

adopt substantively similar proposals to increase position and exercise limits for options on each Fund, such that the Exchange's proposal would benefit competition. For these reasons, the Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

**FLEX Fund Options.** The Exchange believes that the proposal to permit FLEX Fund options will not impose any burden on intra-market competition as all market participants can opt to utilize this product or not. The proposed rule change is designed to allow investors seeking option exposure to bitcoin to trade FLEX Fund options. Moreover, the Exchange believes that the proposal to permit FLEX Fund options would broaden the base of investors that use FLEX Options to manage their trading and investment risk, including investors that currently trade in the OTC market for customized options. The Exchange believes that the proposed FLEX Fund options will not impose any burden on inter-market competition but will instead encourage competition by increasing the variety of options products available for trading on the Exchange, which products will provide a valuable tool for investors to manage risk. Should this proposal be approved, competing options exchanges will be free to offer products like the proposed FLEX Fund options.
