

## Attachment E: Round 2 intercept testing with youth protocol

Hello! My name is \_\_\_ from the Bureau of Labor Statistics. We are getting feedback from youth ages 11-17 on a consent form for one of our surveys. Do you have 2-5 minutes to provide feedback on the draft form?

(If yes), What is your age? What is your gender?

Do you agree to participate?

I'd like you to imagine that you were invited to participate in a national survey of young people between the ages of 11 and 17. What would you want to know about the survey before agreeing to participate?

Here's some general information. Please tell me what information you find particularly useful (highlight in blue) and what information you find unclear (highlight in orange). It's ok to read the form to yourself.

*(Participants will read the youth assent form in Attachment B).*

*If you would like to, please highlight in BLUE any information that you like or find useful and the ORANGE highlighter any information that is not clear to you.*

Now that you've read it, if you were invited to participate, would you? Why or why not?

Which question on the page is the one that's most important to you?

How do you think this form could be improved?

What was unclear?

Thank you. (Offer non-monetary incentive.)
