• Introduction

The purpose of this document is to list all the data elements collected online through the Fellowship Management System (FMS). The FMS online application module is a streamlined mechanism for applicants of the Centers for Disease Control and Prevention (CDC) fellowships to submit their information online and track statuses of the application processes (e.g., all required materials received, invited for interviews). The FMS is a robust flexible framework and the FMS Application Module is tailored successfully for various CDC fellowships:

1. Epidemic Intelligence Service (EIS)
2. CDC E-learning Institute (ELI)
3. Epidemiology Elective Program (EEP)
4. Future Leaders in Infections and Global Health Threats (FLIGHT)
5. Laboratory Leadership Service (LLS)
6. CDC Steven M. Teutsch Prevention Effectiveness (PE) Fellowship
7. Public Health Associate Program (PHAP)
8. Public Health Informatics Fellowship Program (PHIFP)
9. Science Ambassador Fellowship (SAF)
10. Evaluation Fellowship Program (EFP)

a. Document Structure

This document is broken down by the major pages of the FMS Application. In this document, each page of the FMS Application has sections and some sub-sections. In addition, application instructions, login, and registration pages are included. Instructions and emails in the FMS Application are tailored to each CDC fellowship's requirements, eligibility criteria, information, and timeline.

Following the screenshots in each section is a table that shows the status of the collection of data elements by each CDC fellowships. The following labels indicate the status of the collection:

- “Yes” indicates that the fellowship collects the information and that applicants are required to submit this information.
- “No” indicates that the fellowship does not collect this information.
- “Open Text Response” indicates an open-ended response prompt

In addition, the table shows the data values of each data element, and for ones that have a list of dropdown values, the data value category is hyperlinked to its list located in the Appendix.

Privacy Act Information

The Privacy Act applies to this information collection. Information collected will be kept private as noted in the System of Records Notice 09-20-0112, Fellowship Program and Guest Researcher Records

Public Burden Information

Form Approved
OMB No. 0920-0765
Exp Date 03/31/2023

Participation in this information collection is required for fellowship applicants and fellowship recipients. CDC uses information submitted through eFMS to select recipients, match recipients to opportunities, monitor progress, and improve the effectiveness of fellowship programs. CDC's authority to collect this information is provided by the Public Health Service Act in §301, Title 42 U.S.C. §241(a)

Fellowship Application Module

Public reporting burden of this collection of information is estimated to average 75 minutes per response, including the 15 minutes for the reference of letter writers, and including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74 Atlanta, Georgia 30333; ATTN: PRA (0920-0765).

Instructional text for EFP Only: Transcripts should be for your qualifying/highest degree at the doctoral or master's level. The qualifying degree is the one most related to the CDC's work in public health and evaluation. If selected as a Fellow, your qualifying degree is one of the factors that determines your salary. If you have multiple graduate degrees (master's or doctorate) and you are unsure of which degree qualifies, then submit official transcripts for all doctoral and master's degrees that you have. Transcripts issued to student are acceptable but if selected, must submit official transcripts directly issued to CDC no later than early June. You'll need to prepare for this is you're selected given the quick turnaround. Official transcripts will need to be issued to "CDC Evaluation Fellowship and CDC Human Resource". If your academic institution does not have electronic official transcripts available, then please discuss with the Fellowship as soon as selected. The transcript must state degree of study, courses taken, earned grades, and graduation/confer date. If from non-U.S. academic institution, you must provide a letter from a credentialing company that evaluated and certified your degree is equivalent to US-accredited academic institution. All transcripts must be translated into English.

Letters of Recommendation

Action Required

You need to have a minimum of 1 item in this list in order to submit your entry [Export .CSV] [Add New Item]

INSTRUCTIONAL TEXT FOR LLS:

Identify two people who can provide recommendations on your behalf using our standardized online form.

Select 2 individuals who have served in a supervisory or mentoring role and are familiar with your academic achievements, aspirations, personal qualities, and professional attributes. These individuals should provide recommendations specific to your LLS fellowship application.

Avoid requesting letters from colleagues or friends. Recommendations must be written in English.

Request/confirm their email address.

Tell recommendation writers to expect a system-generated email from LLS@cdc.gov with instructions for electronically submitting their responses to questions in a standardized recommendation form.

One of the two standardized letters of recommendation must be from persons who are not currently employed at the CDC.

Standardized Letters of Reference (sLOR) Template for Fellowships and Programs Version August 14, 2019

1. Email to reference writers:

Dear Colleague,

{{applicantname}} is a candidate for the Centers for Disease Control and Prevention's (CDC) {fellowship/program}, and has requested for you to complete their recommendation form below. The recommendation form must be received by {mm/dd/yyyy} at 11:59 PM (ET) in order for the candidate to be considered. Please note that the applicant has waived their right to view your recommendation.

fellowship/program description

ELI	ELI is designed to cultivate skills of public health training professionals with limited experience designing or developing e-learning products. Through partnership with the Public Health Foundation, ELI is a six-month online fellowship that offers access to CDC-developed materials and subject matter experts, as well as the opportunity to learn from peers in a positive, experiential environment. Fellows learn innovative strategies and get the hands-on experience needed to create quality e-learning products. More information about this fellowship can be found at https://www.cdc.gov/elearninginstitute/index.html
EIS	EIS is a highly competitive 2-year, post-graduate fellowship in which health professionals and doctoral-level scientists develop competency in applied epidemiology, communication, and professionalism while addressing a wide range of front-line public health problems. More information about this fellowship can be found at www.cdc.gov/eis .
LLS	LLS is a highly competitive 2-year postdoctoral fellowship that prepares early-career laboratory scientists to become future public health laboratory leaders. Through on-the-job service at CDC and other public health laboratories, fellows acquire and apply skills in laboratory quality management, the science of biosafety, and leadership. More information about this fellowship can be found at www.cdc.gov/lls .
SAF	The CDC Science Ambassador Fellowship is the only program of its kind offered by CDC for teachers and educational leaders interested in bringing public health sciences into middle- and high- school classrooms. This competitive fellowship includes a 5-day summer course at CDC headquarters in Atlanta, Georgia, and a 1-year distance-based professional development opportunity. More information about this fellowship can be found at: https://www.cdc.gov/careerpaths/scienceambassador/index.html
EEP	The Epidemiology Elective Program (EEP) introduces medical and veterinary students to applied epidemiology, public health, and global health. Students learn by gaining hands-on experience and mentorship from CDC subject matter experts. This program offers assignments during 6- or 8-week rotation periods largely based at CDC in Atlanta, Georgia. More information about this program can be found at: https://www.cdc.gov/epielelective/overview.html .
FLIGHT	FLIGHT is a new program focused on developing future CDC leaders through training, work experience, and mentorship. applicant has waived their right to view your recommendation. More

	information about this fellowship can be found at www.cdc.gov/ophss/csels/dsepd/organization/od/leadership.html .
PMR/F	PMR/F is a 12- or 24-month program accredited by the Accreditation Council for Graduate Medical Education (ACGME) and meets the residency requirement of the American Board of Preventive Medicine (ABPM) for the Public Health and General Preventive Medicine specialty. The Fellowship is a 12-month program similar to PMR intended for clinicians and for physicians who do not meet eligibility criteria for the Residency. More information about this fellowship can be found at www.cdc.gov/prevmed .
PH-TIPP	PH-TIPP provides formal training in policy analysis and development as well as program evaluation. During this 1-year on-the-job professional development opportunity, participants will engage in a training experience using projects from their day-to-day work. PH-TIPP training uses evidence-based approaches to help participants develop and enhance their population health skills and add value to their organizations. More information about this fellowship can be found at www.cdc.gov/pophealthtraining .
PHIFP	PHIFP is a 2-year, post-graduate fellowship in applied public health informatics for professionals interested in applying computer science, information science, and technology to address public health problems. PHIFP fellows are expected to be creative problem solvers and are trained in the following core competency domains – Analysis, Assessment, and Evaluation, Communication, Public Health Informatics Sciences, and Health Systems Change. More information about this fellowship can be found at https://www.cdc.gov/phifp/index.html .
PE	The PE Fellowship is a two-year research and service post-doctoral fellowship, established in 1995 to address an ongoing demand in the field of public health for quantitative policy analysis, health economics-based inquiry, and integrative health services research through the recruitment, internal placement, and professional development of critical research resources. At CDC, prevention effectiveness research includes the use of econometric, decision, simulation, and operations analysis and modeling to understand determinants of health, morbidity, mortality, health inequalities, healthcare use, and expenditures. More information about this fellowship can be found at https://www.cdc.gov/pef/index.html .

Sincerely,

{fellowship/program}

INSTRUCTIONAL TEXT

By selecting the option below, you confirm that the application information given in this form is true, complete, and accurate. Three standardized letters of recommendation are required from persons familiar with your academic achievements, aspirations, personal qualities, and professional attributes. Two of the standardized letters of recommendation must be from persons who are not currently employed at the CDC. If you are currently employed at CDC, you may request a fourth letter if, in addition to 2 letters from non-CDC employees, you would like to submit 2 letters from current CDC employees.

- Recommenders should typically be current or former supervisors or professors. Avoid requesting letters from colleagues or friends.
- Recommendations must be written in English.
- Let recommenders know you are requesting a recommendation and tell them to expect an email with a link to the online form that they should use to complete the standardized letter of recommendation.
- Traditional narrative letters of recommendation and MSPE (Dean's letter format) are not accepted.

13.6. Writing Samples

13.6.1 EIS Writing Samples

INSTRUCTIONAL TEXT:

Instructions:

You have 30 minutes to complete this Writing Assessment. The moderator will let you know when 5 minutes and 1 minute remain.

Below is the list of EIS Core Activities of Learning, or CALs, which EIS officers must complete over the course of the fellowship.

EIS Core Activities of Learning (CALs):

- 16 CAL 1: Conduct or participate in a field investigation of a potentially serious public health problem that requires a timely response.
- 17 CAL 2: Design, conduct, and interpret an epidemiologic analysis
- 18 CAL 3: Evaluate a public health surveillance system
- 19 CAL 4: Given an in-depth public health talk on the officer's original work or in their field of study
- 20 CAL 5: Give a 5-15 minute oral presentation to a scientific audience
- 21 CAL 6: Write a scientific manuscript for a peer-reviewed journal
- 22 CAL 7: Write a concise public health update communicating timely information
- 23 CAL 8: Write a scientific abstract
- 24 CAL 9: Communicate complex scientific concepts to a lay audience
- 25 CAL 10: Provide service to the agency (health department or CDC)

Write an email to your supervisor, Dr. Lee, to summarize a professional development goal for the first 6 months of your fellowship. To do this, please select at least one CAL, discuss why you want to focus on this activity, and describe how this activity will help to meet your professional goals.
