

The following non-substantial changes are made to the following forms in this collection:

**FAA Form 8610-2 and FAA Form 8610-3.**

To comply with Presidential EO *“Defending Women From Gender Ideology Extremism and Restoring Biological Truth to the Federal Government”* the form is revised to remove any references to the term “gender”. The instructions on completing the block “Sex” are revised to inform the applicant to mark their biological classification at birth, either Male or Female.

Links are added to direct applicants to information for locating the FAA Flight Standards offices where the application may be submitted.

A blank page was added after the supplemental page v, to assist applicants in printing the form double-sided, based on stakeholder feedback. The added page will ensure the form pages 1 and 2 are printed double-sided if the applicant were to print all pages (supplemental pages i through vi and form pages 1 and 2). Alternatively, the applicant can print pages 7 and 8 to print only the form itself, as stated in the instructions on supplemental page i.

**FAA Form 8610-3.**

On supplemental page iii, a reference to FAA form 8060-68 was added as an alternative method for providing information needed when an airman is requesting a copy of their airman application file.

Various instructions on supplemental pages iv and v are revised for clarity and for consistency with other forms.

On FAA Form 8610-3, page 2, Applicants Certification section, Item B, a typo is corrected: “statues” is revised to “statutes”.

**FAA Form 8610-1.**

The Privacy Act Statement on supplemental page ii is updated at the direction of the FAA Privacy Program office.
