Dual Eligible SNPs with Highly Integrated Services (13g) - Non-Medicare

Plan Characteristics

☒ I attest that I received written notification from CMS that this individual SNP plan qualifies for the new supplemental benefit flexibility for certain Dual Eligible SNPs with Highly Integrated Services for CY2026. I further attest that the additional supplemental benefits that the SNP describes in this section of the PBP do not inappropriately duplicate an existing service(s) that enrollees are eligible to receive under a waiver, the State Medicaid plan, Medicare Part A or B, or through the local jurisdiction in which they reside. \*

Plan Characteristics

☒ I attest that the MA enrollee cost sharing for a Part B rebatable drug will not exceed the coinsurance amount of the original Medicare adjusted beneficiary coinsurance for that Part B rebatable drug. In applying this effective coinsurance percentage, MA plans may continue to base enrollee cost sharing off of the total MA plan financial liability for that Part B drug. \*
