

**JUSTIFICATION FOR NON-SUBSTANTIVE CHANGE**  
**“Safety Impacts of Human-Automated Driving System (ADS) Team Driving Applications” ICR**  
**OMB Control No. 2126-0083**

Due to the impacts of the new Administration’s Executive Orders, minor edits were made to the pre-study demographics/previous experience questionnaire. Specifically, the word “gender” was replaced with the word “sex” and the option of “other” as an answer to the question “What is your sex?” was removed.

There is no change in the burden hours or costs. It will still take 4.5 minutes per response to report the information using the form and the burden statement remains the same.
