CONTENTS

	Child-Reported Behavioral, Educational, and Social Functioning (Age
8-17 Years)	1
Module B.	Child-Reported Health, Diet, and Nutrition (Age 10-17 Years)6

Module A. Child-Reported Behavioral, Educational, and Social Functioning (Age 8-17 Years)

I have some questions for you so I can learn a little about you and your life. These questions will include things about school, friends, your health, social media habits, and more. If you don't know how to answer one of the questions, please just give me your best guess. You can choose to skip any questions you don't want to answer, and we can stop at any time. None of the choices for these questions are wrong. Do you have any questions for me before we get started?

First, we are going to ask you some questions about your school and relationships. We know that sometimes kids do not like to talk about school very much. Please remember you can choose not to answer a question. We can also pause the interview for a bit if you need to.

A.1 Please rate how much you agree or disagree with the following statements.

[Fragile Families, The Panel Study of Income Dynamics, Child Development Supplement; Responses to A.4a-c summed into a composite score; Johns Hopkins questions. Note: For children ages 2-9, parents report on a version of these questions.]

		Strongly disagree	Disagree	Neither agree nor disagree	Agree	Strongly agree	Don't know	Prefer not to answer
a.	You feel close to people at school							
b.	You feel like a part of the school							
C.	You are happy to be at school							

Now I am going to ask about your friendships.

A.2 [ASK IF CHILD IS 10+ YEARS OLD] Please let me know if the following describe all, most, some, or none of your friendships.

[Source: New question, wording needs to be tested – based on Murayama et al. (2013); Johns Hopkins questions.]

			All	Most	Some	None	Don't know	Prefer not to answer	
	a.	My friends live in the neighborhood
