

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

{{date:long}}

ALL FEDERALLY RECOGNIZED AMERICAN INDIAN AND ALASKA NATIVE TRIBES

FIVE-YEAR NOTIFICATION OF THE OPTION TO RECEIVE ADVANCE NOTIFICATION OF CERTAIN SHIPMENTS OF IRRADIATED REACTOR FUEL AND NUCLEAR WASTE (STC-XX-XXX)

**Purpose:** To provide notice of the opportunity to opt into the U.S. Nuclear Regulatory Commission's (NRC's) advance notification program.

**Background:** The NRC has committed to contacting all Federally recognized American Indian and Alaska Native Tribes every five years to determine interest in beginning or continuing receipt of advance notification of certain shipments of irradiated reactor fuel and nuclear waste, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Sections 71.97 and 73.37, that are transported within or across Tribal reservations<sup>1</sup>. The NRC amended its regulations to require NRC licensees to provide advance notification to participating Tribes.

**Discussion:** If your Tribe is interested in opting into the program, please contact the NRC Tribal Liaison Program Manager, Nadiyah Morgan at [Nadiyah.Morgan@nrc.gov](mailto:Nadiyah.Morgan@nrc.gov), [Tribal\\_Outreach.Resource@nrc.gov](mailto:Tribal_Outreach.Resource@nrc.gov), or 301-415-5836. The NRC Tribal Relations Team will mail or email a letter detailing the information needed from the Tribal official. In summary, the Tribal official would submit a letter with the following information:

1. Contact information for the notification designee, an alternate, and an emergency response contact with the understanding that these individuals have a "need-to-know" for this information and recognize that they may receive sensitive and/or safeguards information that will need to be appropriately handled. Also of note, the NRC will publish this contact information in a future *Federal Register* notice and on the NRC website for access by licensees.
2. A written statement that certifies that each designee (1) has necessary protection measures in place and will be implemented for safeguards, as described in NUREG/BR-0362, "Protection of Safeguards Information: Requirements for Tribes Participating in the Advance Notification of Irradiated Reactor Fuel Shipments" (Agencywide Documents Access and Management System [ADAMS] Accession No. ML12283A116) and (2) completed the self-directed course, "Safeguards Information (SGI) Awareness Training" (ADAMS No. ML16083A340).
