information will be available in NASA Special Events users seamlessly and they won't need to re-enter it in any of the forms below unless they want to update it.

Terms and Conditions

Standard Launch T&C: Launch Viewing Safety NASA applies stringent range safety principles and procedures to protect the general public, its workforce, and its property for all areas of the Kennedy Space Center during launch. However, in the unlikely event of an accident, hazards such as debris, blast pressure, and toxic chemicals would be present. Large backpacks, coolers, other large containers, and any sharp objects are not permitted. Small backpacks, purses, waist packs, and diaper bags are permitted. CHAIRS ARE NOT PERMITTED AT THIS SITE. All items are subject to search. Items must fit in your lap on the bus and will be required to be with you at all times. Guests should consider the weather conditions when planning what to bring with them to launch. Media Release: By accepting the invitation, you give permission to be recorded, photographed and/or videotaped by or for NASA or its representatives. You further give permission to NASA and its representatives to use, reproduce, prepare derivative works, publish, distribute to the public, perform publicly, and/or publicly display the materials, including excerpts and any ancillary material, which include name, affiliation (educational institute/company), image, voice, and/or likeness. NASA may distribute the materials, including excerpts therefrom, and any ancillary material through a variety of media in existence now or in the future, including but not limited to print, television, websites, radio, or any other means. NASA may also permit a third party to exercise NASA's rights, including but not limited to the right to display or distribute the recording, including excerpts therefrom, and any ancillary material, in any manner NASA deems appropriate.
