

# 2025 N.A. Breeding Bird Survey Data Form, United States

Please complete numbered items below after surveying route.

Observer #  is currently assigned to BBS route

**VALID SURVEY DATES AND START TIME**

This route can be surveyed between the following dates:

Start date (mm/dd)  /

End date (mm/dd)  /

Start time is exactly one-half hour before sunrise:

**COMPLETE STEPS 11-16**

**COMPLETE STEPS 1-10**

**1. Date Route Run (mm/dd/yyyy)**  
 /  /

**2. Start time (hh:mm)**  :

**3. Start temp**   Celsius  Fahrenheit

**4. Start sky**

**5. Start wind**

**6. End time**  :

**7. End temp**

**8. End sky**

**9. End wind**

**11. Were number of passing vehicles recorded during count?** Y N

**12. Is the name of the observer who performed this survey shown in the 'assigned observer' box at the bottom of page?** Y N

If you answered yes, is the contact info correct? Y N

If you answered no to either of these questions, please complete the reverse side of this page.

**13. Did the observer have an assistant to help with logistics? If yes, please provide assistant's first and last name below:** Y N

Name : \_\_\_\_\_

Did this assistant record the data? Y N

**14. How many hours did the observer and assistant contribute to the completion of this particular route this year? Include total time spent on scouting trip, data collection, travel to and from route, data entry and data review. Please round to a whole number.**

Observer's Hours       Assistant's Hours

**10. Was the route completed?** Y N

If you answered no, how many stops were completed (0-49):

**15. Was the observer paid or otherwise compensated by their employer to survey this route?** Y N

**16. Does the observer intend to survey the route next year?** Y N

If no, please use the comment form to indicate why and, if possible, provide the name and contact information of a potential replacement.

*PAPERWORK REDUCTION ACT STATEMENT:  
 A Federal agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control Number. Public burden for the collection of this information is estimated to average eleven hours per response. Comments regarding this collection of information should be directed to the Bureau Clearance Officer, U.S. Geological Survey, 807 National Center, Virginia 20192. OMB NO. 1028-0079 Expiration Date: 05/31/2025*

Assigned BBS observer  $\longrightarrow$   
 contact information:

**Use Reverse Side  
 To Make Corrections  
 To Contact Information**

If you sample multiple routes, you only need to update your address on one set of forms.

**CONTACT INFORMATION AND CORRECTIONS: use CAPITAL letters & avoid contact with edges of box.**

**Brief BBS Instructions**

- If you will not be able to conduct the survey, please contact your local BBS coordinator or national office ASAP.
- Select a run date within the window of acceptable dates provided on the reverse side. Routes must be run under satisfactory weather conditions, good visibility, little or no precipitation, light winds. Make notes of stops where weather deviates.
- START EXACTLY ONE-HALF HOUR BEFORE SUNRISE. Official start time is printed on the reverse side.
- Routes should be completed within 4 - 5 hours. Observers should count birds for *exactly* 3 minutes at each stop; birds seen before or after the 3-minute count period, or while traveling between stops, must *not* be counted, but may be noted in the comments section.
- ONE AND ONLY ONE PERSON, THE OBSERVER, IS PERMITTED TO IDENTIFY AND COUNT BIRDS.
- Count all individuals except young who are still dependent on their parents for food and/or protection (e.g., do not count begging fledglings, the downy chicks of precocial species, etc.).
- Count all birds seen within 1/4 mile (0.4 km) or heard at any distance during the 3-minute count period. Observers should avoid counting individuals already counted on previous stops.
- Write in any species not already listed on the form. Provide documentation for all write-ins not typically found in the area (check a field guide map if unsure). Check the "Mig?" box if the species is not known to breed in the survey area.
- Please note the number of vehicles that pass, on the route's road *only*, during each 3-min stop. If you feel that constant excessive noise other than passing vehicles (e.g., a nearby lawnmower, stream noise, distant roadway, etc.) seriously impaired your ability to hear birds at a particular stop, please fill in the "excessive noise" bubble.

***Always read the detailed instructions before running your route.***

**Wind Speed Codes:**

Beaufort

Scale	Wind speed indicators
0	Smoke rises vertically (<1 mph, <2 kph)
1	Wind direction shown by smoke drift (1-3 mph, 2-5 kph)
2	Wind felt on face; leaves rustle (4-7 mph, 6-12 kph)
3	Leaves, small twigs in constant motion (8-12 mph, 13-19 kph)
4	Dust rises; small branches move (13-18 mph, 20-29 kph)
5	Small trees in leaf begin to sway (19-24 mph, 30-38 kph)

**Sky Condition Codes:**

Codes	Sky condition indicators
0	Clear or few clouds
1	Partly cloudy (scattered) or variable sky
2	Cloudy (broken) or overcast
4	Fog or smoke
5	Drizzle
7	Snow
8	Showers

**Many thanks for all your help!**
