

**Be on the lookout!**

You will be receiving an invitation in early fall to take a survey about predators and the predator damage management assistance you received from Wildlife Services.

Your opinions are important to us and will help us to evaluate and improve our services. You will be given the choice of taking the survey online or on paper, however, we are encouraging everyone to take the survey online for ease of completion. If you choose this method, please provide your email address to the Wildlife Services personnel assisting you. Otherwise, we will send you a paper survey in the mail with a postage prepaid return envelope.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0579-XXXX. The time required to complete this information collection is estimated to average 15 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collected. Send comments regarding this burden statement or any other aspect of this information collection, including suggestions for reducing this burden, to [APHIS.PRA@usda.gov](mailto:APHIS.PRA@usda.gov).

OMB Approved 0579-XXXX Exp. Date XX/202X

Any information you provide will be used for this study only; we will not use or distribute the information you provide for any other research studies. If you decide to participate in this study, you may withdraw your consent and stop participation at any time without penalty. Your information will be kept confidential and stored in a secure location accessible only to our research team on our network server. While there are no direct benefits to you, we hope to gain information that will help us understand the viability of using predator damage management methods.
