Comment from Riggs, Carlee (APHIS-2024-0053-0014)

Posted by the Animal and Plant Health Inspection Service on Dec 11, 2024

I recommend gathering every detail, no matter how small it may seem, from livestock producers in order to fully understand the devastating impact these wolves have made; not only to the livestock but also to the livelihood of the ranchers, the production cycle, and the market. If you want to better understand someone, walk a mile in their shoes.
