No change to original instructions.

Enter funds required for compensation of personnel from the selected program. Costs of employee salaries and wages engaged in activities under the program. See grantor agency regulations (e.g., 2 CFR §200.430; 45 CFR §75.430) for more information on allowable compensation personnel costs. Do not include the personnel costs of consultants, contractors and subrecipients under this category. If not applicable, leave blank.

Enter funds required for compensation of fringe benefits from the selected program. Costs of employee fringe benefits are allowances and services provided by employers to their employees in addition to regular salaries and wages. For more information on fringe benefits, please refer to the grantor agency regulations regarding compensation fringe benefits (e.g., 2 CFR §200.431; 45 CFR §75.431). Do not include the fringe benefits of consultants, contractors, and subrecipients, because those costs should be listed under the "Contractual" category as part of the total value of the contract or agreement. Typically, fringe benefit amounts are determined by applying a calculated rate for a particular class of employee (full-time or part-time) to the salary and wages requested. Fringe rates are often specified in the approved indirect cost rate agreement. Fringe benefits may be treated as a direct cost or indirect cost in accordance with the applicant's accounting practices. Only fringe benefits as a direct cost should be entered under this category. If not applicable, leave blank.

Enter funds required for travel from the selected program. Costs of project-related travel (i.e., transportation, lodging, subsistence, and other related items) by employees who are in travel status on official business of the non-Federal entity. Travel by non-employees such as consultants, contractors or subrecipients should be included under the "Contractual" category. Local travel for employees in non-travel status should be listed on the "Other" category. Travel costs should be developed in accordance with the applicant's travel policies and grantor agency regulations (e.g., 2 CFR §200.474; 45 CFR §75.474). If not applicable, leave blank.

Enter funds required for equipment from the selected program. "Equipment" means tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost that equals or exceeds the lesser of: (a) the capitalization level established by the organization for the financial statement purposes, or (b) \$5,000. (Note: Acquisition cost means the net invoice unit price of an item of equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in-transit insurance, freight, and installation, shall be included in, or excluded from, acquisition cost in accordance with the non-Federal entity's regular written accounting practices.) For more information, please see grantor agency regulations (e.g., 2 CFR §§200.2, 200.313, and 200.439; 45 CFR §§75.2, 75.320, and 75.439). If not applicable, leave blank.

Enter funds required for supplies from the selected program. Tangible personal property other than those included in the Equipment category. A computing device is a supply if the acquisition cost is less than the lesser of the capitalization level established by the non-Federal entity for financial statement purposes or \$5,000, regardless of the length of its useful life. For more information, please see the grantor agency requirements (e.g., 2 CFR §§200.2, 200.314, and 200.453; 45 CFR §§ 75.2, 75.321, and 75.453). If not applicable, leave blank.

Enter funds required for contractual costs from the selected program. Cost of all contracts except those that should be placed under other categories such as equipment, supplies, or construction. In accordance with grantor agency regulations, if applicable, procurement standards (e.g., 2 CFR §§200.317 - 200.327; 45 CFR §§75.326 - 75.340) and subaward requirements (e.g., 2 CFR §§200.331 - 200.333; 45 CFR §§75.351 - 75.353) must be followed. Include third-party evaluation contracts, procurement contracts, and subawards. Costs related to individual consultants should be listed in the "Other" category. If applicable and charged as a direct cost, include third-party renting or leasing agreements for equipment; and, third-party renting or leasing agreements for real property (building, facility, administrative office, space, structure, land, and other real property) used specifically for the program. Do not include real property owned by the recipient or are arrangements considered "less-than-arms-length", "sale and lease back", "finance lease" per Financial Accounting Standards Board (FASB), "financed purchase" per Government Accounting Standards Board (GASB) standards because if charged as: 1) a direct cost, costs should be listed under the "Other" category and are allowable only up to the amount that would have been allowed had the recipient owned the property or purchased the property on the date the agreement was executed; or 2) as an indirect cost, costs should be included under the "Indirect" category. These costs must be treated as either direct or indirect costs, not both. For more information, see grantor agency regulations (e.g., 2 CFR 200.2, 200.414, 200.430 - 200.431, 200.434, 200.436, and 200.439; 45 CFR §75.2, 75.414, 75.430-75.431, 75.434, 75.436, and 75.439). If not applicable, leave blank.

Enter funds required for construction or major renovation for the selected program. **Construction and major renovation are unallowable in the absence of specific statutory authority.** Construction means the creation of a building, structure or facility, including the installation of equipment, site preparation, landscaping, associated roads parking, environmental mitigation and utilities, which provides space not previously available. It includes freestanding structures, additional wings or floors, enclosed courtyards or entryways, and any other means **to provide usable space that did not previously exist** (excluding temporary facilities). Major Renovation (A&R) is considered a structural change (e.g., to the foundation, roof, floor, or exterior or load-bearing walls of a facility, or an extension to an existing facility) to achieve the following: increase the floor area; and/or change function and purpose of an **existing** building, structure, or facility. Some grantor agencies use a dollar amount to distinguish between minor and major A&R, i.e., a major renovation threshold, for the entire project period per parcel. Please seek grantor agency guidance if intending to enter an amount under this line item. Grantor agencies may require additional information be provided before non-Federal entities proceed and/or incur costs under this category. This line may be subject to additional requirements, OMB forms, and grantor agency review. If not applicable or unallowable under the grant program, leave blank.

Enter the total of all other costs for the selected program, to include costs not listed elsewhere in this form. Such costs, where applicable and allowed under the program, may include, but are not limited to: individual consultant costs; local travel; insurance (not included under the Fringe category); medical and dental costs (non-personnel); professional service costs (e.g., audit charges); depreciation of equipment and real property (when not treated as an indirect cost), printing and publications, training costs (such as tuition and stipends), staff development costs, and administrative costs (when not treated as an indirect cost). **Purchase and/or acquisition costs, including financing and interest payments, of real property are unallowable in the absence of specific statutory authority.** Please seek grantor agency guidance if intending to enter financing and interest amounts under the "Other" category. Grantor agencies may require additional information be provided before non-Federal entities proceed and/or incur such costs and may be subject to additional requirements, OMB forms, and grantor agency review. If not applicable or unallowable under the grant program do not include these costs. Any other real property owned by the recipient or arrangements considered "less-than-arms-length", "sale and lease back", "finance lease" per the FASB, "financed purchase" per GASB standards intended to be proposed or claimed for use, if applicable and allowed under the program, and in accordance with grantor agency regulations (e.g., 2 CFR §§200.436 and 200.465; 45 CFR §§75.436 and 75.465) may be included under the "Other" category. However, the justification of these costs must include: the allocable percentage and total dollar amount; the depreciation amount with type of method and calculation used; tax amount (if applicable); insurance amount and what it covers; maintenance and repair amounts with details on each type of expense proposed and its associated cost; minor A&R (if any) with specifics for each type of proposed expense and its associated cost; the ownership type (e.g., owned, leased, or intent to lease); clearly show the computation, and provide other information that supports the amount requested. Any cost above the allowed amount, per regulations, are the responsibility of the non-Federal entity. Do not include costs of third-party renting or leasing real property and equipment because those costs should be under the "Contractual" category. If not applicable, leave blank.

~~No change to original instructions.~~

Enter the amount of indirect cost in accordance with the program requirements, negotiated indirect cost rate agreement, or the 10% de minimis rate. Costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. For more information, please see the grantor agency requirements (e.g., 2 CFR §§200.2, 200.403 - 200.405, and 200.412 - 200.414; 45 CFR §§ 75.2, 75.403 - 75.405, and 75.412 - 75.414). If not applicable, leave blank.
