Registration for this listening session will be limited to 20 participants. (Separate sessions will be held for each PREP funding stream.) We encourage you to register for this session if you have suggestions for improvements to the PREP performance measures. If one of your colleagues or partners, such as an evaluator, would be better able to provide input on the measures, please forward this message and encourage them to register instead.

The FYSB has contracted with Mathematica to complete this work. If you are unable to attend the session, or if registration is full, please provide any input you have through the PREP performance measures help desk (PREPPerformanceMeasures@mathematica-mpr.com) or through the prompt on the registration site. We appreciate the suggestions we have previously received from grant recipients and will take all input into account when we revise the measures.

Additional information about PREP performance measures is available at <https://prepeval.acf.hhs.gov/>. If you have any questions, please contact the PREP performance measures help desk at PREPPerformanceMeasures@mathematica-mpr.com or toll-free at 855-267-6270.
