Steps to Complete this Survey

This survey requires employers to provide information about work-related injuries and illnesses based upon the information you have maintained for Calendar Year 2024 on your Occupational Safety and Health Administration (OSHA) Forms for Recording Work-Related Injuries and Illnesses. Copies of these forms were sent to you in late 2023. Under Public Law 91-596, all establishments that receive this **mandatory** survey must complete and return it within 30 days, even if they had **no** work-related injuries and illnesses during 2024. The instructions below outline the steps to complete the survey regardless of whether or not your establishment had injuries or illnesses in 2024.

- **Step 1:** Complete this survey only for the establishment(s) noted on the front cover under "**Report for this Location**." If you are unsure, please call the number(s) listed on the front of this form in the "**For Help Call:**" section.
- **Step 2:** Check "**Your Company Address**" printed on the front cover. Make any necessary corrections directly on the front cover.
- **Step 3**: Refer to your establishment's OSHA *Forms for Recording Work-Related Injuries and Illnesses*. Copies of these forms were sent to you in late 2023. Form 300A from that mailing is shown immediately below.

- If you had **no** work-related injuries or illnesses in 2024, answer all questions in Sections 1 and 4 of the survey.
- If you had at least one work-related injury or illness in 2024, answer all questions in Sections 1, 2 and 4 of the survey.
- Report cases with *Days Away From Work, or with Job Transfer or Restriction* in Section 3.
- **Step 4:** In case we have questions, write the name of the person who completed this survey in Section 4: Contact Information, on the last page of this survey.
- **Step 5:** Return this survey and any attachments in the enclosed envelope within 30 days of the date your establishment received it.

Instructions:

If you had any work-related deaths in 2024, please tell us on the line below where you assigned/classified each death within the list of items (M1) through (M6) provided under *Injury and Illness Types* above (e.g., "fatal case was due

to injury resulting from fall" or "death resulted from respiratory conditions")

Steps to estimate annual average number of employees for 2024:

Step 1:

To calculate the annual average number of employees your establishment paid during 2024, you must calculate the total number of employees your establishment paid for all periods. Add the number of employees your establishment paid in every pay period during Calendar Year 2024. Count all employees that you paid at any time during the year and include full-time, part-time, temporary, seasonal, salaried, and hourly workers. Note that pay periods could be monthly, weekly, bi-weekly, etc.

Example:

Acme Construction paid its employees in 12 pay periods during 2024:

Pay Period	Number of Employees Paid			
	Per Pay Period			
1	30			
2 3	0			
3	35			
4	37			
5	37			
6	40			
7	43			
8	42			
9	37			
10	35			
11	30			
12	<u>+26</u>			
	392 (total number of employees paid			
	over all pay periods)			
Example:				
	action had 12 pay periods and paid a total of			
392 employees during these pay periods.				
372 employees during these pay periods.				
392 divided by 12 = 32.67				
Example:				
-	round 32 67 to 33			

Step 2:

Divide the total number of employees (from Step 1) by the number of pay periods your establishment had in 2024. Be sure to count any pay periods when you had no (zero) employees.

Step 3:

Round the answer you computed in Step 2 to the next highest whole number. Write that number in the box for Section 1, Question 2 on the previous page.

Acme would round 32.67 to 33.

Steps to estimate total hours worked by all employees for 2024:

Step 1:

Determine the number of full-time employees at your establishment.

Example:

Of Acme's 33 employees in 2024, 28 were full-time.

Determine the number of hours generally worked by a full-time employee for a year. Multiply the number of full-time employees you calculated in Step 1 by this number. This total number of full-time hours worked should exclude vacation, sick leave, holidays, and any other non-work time.

Each of Acme's 28 full-time employees worked an average of 2,000 hours per year after excluding vacation, sick leave, holidays, and other non-work time. This works out to 40 hours per week for 50 weeks of the year.

> 28 full-time employees X 2,000 hours per year 56,000 total full-time hours

Step 3:

Determine the number of hours of overtime worked by your full-time employees.

Determine the number of regular hours worked by your non-full-time employees. (Non-full-time employees include part-time, seasonal, and temporary employees.)

Add these numbers to the number you calculated in Step 2 above. This is the estimated number of hours worked by all of your employees, fulltime and non-full-time, during 2024. Write this number in Section 1, Question 3 on the previous page.

Example:

Acme's 28 full-time employees worked a total of 2,800 hours of overtime during 2024 and 56,000 regular hours. Acme's 5 part-time employees worked a total of 2,716 hours during 2024.

> 56,000 full-time hours from Step 2 2,800 over time hours + 2,716 part-time hours 61,516 total hours worked

Section 3: Reporting Cases

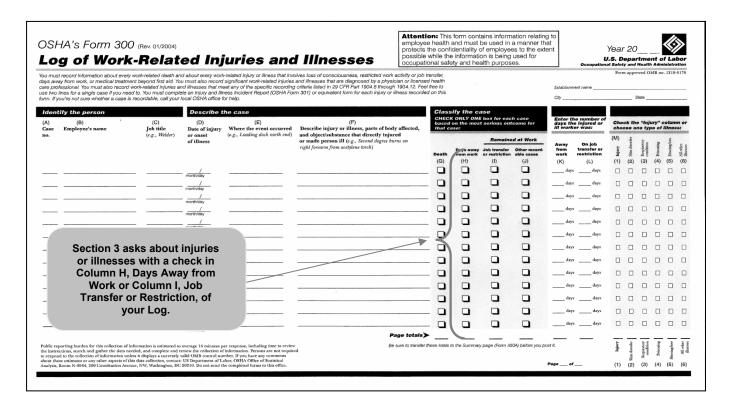

Instructions:

- 1. If you had **NO** cases with days away from work (Column H) and **NO** cases with days of job transfer or restriction (Column I), please proceed to Section 4: Contact Information.
- 2. If you had cases with days away from work (Column H) or cases with days of job transfer or restriction (Column I), please complete Section 3. To identify the individual cases to report, follow these steps:
 - Step 1: Go to your completed OSHA Form 300.

 Note each case that has a check in Column (H) or Column (I).

 These are the only cases you should report.

 See the illustration in Step 3 below.
 - **Step 2:** Fill out one Injury and Illness Case Form for each case that you identified in Step 1. You can find most of the information on a supplementary document such as the *Injury and Illness Incident Report* (OSHA Form 301), a workers' compensation report, an accident report, or an insurance form.
 - Step 3: If more than one establishment is noted on the front cover under "Report for this Location," be sure to look at all your OSHA Form 300's to find which cases to report.

- Step 4: We have designed this survey to ensure that you do not have to report more than 8 cases. If you have more than 8 cases, please go to Section 5: If You Need Help... at the back of this booklet and call the phone number(s) listed for your State for assistance. If you need additional Injury and Illness Case Forms, you may either photocopy a blank form or go to Section 5: If You Need Help... at the back of this booklet and call the phone number(s) listed for your State.
- **Step 5:** When you are finished, proceed to Section 4: Contact Information on the back cover of this booklet and provide information for the person who completed this survey.
