#### Section II - Reporting Requirements

The 50 States and the District of Columbia are required to complete the LIHEAP Grant Recipient Survey Section of the LIHEAP Performance Data Form in providing estimates of sources and uses of funds, average benefits, and the maximum income cutoff in dollars for a 4-person household for each type of LIHEAP assistance provided in the federal Fiscal Year (FY) for which the report is submitted.

Additionally, the 50 states and the District of Columbia are required to complete Modules 2 and, if open for editing, 2A, and 2B of the LIHEAP Performance Data Form. This federal report provides data on three required LIHEAP Performance Measures for the FY for which the report is submitted. The report consists of the following sections: (1) Energy Burden Targeting, (2) Restoration of Home Energy Service, and (3) Prevention of Loss of Home Energy Service.

Timely response to the required questions on this report is mandatory. The information will be used to respond to Congressional inquiries, to calculate LIHEAP benefit targeting, and to provide FY data for the Department of Health and Human Service's (HHS's) annual LIHEAP Report to Congress that is required under Section 2610 of the Low-Income Home Energy Act of 1981, as amended [42 U.S.C. § 8621 *et seq.*]. The data are also used in measuring LIHEAP performance under the Government Performance and Results Act (GPRA) of 1993 [P.L. 103-62], as amended by the GPRA Modernization Act of 2010 [P.L. 111-352]. As the reported data are aggregated, the information in this report is not considered to be confidential.
