[Docket No. MARAD–2024–0156]

Request for Comments on the Reinstatement of a Previously Approved Information Collection: United States Marine Highway Program

AGENCY: Maritime Administration, DOT.

ACTION: Notice.

SUMMARY: The Maritime Administration (MARAD) invites public comments on our intention to request the Office of Management and Budget (OMB) approval to renew an information collection in accordance with the Paperwork Reduction Act of 1995. The proposed collection OMB 2133–0541 (United States Marine Highway Program) (also known as America’s Marine Highway Program) will be used to evaluate and review applications being submitted for grant award consideration. This collection was initially discontinued on August 28, 2023, due to the elimination of the project designation application for this

program from the James M. Inhofe National Defense Authorization Act for Fiscal Year 2023. However, in order to facilitate the operation of the United States Marine Highway Program Grant Program (the Program), which provides funding to develop, expand, or promote marine highway transportation or shipper use of marine highway transportation, this collection is being reinstated. We are required to publish this notice in the **Federal Register** to obtain comments from the public and affected agencies.

DATES: Comments must be submitted on or before February 4, 2025.

ADDRESSES: You may submit comments identified by Docket No. MARAD–2024–0156 through one of the following methods:

Instructions: All submissions must include the agency name and docket number for this rulemaking.

Note: All comments received will be posted without change to www.regulations.gov including any personal information provided.

Comments are invited on: (a) whether the proposed collection of information is necessary for the Department’s performance; (b) the accuracy of the estimated burden; (c) ways for the Department to enhance the quality, utility, and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.
