### Changes to Case Classification and Drug Overdose/Poisoning sections:

- Case Classification section created and SUDORSCase (#1) field moved into it

- 2 additional data elements added to Case Classification section (#2 and #3) to further classify cases by opioid/non-opioid involvement and to indicate that no coroner/medical examiner report was available
- 4 additional data elements added to Drug Overdose/Poisoning section to capture time/date the decedent was found unresponsive after the overdose

## SUDORS Tab: Substance Use/Misuse and Treatment History Section

### Previous SUDORS Version

1 Previous drug overdose

2 Recent opioid use relapse

3 History of prescription opioid/heroin abuse

4 Recent emergency department visit

5 Treatment for substance abuse

6 Type(s) of substance abuse treatment (Check all that apply)

7 Inpatient/outpatient rehabilitation

8 Medication-assisted treatment, or MAT (with cognitive/behavioral therapy)

9 Medication-Assisted treatment, or MAT (without cognitive/behavioral therapy)

10 Medication-assisted therapy, or MAT (cognitive/behavioral therapy unknown)

11 Cognitive/behavioral therapy

12 Narcotics Anonymous
