Collection of Info, Data, or Bio specimens
Data will be entered by Block Grant Coordinators (employees of STLT public health agencies in the jurisdictions that receive funds through the PHHS Block Grant) through a web-based system.
Expected Use of Findings/Results and their impact
The primary use of the data is grants management and monitoring to ensure accountability and transparency. In addition, data from this system will be used in program evaluation, responding to data requests from CSTLTS, CDC, HHS, and/or Congress, and the generation of data for CSTLTS KPIs and other reporting.
Will PII be captured?
No
Does CDC have access to the Identifiers
No
Is a certificate or assurance of confidentiality in place or planned?
No
Is a non-disclosure agreement in place?
No

The users of this system are the recipients of awards through the Preventive Health and Health Services Block Grant. Recipients are required to submit a work plan and progress report to CDC each year. The system being developed is a web-based system that will allow them to enter this information for submission to CDC. The system will contain both open and closed ended fields designed to collect the information needed for CDC to manage the grant in accordance with the requirements outlined by Congress in the authorizing and appropriations legislation for the grant.
