Automated Teller Machine Card Network	46
Electronic Benefits Transfer Card Processor	49
Private-Label Prepaid Card Issuer and Processor	53
P2P and Money Transfer Processor	57
Mobile Wallet Processor	61

General Instructions

About the study

The Federal Reserve Payments Study estimates national aggregate payments through the collection of survey data from payment organizations and depository institutions. The study includes the Networks, Processors, and Issuers Payments Surveys (NPIPS) and the Depository and Financial Institution Payments Survey (DFIPS). Aggregate results will be compared to those of previous studies to track changes and identify trends in US payments.

About this survey

This survey, part of the 2023 NPIPS, covers general-purpose credit card network transactions for calendar year 2022. Allocations of transactions are requested for several category types, including transactions classified as fraudulent by an unauthorized third party. Counts of the number of physical or virtual cards carrying your organization's network brand that are issued and outstanding are also requested.

Confidentiality

Any information you provide for this survey is strictly confidential. Individual responses to the survey will not be shared with the public or the industry.

Your participation

Your organization was selected to participate in this survey because it represents a unique and important component of general-purpose credit card network transactions for payment from accounts domiciled in the United States. Data from your response will contribute to estimates of the national aggregate number and value of electronic payments made in the US.

Data Entry

Items left blank can be difficult to interpret and may generate follow-up questions. If appropriate, please enter one of these alternatives:

- * Enter "0" if the requested item is known to be zero. (Items that are not applicable to your institution are typically equal to zero.)

- * Enter "NR" if the requested item is known to be nonzero but cannot be reported.

If estimated amounts rather than actual amounts are reported for any item(s), please explain in the comments field at the bottom of each sheet.

Definitions and examples

Definitions and examples can be found in the glossary.

Questions?

If you have questions about the survey content or problems with the submission process, please contact FRPSCommunications@atl.frb.org.

General-Purpose Credit Card Network Payment Survey

Please report data on general-purpose credit card transactions and related information for calendar year 2022. Responding completely and accurately will help ensure accuracy of the aggregate estimates.

Include:

- * Only credit or charge cards and transactions carrying your organization's network brand
- * All domestic and cross-border transactions associated with US-domiciled credit card accounts
- * Physical or virtual credit or charge cards

Do not include:

- * Original credit transactions (OCTs) or push payment credits
- * Transactions processed by your organization but carrying another organization's network brand
- * Debit card, prepaid card, or private-label (closed loop) transactions
- * Non-network transactions (i.e., convenience checks or balance transfers)
- * Transactions originated from foreign accounts (except for questions 12 and 21)

Calendar year 2022 general-purpose credit card transactions	Number	Value (\$)
1. Total transactions		
1a. Less: Denials (authorization declined)		
2. Total authorized transactions = 1 - 1a		
2a. Less: Pre-authorization only (authorized but not settled)		
3. Net, authorized & settled transactions = 2 - 2a		
3a. Less: Cash advances		
3b. Less: Adjustments and returns = 3b.1 + 3b.2		
3b.1. Chargebacks (issuer initiated)		
3b.2. Other adjustments and returns (acquirer initiated)		
4. Net, purchase transactions = 3 - 3a - 3b		

General-Purpose Credit Card Network Payment Survey

Preferred basis for reporting payment transactions

5. Among the different subtotals of payment transactions listed above, which would you prefer to use to report more detailed allocations of payment transactions below? If possible, please use 3. *Net, authorized & settled transactions* (the default selection)

- 2. Total authorized transactions
- 3. Net, authorized & settled transactions
- 4. Net, purchase transactions

Transactions by channel

6. [your selection of payment transaction type above] = 6a + 6b

2022 - Quarter 1

2022 - Quarter 2

2022 - Quarter 3

2022 - Quarter 4

6a. In-person transactions

Transactions for which the card user is present, including card-present transactions and mobile transactions at the point of sale. Also include card-not-present transactions for which the card user is present at the point of sale (e.g., key-entered transactions). Do not include remote transactions classified as card-present solely because of the level of authentication.

2022 - Quarter 1

2022 - Quarter 2

2022 - Quarter 3

2022 - Quarter 4

6b. Remote transactions (card user not at merchant location) = 6b.1 + 6b.2 + 6b.3 + 6b.4

Transactions for which the card user does not interact with a physical terminal or other device provided by the merchant or payee. Typically, these include card-not-present transactions. Also include any remote transactions classified as card-present solely because of the level of authentication.

2022 - Quarter 1

2022 - Quarter 2

2022 - Quarter 3

2022 - Quarter 4

Virtual cards

22. Please indicate if your organization issued or processed transactions for virtual general-purpose credit or charge cards during calendar year 2022.

A virtual card is a digital representation of a general-purpose credit or charge card that does not exist in physical form. Typically stored in a digital wallet for online, in-app, or in-person purchases with a mobile device (using NFC or barcode scanner). Do not count individual tokenized transactions as virtual cards.

Private-Label Credit Card Merchant Issuer Payment Survey

Please report data on private-label credit card transactions and related information for calendar year 2022. Responding completely and accurately will help ensure accuracy of the aggregate estimates.

Include:

- * Only private-label credit cards and transactions that your organization processed in-house
- * Transactions on a closed loop point-of-sale system for use at your retail stores or online establishments
- * All domestic and cross-border transactions associated with US-domiciled credit card accounts
- * Both consumer and business/government card transactions
- * Physical or virtual credit or charge cards

Do not include:

- * General-purpose (i.e., network-branded Visa, MC, Amex, Discover) credit, debit, or prepaid card transactions
- * Transactions for which your organization was only the receivables owner but not the transaction processor
- * Transactions originated from foreign accounts

Note: We are surveying both in-house and outsourced private-label credit card issuers/processors. To ensure that we do not double-count your organization's volume, please tell us if your organization outsourced processing or receivables ownership (questions 1 and 2 below).

Calendar year 2022 private-label credit card transaction processing

1. Transaction processing

Please indicate if your organization outsourced some or all of its private-label credit card transaction processing to a third party.

**100%
in-house**
[]

**Partially
outsourced**
[]

**Fully
outsourced**
[]

1a. If **fully or partially outsourced**, please indicate the name of the processor:

--	--	--	--

1b. If your organization outsourced its private-label credit card transaction processing for only part of 2022, please indicate the period of time in 2022 that your organization **did not** outsource:

From (2022)	mm/dd		To (2022)	mm/dd
-----------------------	-------	--	---------------------	-------

Calendar year 2022 private-label credit card receivables ownership

2. Receivables ownership:

Please indicate if your organization outsourced some or all of its private-label credit card receivables ownership to a third party (i.e., *outstandings were owned by a different organization*).

**100%
in-house**
[]

**Partially
outsourced**
[]

**Fully
outsourced**
[]

2a. If **fully or partially outsourced**, please indicate the name of the receivables owner:

--	--	--	--

If you answered **Fully outsourced** to question 1 above for your organizations private-label credit card transaction processing, this survey is complete. Thank you for participating.

If you answered **100% in-house** or **Partially outsourced** to question 1 above for your organization's private-label credit card transaction processing, please finish the rest of the survey and report transaction data **only for the in-house processed** portion of your portfolio.

Comments:

Private-Label Credit Card Processor Payment Survey

Please report data on private-label credit card transactions and related information for calendar year 2022. Responding completely and accurately will help ensure accuracy of the aggregate estimates.

Include:

- * Only private-label credit cards and transactions that your organization issued and processed in-house on behalf of merchant customers
- * Transactions on a closed loop point-of-sale system
- * All domestic and cross-border transactions associated with US-domiciled credit card accounts
- * Physical or virtual credit or charge cards

Do not include:

- * General-purpose (i.e., network-branded Visa, MC, Amex, Discover) credit, debit, or prepaid card transactions
- * Transactions for which your organization was only the receivables owner but not the transaction processor
- * Transactions originated from foreign accounts

Calendar year 2022 transaction processing

Transactions by channel

Number

Value (\$)

6. Completed transactions (repeat item 4) = 6a + 6b

6a. In-person transactions = 6a.1 + 6a.2 + 6a.3

Transactions the card user initiates by interacting with a physical terminal or other device provided by the merchant or payee, usually with a card or mobile device. Also include card-not-present transactions for which the card user is present at the point of sale (e.g., key-entered transactions).

6a.1. Transactions initiated using a merchant-issued card or token

6a.2. Transactions initiated using an app on a mobile device = 6a.2.1 + 6a.2.2

6a.2.1. Transactions initiated using a barcode or QR code

6a.2.2. Other transactions using an app on a mobile device

6a.3. Other (including instant credit or lookup of account number)

6b. Remote transactions (person not at merchant location = 6b.1 + 6b.2)

Transactions for which the card user does not interact with a physical terminal or other device provided by the merchant or payee. Typically, these include card-not-present transactions.

6b.1. Buy online (order and payment)/pick up in store, curbside, or locker

6b.2. Other remote transactions (no store pickup)

Transactions by user account type

Number

Virtual cards

13. Please indicate if your organization issued or processed transactions for virtual private-label credit or charge cards during calendar year 2022.

A virtual card is a digital representation of a private-label credit or charge card that does not exist in physical form. Typically stored in a digital wallet for online, in-app, or in-person purchases with a mobile device (using NFC or barcode scanner). Do not count individual tokenized transactions as virtual cards.

General-Purpose Prepaid Card Network Payment Survey

Please report data on general-purpose prepaid card transactions and related information for calendar year 2022. Responding completely and accurately will help ensure accuracy of the aggregate estimates.

Include:

- * Only prepaid cards and transactions carrying your organization's network brand
- * All domestic and cross-border transactions associated with US-domiciled prepaid card program accounts
- * Physical or virtual prepaid cards

Do not include:

- * Original credit transactions (OCTs) or push payment credits
- * Transactions processed by your organization but carrying another organization's network brand
- * Credit card, non-prepaid debit card, or private-label (closed loop) transactions
- * Non-network transactions
- * Electronic benefits transfer (EBT) card transactions
- * ATM transactions
- * Transactions originated from foreign accounts (except for questions 13 and 24)

Calendar year 2022 general-purpose prepaid card transactions

Number

Value (\$)

1. Total transactions

Do not include: electronic benefits transfer (EBT) card transactions, ATM transactions or transactions that your organization processed but were originated on another network.

1a. Less: Denials (authorization declined)

2. Total authorized transactions

= 1 - 1a

2a. Less: Pre-authorization only (authorized but not settled)

3. Net, authorized & settled transactions

= 2 - 2a

3a. Less: Cash-back at the point of sale

3b. Less: Adjustments and returns

= 3b.1 + 3b.2

3b.1. Chargebacks (issuer initiated)

3b.2. Other adjustments and returns (acquirer initiated)

4. Net, purchase transactions

= 3 - 3b for Number, = 3 - 3a - 3b for Value

A point-of-sale (POS) purchase transaction with cash back is counted as one transaction. Do not subtract the number of cash-back transactions. Only subtract the dollar value amount of the cash-back transactions.

Also include fraudulent card-not-present transactions for which the card user is present at the point of sale (e.g., key-entered transactions). Do not include fraudulent remote transactions classified as card-present solely because of the level of authentication.

17b. Remote transactions (person not at merchant location) = 17b.1 + 17b.2 + 17b.3 + 17b.4

--	--

Fraudulent transactions the card user initiates by interacting with a physical terminal or other device provided by the merchant or payee, usually with a card or mobile device. Also include fraudulent card-not-present transactions for which the card user is present at the point of sale (e.g., key-entered transactions). Do not include fraudulent remote transactions classified as card-present solely because of the level of authentication.

17b.1. Mail-order/telephone-order transactions (MOTO)

Fraudulent transactions for which the card user does not interact with a physical terminal or other device provided by the merchant or payee. Typically, these include fraudulent card-not-present transactions. Also include any fraudulent remote transactions classified as card-present solely because of the level of authentication.

--	--

17b.2. Internet purchase transactions (E-commerce)

Fraudulent remote purchase transactions for which the merchant receives an order through the mail or over the telephone. Card is typically charged at time of shipment or delivery. If possible, please exclude fraudulent payments on account, e.g., bill pay.

--	--

17b.3. Bill pay: recurring/subscription/installment transactions

Fraudulent payments of bills or invoices, often on a prearranged basis and may include "card on file", based on an ongoing customer relationship. Also include fraudulent payments made on a monthly or installment basis. Examples include utility bill payments and multiple payments for a single purchase.

--	--

17b.4. Other remote transactions

Fraudulent transactions that do not belong or do not have identifiers to assign into the remote transaction categories provided above.

--	--

Please describe any significant fraudulent transaction types included in the "Other remote transactions" category above:

General-Purpose Prepaid Card Network Payment Survey

Third-party fraudulent transactions by card user account type

21. Third-party fraudulent transactions (repeat item 16) = 21a + 21b

21a. Transactions from consumer accounts = 21a.1 + 21a.2

Fraudulent transactions made with cards (including virtual cards) issued to a consumer for the purpose of making consumer-related transactions.

21a.1. Transactions with government-administered general-purpose cards

Fraudulent transactions made with cards (including virtual cards) issued to a consumer for the purpose of providing government benefits. Include state and federal programs with cash benefits such as unemployment, TANF, or Social Security.

21a.2. Transactions from other consumer accounts (including fraudulent business-sponsored payroll)

Fraudulent transactions made with cards (including virtual cards) issued to a consumer including reloadable and non-reloadable gift cards, FSA/HSA medical cards, customer refund and incentive cards, and business-sponsored payroll cards which are issued to employees for the purpose of paying them and/or making consumer-related transactions.

21b. Transactions from business/government (commercial) accounts

Fraudulent transactions made with cards (including virtual cards) issued to a business or government or its employee for the purpose of making business-related transactions. Include corporate charge, small business, travel/entertainment, procurement, and fleet cards.

Comments:

Electronic Benefits Transfer Card Processor Payment Survey

Please report data on electronic benefits transfer (EBT) card transactions and related information for calendar year 2022. Responding completely and accurately will help ensure accuracy of the aggregate estimates.

Include:

- * Only EBT cards and transactions to access funds and/or make purchases at approved merchants in accordance with US government-administered program rules for SNAP, TANF, WIC, and cash benefits
- * Purchases and cash-back at the point of sale
- * ATM withdrawals and other payments using EBT cards for which your organization was the processor

Do not include:

- * General-purpose (i.e., network-branded Visa, MC, Amex, Discover) credit, debit, or prepaid card transactions
- * Private-label credit or prepaid card transactions

Calendar year 2022 EBT card transactions	Number	Value (\$)
1. Total transactions		
1a. Less: Denials (authorization declined)		
2. Total authorized transactions = 1 - 1a		
2a. Less: Pre-authorization only (authorized but not settled)		
3. Net, authorized & settled transactions = 2 - 2a		
3a. Less: Cash-back at the point of sale		
3b. Less: ATM cash withdrawals		
3c. Less: Adjustments and returns		
4. Net, purchase transactions = 3 - 3a - 3b - 3c		

Electronic Benefits Transfer Card Processor Payment Survey

Preferred basis for reporting payment transactions

5. Among the different subtotals of payment transactions listed above, which would you prefer to use to report more detailed allocations of payment transactions below? If possible, please use 3. *Net, authorized & settled transactions* (the default selection).

Comments:

Private-Label Prepaid Card Issuer and Processor Payment Survey

Please report data on private-label prepaid card transactions and related information for calendar year 2022. Responding completely and accurately will help ensure accuracy of the aggregate estimates.

Include:

- * Only private-label prepaid cards and transactions under a single merchant brand or group of brands
- * Transactions on a closed loop point-of-sale system used at your retail stores or online establishments
- * Reloadable and non-reloadable cards and transactions
- * Cards and transactions for accounts domiciled in the United States
- * Physical or virtual prepaid cards

Do not include:

- * General-purpose (i.e., network-branded Visa, MC, Amex, Discover) credit, debit, or prepaid card transactions
- * Transactions for which your organization was only the receivables owner but not the transaction processor
- * Any fees charged to the prepaid card accounts (e.g., monthly transaction fees, dormancy fees)
- * Transactions originated from foreign accounts
- * Card funding transactions (requested separately in question 9)

Calendar year 2022 private-label prepaid card transactions	Number	Value (\$)
1. Total transactions <i>Do not include card funding transactions (requested separately in question 9) or fees charged to the cards (e.g., monthly transaction fees, dormancy fees).</i>		
1a. Less: Denials (authorization declined)		
2. Total authorized transactions = 1 - 1a		
2a. Less: Pre-authorization only (authorized but not completed or posted)		
3. Completed transactions (posted to card accounts) = 2 - 2a		
3a. Less: Cash-back at the point of sale		
3b. Less: Adjustments and returns		
4. Net, purchase transactions = 3 - 3b for Number, = 3 - 3a - 3b for Value <i>A point-of-sale (POS) purchase transaction with cash back is counted as one transaction. Do not subtract the number of cash-back transactions. Only subtract the dollar value amount of the cash-back transactions.</i>

Person-to-Person and Money Transfer Processor Payment Survey

Please report data on person-to-person (P2P) and money transfer transactions and related information for calendar year 2022. Responding completely and accurately will help ensure accuracy of the aggregate estimates.

Include:

- * Only transactions originated on your P2P or money transfer system, including those received on another system
- * Funds transfers typically between individuals, usually feature an online system, agent, email or mobile-phone-based system

Do not include:

- * Transactions made from non-US-domiciled accounts to US payees (requested separately in questions 8 and 13)

Note: P2P & Money Transfers are generally initiated by the payer (i.e., "push" transactions). Sometimes a transfer requires an action by the payee to receive the transfer, such as an acceptance or request (i.e., a "pull" transaction). Do not count the receipt or pull of a transaction separately from its origination or push, or count a transaction originated on another system and received on yours. **If you cannot separate the originated transactions on your system from the available data, please provide your estimate of the P2P and money transfer transactions originated on your system and indicate that it is an estimate in the comment box at the bottom of this sheet.**
