Abstract: Under this program, loans and grants are provided to electric and telecommunications utilities that have borrowed funds from the Agency. The purpose of the program is to encourage these electric and telecommunications utilities to promote rural economic development and job creation projects such as business start-up costs, business expansion, community development, and business incubator projects. The utilities must use program loan funds to make a pass-through loan to an ultimate recipient such as a business. The utility is responsible for fully repaying its loan to the Government, even if the ultimate recipient does not repay its loan. The intermediary must use program grant funds, along with its required contribution, to create a revolving loan

fund that the utility will operate and administer. Loans to the ultimate recipient are made from the revolving loan fund for a variety of community development projects. The information requested is necessary and vital in order for the Agency to be able to make prudent and financial analysis decisions.

The information collected will be used to evaluate applications for funding consideration, conduct an environmental review, prepare legal documents, receive loan payments, oversee the operation of a revolving loan fund, monitor the use of RBS funds, and enforce other Government requirements such as compliance with civil rights regulations.
