

Interview Guides for Participating Families that Have Leased-Up

INSTRUCTIONS FOR INTERVIEWERS

Questions for leased-up CMRS and control households have been separated into two separate interview guides. Use the first interview guide if the household was assigned to the CMRS group. Use the second interview guide if the household was assigned to the control group. The consent form is the same for both treatment and control.

How to use probes and prompts: *Probes* should be used if the respondent's answer does not cover the topics listed in the probes. *Prompts* should be used when a respondent isn't sure how to answer a question or seems unsure about what the question is asking. If a respondent provides an answer to a question, whether or not they include mention of the items listed as prompts, then the interviewer should not use the prompts.

Informed consent:

- Prior to arriving for in-person interviews, print a copy of the appropriate consent form for each respondent.
- Offer the family the option of reading this consent form aloud or to themselves. If the family opts to read it to themselves, please verbally recap the key points with the respondent to ensure that they understand.
- Provide a copy of the consent form to the family for their records. For in-person interviews this should be a hard copy and for virtual interviews, this should be via email.
- The following instructions do not need to be read aloud to respondent but prior to the interview, this information should be shared as appropriate:

If you would like translated materials, or to complete the interview in language other than English, please let us know and we will do our best to accommodate you. If you need information to be presented in an accessible format, for example, Braille, audio, large type, or sign language interpreters, or need a reasonable accommodation (a change or adjustment) so that you can participate, please let us know. Please feel free to ask me any questions you might have.
