SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Manufactured Housing Survey.

OMB Approval Number: 2528–0029.

Type of Request: Revision of a currently approved collection.

Form Number: C–MH–9A.

Description of the need for the information and proposed use: The Manufactured Housing Survey collects data on the characteristics of newly manufactured homes placed for residential use. Key data collected includes sales price and the number of units placed and sold within 4 months of shipment. Other selected housing characteristics collected include size, location, and titling. HUD is authorized to collect these statistics under the “Housing and Community Development Act of 1980,” Title 42 U.S.C. 5424 note (see Attachment 3), which provides the Secretary discretion to take necessary actions to ensure the public is aware of

the distinctions between the types of factory-built housing. This allows HUD to collect and report manufactured home sales price information for the nation, Census Regions, States, and selected metropolitan statistical areas, and to monitor whether new manufactured homes are being placed on owned rather than rented lots. HUD also used these data to monitor total housing production and its affordability.

Furthermore, the Manufactured Housing Survey serves as a basis for HUD’s mandated indexing of loan limits. Section 2145 (b) of the Housing and Economic Recovery Act (HERA) of 2008 requires HUD to develop a method of indexing to annually adjust Title I manufactured home loan limits. This index is partially based on manufactured housing price data collected by this survey. Section 2145 of the HERA of 2008 also amends the maximum loan limits for manufactured home loans insured under Title I. The Final Rule, entitled Indexing Methodology for Title I Manufactured Home Loan Limits, was published in the **Federal Register** on February 28, 2024. This Rule established separate indexing methodologies to annually calculate future loan limits for Manufactured Homes Loans, Manufactured Lot Loans and Manufactured Home and Lot Combination Loans for the Title I Manufactured Home Loan Program. Single- and double-section price data from this survey are used to determine maximum loan amounts for Title I Manufactured Home Loans. HUD implemented the revised loan limits, as shown below, for all manufactured home loans for which applications are received on or after March 29, 2024.

Loan type	Purpose	Old loan limit	New loan limit
MANUFACTURED HOME IMPROVEMENT LOAN.	For financing alterations, repairs and improvements upon or in connection with existing manufactured homes.	\$25,090	\$25,090.
MANUFACTURED HOME UNIT(S)	To purchase or refinance a Manufactured Home unit (s).	69,678	Single-section: \$105,532. Multi-section: \$193,719.
LOT LOAN	To purchase and develop a lot on which to place a manufactured home unit.	23,226	\$43,377.
COMBINATION LOAN FOR LOT AND HOME	To purchase or refinance a manufactured home and lot on which to place the home.	92,904	Single-section: \$148,909. Multi-section: \$237,096.

Method of Collection

The methodology for collecting information on new manufactured homes involves contacting dealers from a monthly sample of new manufactured homes shipped by manufacturers. The units are sampled from lists obtained from the Institute for Building Technology and Safety. Dealers that take

shipment of the selected homes are mailed a survey form four months after shipment for recording the status of the manufactured home.
