Dear  
Sir/Madam,

OMB No. 0535-0218 Exp. Date

You should have recently received your 2022 Agricultural Resource Management Survey from USDA's National Agricultural Statistics Service (NASS). **If you have already responded, thank you. If not, there is still time.** A representative will call you to set up an interview to assist in the completion of the questionnaire. You may also receive an email reminder if you opted for email service.

The survey asks questions about farm production practices. Please have your fertilizer and pesticide spray records available to speed up the survey process. Your response is important to make sure you are represented and that your farm production practices are understood by local and national policy makers.

The information you provide will be used for statistical purposes only. In accordance with federal law, your responses will be kept confidential and will not be disclosed in identifiable form. For more information about this survey, visit [nass.usda.gov/go/arms](https://nass.usda.gov/go/arms). If you have questions, please call toll-free 888-424-7828.

Sincerely,

Hubert Hamer  
Administrator, National Agricultural Statistics Service
